STATISTICS: LEARNING FROM DATA, by respected and successful author Roxy Peck, resolves common problems faced by both students and instructors with an innovative approach to elementary statistics. Peck tackles the areas students struggle with most--probability, hypothesis testing, and selecting an appropriate method of analysis--unlike any text on the market. Probability coverage is based on current research that shows how students best learn the subject. Two unique chapters, one on statistical inference and another on learning from experiment data, address two common areas of student confusion: choosing a particular inference method and using inference methods with experimental data. Supported by learning objectives, real-data examples and exercises, and technology notes, this brand new text guides students in gaining conceptual understanding, mechanical proficiency, and the ability to put knowledge into practice. Disrupting commonly held notions about who gets tattooed and why, **The Tattoo Project** describes, illustrates, and celebrates the social significances of commemorative tattoos. Written by scholars from various disciplines, as well as by community members and practitioners, this edited collection considers the meanings people make from their experiences of love, loss, trauma, resilience, and change, and why they choose to inscribe those meanings on their bodies. Writing at the intersections between the public and the private, the authors consider the production and mobilization of knowledge across communities, disciplines, and space. Featuring beautiful tattoo photography, personal narratives from project participants, and original poetry by Priscila Uppal, **The Tattoo Project** is a novel read that bridges the gap between academic and popular audiences. Ron Athey is an iconic figure in contemporary art and performance. In his frequently bloody portrayals of life, death, crisis and fortitude in the time of AIDS, Athey calls into question the limits of artistic practice. These limits enable Athey to explore key themes including gender, sexuality, radical sex, queer activism, post-punk and industrial culture, tattooing and body modification, ritual and religion. This landmark publication includes Athey's own writings, commissioned essays by maverick artists and leading academics and full-colour images of Athey's art and performances since the early 1980s. The diverse range of artistic and critical contributors to the book reflects Athey's creative and cultural impact, among them musician Antony Hegarty of Antony and the Johnsons who contributed a foreword.

Whether they graphically depict an individual's or a community's beliefs, express the defiance of authority, or brand marginalized groups, tattoos are a means of interpersonal communication that dates back thousands of years. Evidence of the tattoo's place in today's popular culture is all around—in advertisements, on the stereotypical outlaw character in films and television, in supermarket machines that dispense children's wash-away tattoos, and even in the production of a tattooed Barbie doll. This book explores the tattoo's role, primarily as an emblem of resistance and marginality, in recent literature, film, and television. The association of tattoos with victims of the Holocaust, slaves, and colonized peoples; with gangs, inmates, and other marginalized groups; and the connection of the tattoo narrative to desire and violence are discussed at length.

Poker, Knives and Temporary Tattoos By: Dan Waller Poker, knives and temporary tattoos: far more than a list of three seemingly random items. Instead, they are three footnotes in a larger story about the creation of 'Game Faces,' which has changed fanfare in college athletics as we know it. Dan Waller's honesty and admission of his obvious struggles throughout his professional journey make this a refreshing read, rather than a list of entrepreneurial accomplishments. Waller appreciates the difficulty in what he accomplished. His dedication to his own character development should provide hope to any who have a similar mission.
