Provides the seven questions asked in the afterlife, for both believers and non-believers, that will help readers shape a life of purpose and meaning on Earth.

The popular media of film and television surround us daily with images of evil - images that have often gone critically unexamined. In the belief that people in ever-increasing numbers are turning to the media for their understanding of evil, this lively and provocative collection of essays addresses the changing representation of evil in a broad spectrum of films and television programmes. Written in refreshingly accessible and de-jargonised prose, the essays bring to bear a variety of philosophical and critical perspectives on works ranging from the cinema of famed director Alfred Hitchcock and the preternatural horror films *Halloween* and *Friday the 13th* to the understated documentary *Human Remains* and the television coverage of the immediate post-9/11 period. *The Changing Face of Evil in Film and Television* is for anyone interested in the moving-image representation of that pervasive yet highly misunderstood thing we call evil.

In 1933, Margaret Sullavan made her film debut and was an overnight sensation. For the next three decades, she enchanted audiences and critics in any medium she chose--film, theater, television--and was regarded as one of the foremost dramatic actresses. Off screen, she epitomized the Southern Belle--beauty, hospitality and flirtatiousness. Deep down, she suffered from crippling insecurity, especially as a mother--a feeling exacerbated by progressive hearing loss. By age 50, she could no longer cope

and took an overdose of sleeping pills. This biography covers her film career with insightful criticism from the period and details her personal life, including her marriage to Henry Fonda, her special friendship with James Stewart and her bitter rivalry with Katharine Hepburn.

Though he never reached the lead actor status he labored so relentlessly to achieve, Warren Oates (1928–1982) is one of the most memorable and skilled character actors of the 1970s. With his rugged looks and measured demeanor, Oates crafted complex characters who were at once brazen and thoughtful, wild and subdued. Friends remember the hard-living, hard-drinking actor as kind and caring, but also sometimes as mean as a blue-eyed devil. Married four times, partial to road trips in his RV affectionately known as the "Roach Coach," and famous for performances for directors ranging from Sam Peckinpah to Steven Spielberg, Warren Oates remained a Hollywood outsider perfectly suited to the 1960s and 1970s counterculture. Born in the small town of Depoy in rural western Kentucky and reared in Louisville, Oates began his career in the late 1950s with bit parts in television westerns. Though hardly lucrative work, it was during this time Oates met renegade director Sam Peckinpah, establishing the creative relationship and destructive friendship that produced some of Oates's most unforgettable roles in *Ride the High Country* (1962), *Major Dundee* (1965), and *The Wild Bunch* (1969), as well as a leading part in *Bring Me the Head of Alfredo Garcia* (1974). Though Oates maintained a close association with Peckinpah, he had a penchant for working with a variety of visionary directors who understood his approach and were eager to enlist the subtle talents of the consummate character actor. With supporting roles in *In the Heat of the Night* (1967), *The Hired Hand* (1971), *Badlands* (1973), *1941* (1979), and *Stripes* (1981), Oates delivered solid performances for filmmakers as diverse and talented as Norman Jewison, Peter Fonda, Terrence Malick, Steven Spielberg, and Ivan Reitman. Oates's offscreen personality was just as complex as his on-screen persona. Notorious for being a nightlife reveler, he was as sensitive and introspective as he was outgoing and prone to periods of exuberant, and at times illegal, excess. Though he never became a marquee name, Warren Oates continues to influence actors like Billy Bob Thornton and Benicio Del Toro, as well as directors such as Quentin Tarantino and Richard Linklater, all of whom have cited Oates as a major inspiration. In *Warren Oates: A Wild Life*, author Susan Compo skillfully captures the story of Oates's eventful life, indulgent lifestyle, and influential career.

In recent years, cultural commentators have sounded the alarm about the dire state of reading in America. Americans are not reading enough, they say, or reading the right books, in the right way. In this book, Alan Jacobs argues that, contrary to the doomsayers, reading is alive and well in America. There are millions of devoted readers supporting hundreds of enormous bookstores and online booksellers. Oprah's Book Club is hugely influential, and a recent NEA survey reveals an actual uptick in the reading of literary fiction. Jacobs's interactions with his students and the readers of his own books, however, suggest that many readers lack confidence; they wonder whether they are reading well, with proper focus and attentiveness, with due discretion and discernment. Many have absorbed the puritanical message that reading is, first and foremost, good for you--the intellectual equivalent of eating your Brussels sprouts. For such people, indeed for all readers, Jacobs offers some simple, powerful, and much needed advice: read at whim, read what gives you delight, and do so without shame, whether it be Stephen King or the King James Version of the Bible. In contrast to the more methodical approach of Mortimer

Adler's classic *How to Read a Book* (1940), Jacobs offers an insightful, accessible, and playfully irreverent guide for aspiring readers. Each chapter focuses on one aspect of approaching literary fiction, poetry, or nonfiction, and the book explores everything from the invention of silent reading, reading responsively, rereading, and reading on electronic devices. Invitingly written, with equal measures of wit and erudition, *The Pleasures of Reading in an Age of Distraction* will appeal to all readers, whether they be novices looking for direction or old hands seeking to recapture the pleasures of reading they first experienced as children.

