GET READY TO LEARN AND READ SIGHT WORDS! Why sight words are important? Okay, as an answer to this question, let's first know what are sight words? Sight words are words that should be memorized to help a child learn to read and write. Learning sight words allows a child to recognize these words at a glance -- on sight -- without needing to break the words down into their individual letters and is the way strong readers recognize most words. Knowing common, or high frequency, words by sight makes reading easier and faster, because the reader does not need to stop to try and sound out each individual word, letter by letter. So as we see in this definition, sight words are so important for kids and adults either, because of their huge impact on reading speed and comprehension.
