Moving into a library management position can feel like a daunting and solitary pursuit. Graduate school courses in management are expensive and often hard to find, and even having a mentor at hand is no guarantee of a successful transition. To help library managers improve their skills and acumen, renowned speaker and trainer Hakala-Ausperk presents a handy self-study guide to the dynamic role of being a boss. Organized in 52 modules, designed to cover a year of weekly sessions but easily adaptable for any pace, this workbook: (1) Covers major management topics such as success with stakeholders, staffing, customer service, planning, funding, leadership, and more; (2) Offers an inexpensive alternative to seminars and classroom instruction; (3) Requires an investment of as little as an hour per week, and is completely self-paced; and (4) Includes challenging questions and exercises, and a Web-based template to record learning progress. Suitable for all levels of management, from first-line supervisors to library directors, this book lays out a clear path to learning the essentials of being a great boss. A preface, a bibliography, and an index are included. While much thought has been given to how business leaders and managers can obtain the most productivity from Millennials (Generation Y) and subsequent groups such as Generation Z, the true challenge is far more complex. The workforce of the near future will be a multigenerational one, featuring members from between four and six generations in one organizational setting. This situation is made even more complex and challenging with the effect of today's globalization, which has created worldwide hypercompetition in organizations that often involves members from multiple cultures who speak different languages. How to effectively handle such a diverse population is increasingly a key concern for organizations of all types and sizes. *Global Applications of Multigenerational Management and Leadership in the Transcultural Era* is a pivotal reference source that provides vital research on the application of applying numerous leadership styles to effectively navigate generational compromise. While highlighting topics such as consumer behavior, leadership management, and workforce diversity, this publication is ideally designed for business scholars, managers, executives, human resources professionals, recruitment agencies, students, business professionals, and international business leaders seeking current research on communication strategies and the most effective ways to handle a diverse workforce.

This definitive guide to leadership includes: What good leadership looks like How to build your own leadership style Techniques to lead and influence others How to build and execute your vision Everything you need to know to become an authentic and dynamic leader. "My shelves groan under stacks of leadership books. But just a very few stand out as solid gold. The *Financial Times Guide to Leadership* merits inclusion in that select company. There is simply no excuse for not applying its very practical steps. I'd urge you to start or continue your journey here!" Tom Peters, author of *In Search of Excellence* "Finally, a first-class leadership book that focuses on the 'how' and 'what' as well as the 'why' and 'when'. Full of practical steps to take you to the next level." Doug Richard, entrepreneur and founder of School for Startups "Leadership is at the intersection of competence, charisma and the ability to think big for yourself and for others. The *Financial Times Guide to Leadership* gives you the tools you need to navigate this junction with success." Mercedes Erra, Executive President of Havas Worldwide

Almost every company creates a marketing plan each year, and many spend hundreds of employee hours researching, preparing and presenting their tomes to senior executives. But most marketing plans are a waste of time; they are too long, too complicated and too dense. They end up sitting on a shelf, unread and unrealized. *Breakthrough Marketing Plans* is an essential tool for people who create marketing plans and people who review them. The book provides simple, clear frameworks that are easy to apply, and highlights why marketing plans matter, where they go wrong and how to create a powerful plan that will help build a strong, profitable business.

Packed with cutting-edge ideas and proven best practices, this is the definitive source of information for anyone dealing with coaching.

*Appreciative Leadership: Building Sustainable Partnerships for Health* explores how newly trained graduates and experienced leaders can leverage an interdisciplinary approach focused on the strength of their teams to transform healthcare in today's complex environment. T

This book explores how spirituality can improve an organization's ability to respond to a crisis. It presents biblical examples of leading during a crisis to show how faith can be relied upon to lead during crisis situations. Further, it presents examples of leaders using their faith during trying times. In recent years, organizations have begun to prepare for crises, but scholarly research has not kept up with their efforts. Exploring topics such as communication, servant leadership, and resilience, this work stakes new ground in leadership theory and will foster future research into the role of spirituality during organizational crisis.