Throughout cinematic history, the buildings characters inhabit--whether stately rural mansions or inner-city apartment blocks--have taken on extra dimensions, often featuring as well developed characters themselves. Nowhere is this truer than in the horror film, where familiar spaces--from chaotic kitchens to forgotten attics to overgrown greenhouses--become settings for diabolical acts or supernatural visitations. Showing readers through a selection of prime movie real estate, this book explores how homes come to life in horror with an analysis of more than sixty films, including interviews and insights from filmmakers and scholars, along with many rare stills. From the gruesome murder in the hallway of *The House by the Cemetery* (1981) to the malevolent haunting in the nursery of *Eel Marsh House* in *The Woman in Black* (2012), no door is left unopened.

If you want to know your Degoba from your Delos or your Ming from your Morlock, if you can't decide whether to eat Soylent Green or in Mos Eisley's Cantina, or if you simply want to try to comprehend *2001: A Space Odyssey*, *101 Sci-Fi Movies You Must See Before You Die* is for you. Visionary and imaginative - science fiction allows all other genres to leap, quite literally, into another dimension. From the classic low-budget, space exploration *Flash Gordon* tales of the Saturday matinee serials to the slick, CGI-realized world of *The Matrix*, science fiction films have long been pushing the boundaries of the visually and dramatically fantastic. Take a classic cop chase, and set it on Mars. Think of a haunted house story, then add the *Nostromo*. Take the boy-meets-girl classic, then make them mutants. Turn the known world on its head, play with the laws of physics, and all the while hold your audience spellbound. With insight from critics, film historians, academics, and experts in the field, *101 Sci-Fi Movies You Must See Before You Die* offers a breadth of knowledge, insight, and passion to a century of close encounters, black holes, time-travel, dodgy outfits, distant planets, impossible quests, nuclear war, futuristic technology, inexplicable forces, spaceships, extraordinary monsters, subterranean societies, and fluorescent drinks - get a dog and don't list your name in the phone book.

"You're a better man than I am, Gunga Din." Those most famous words from the 1892 poem by Rudyard Kipling have reverberated through cinema sound speakers for nearly eighty years since the RKO release of George Steven's *Gunga Din* starring Cary Grant, Victor McLaglen, Douglas Fairbanks, Jr., Joan Fontaine, and Sam Jaffe. The realization of the movie was as much of an epic quest as the heroic journeys of the story's characters. Author William Chemerka's new research work unfolds as more than just another "making of the movie" book. He explores the complete production history of the motion picture, examines the film's influence on other films and television programs, and extolls through detailed notes the film's socio-political legacy. Illustrated. Contains a Bibliography, Index, and Appendices (including Rudyard Kipling's *Gunga Din*, Cast and Crew Credits, film production costs, and the Eulogy for Sam Jaffe). About the author: William R. Chemerka has published *Fess Parker: TV's Frontier Hero*, *The Battle of Bunker Hill: A novella based upon the docudrama "The Battle of Bunker Hill"*; *General Joseph Warren Revere: The Gothic Saga of Paul Revere's Grandson*; *Rock & Roll Recollections: A Journalist's 50-Year Diary*.

It explores what draws an audience to the thrills of these tense roller-coaster rides on the big screen. Is it an appetite for violence or simply a desire to see the good guys get justice? Action movies made actors like Bruce Willis into household names for their death-defying onscreen escapades. From Sean Connery to Sylvester Stallone, these larger-than-life heroes have kept us on the edge of our cinema seats. Arnie told us he would be back, Bruce Lee made martial arts ultra cool, and Angelina Jolie brought a video game vividly to life. And our appetite for derring-do remains unabated as we watch the *Dark Night* battle with evil villains. With insight from critics, film historians, and academics, *101 Action Movies You Must See Before You Die* brings knowledge, insight, and passion to a world where tough men sip martinis, wear tights and capes, and sometimes even turn green. But they can still get the girl, save the world, and crush cyborgs, psychopaths, jokers, and aliens along the way. So hold on tight to your seats for the mission ahead..