*AN ELEGANT FRAMEWORK FOR MORE EFFECTIVE LEADERSHIP* Bolman and Deal's four-frame model has been transforming business leadership for over 40 years. Using a multidisciplinary approach to management, this deceptively simple model offers a powerful set of tools for navigating complexity and turbulence; as the political and economic climate continues to evolve, this model has never been more relevant than today. The Structural Frame explores the convergence of organizational structure and function, and shows why social architecture must take environment into account. Case studies illustrate successful alignment in diverse organizations, and guidelines provide strategic insight for avoiding common pathologies and achieving the right fit. The Human Resource Frame dissects the complex dynamics at the intersection of people and organizations and charts the leadership and human resource practices that build motivation and high performance. The Political Frame shows how competition, conflict, and the struggle for power and resources can be either a tool for growth or a toxic landmine for an individual or organization. Case studies show how both constructive and destructive practices influence social, political, and economic trends both within and beyond organizational boundaries. The Symbolic Frame defines organizational culture, and delves into the emotional and existential underbelly of social life. It underscores the power of symbolic forms such as heroes, myths, and rituals in providing the glue that bonds social collectives together. The Seventh Edition has been updated with new information on cross-sector collaboration, generational differences, virtual environments, globalization, cross-cultural communication, and more, with an expanded Instructor's Guide that includes summaries, mini-assessments, videos, and extra resources.

The eighth edition of *LEADERSHIP* provides an ideal balance of essential theory and real-world applications, perfect for instructors who take a practical, skill-building approach to teaching leadership. The text is a blend of description, skill development, insight development, and prescription. Andrew DuBrin, a highly respected author and consultant, incorporates the latest research on leadership and current business practices from academic journals and popular periodicals. The text provides students with a strong practical foundation by introducing leaders they can relate to and reinforcing their knowledge with frequent skill-building activities. Introducing 10 Leadership Lessons to Win and Grow, an end-to-end guide to leadership, starting from the definitions and concepts involved in approaching leadership for the first time, through real experiences touching on all principles for practicing application, to making the extra mile of success with mature leadership. Hee-man Harry Ahn's experiences leading a retail business and in the military are exemplary in utilising leadership as the leverage to create successes and values for organisational leaders. The personal experiences from multi-national company in Korea, a country of traditionally Confucian cultures and mixed political climates and one of the largest economies in Asia, are unique in bringing together the Eastern and the Western perspectives on leadership for businesses and organisations. The initial publication of this book in Korean has been a success despite the recent decline of publication industry. Now with an English version, the book is more widely available to business and organisation leaders looking to tap into Asian and Korean markets and cultures. 10 Leadership Lessons to Win and Grow intends to be the one total guide for fresh leaders as well as executive leaders with both theoretical and practical contents.

Transform Your Organization by Scaling Leadership How do senior leaders, in their own words, describe the most effective leaders—the ones that get results, grow the business, enhance the culture and leave in their wake a trail of other really effective leaders? Conversely, how do senior leaders describe the kind of leader that undercuts the organization's capacity and capability to create its future? This book, based on groundbreaking research, shows how senior leaders describe and develop leadership that works, that does not, that scales, and that limits scale. Is your leadership built for scale as you advance in today's volatile, uncertain, dynamic, and disruptive business environment? This context puts a premium on a very particular kind of leadership—High-Creative leadership capable of rapidly growing the organization while simultaneously transforming it into more agile, innovative, adaptive and engaging workplace. The research presented in this book suggests that senior leaders can describe the High-Creative leadership with surprising clarity. They also describe with equal precision the High-Reactive leadership that cancels itself out and seriously limits scale. Which type of leader are you? You scale your leadership by increasing the multiple on your leadership in three ways. First, by developing the strengths that differentiate the most effective leaders from the strengths deployed by the most Reactive and ineffective leaders. And second, by increasing your leadership ratio—the ratio of most the effective strengths to the most damaging liabilities. Third, by developing High-Creative leaders all around you. Scaling Leadership provides a proven framework for magnifying agile and scalable leadership in your organization. Scalable leadership drives forward-momentum by multiplying high-achieving leaders at scale so that growth, productivity and innovation increase exponentially. Creative leaders multiply their strengths beyond technical competence by leading in deep relationship, with radical humanity, passion and integrity. Drawing upon decades of solid research and experience enhancing individual capability and collective leadership effectiveness with Fortune 500 companies and government agencies, the authors provide an innovative and efficient framework to help you: Take stock of your own personal balance of leadership strengths and weaknesses Scale your leadership in deep relationship and high integrity Proliferate high-achievers throughout your organization's leadership system Identify ineffective leadership and course-correct quickly Transform your organization by transforming leadership Scaling Leadership is an invaluable tool for executives, managers, and leaders in business, academia, nonprofit organizations, and more. This innovative resource provides effective techniques, real-world examples, and expert guidance for organizations seeking to improve performance, align and execute strategies, and transform their business with scalable leadership capability.
