Since rising out of the New York City streets over twenty-five years ago, Russell Simmons has helped create such groundbreaking ventures as Def Jam Records, Phat Farm, and Def Comedy Jam. Russell might have helped introduce hip-hop to the world, but he credits his success to his belief in a strong set of principles—or laws. In twelve straightforward steps, Russell reveals a path that can be followed by anyone struggling to realize their dreams. Russell’s laws stem from the belief that it’s impossible to receive any sort of lasting success from the world without giving something of lasting value to the world first. Blending business insight, universal spiritual truths, and an inspired sense of purpose, Do You! crosses the lines of age, race, and background, with wisdom that will lift you up and motivate you to pursue your vision. Within 12 months, what you create, opportunities you attract for cooperation, difficult obstacles you exclude, income and material wealth you can get, are much more than what you have done in the past 12 years. Is it possible? This is not only possible, but many people have experienced the amazing phenomenon: the achievement of the 12 months is over the past 12 years. Direct Marketing Guru, Dan Kennedy, called it "The Phenomenon." "Will you want have "The Phenomenon" experience? That is, within the next 12 months, creating more than you accumulated, greater achievements over the past 12 years?" If your answer is No, or if you say "So far I am very satisfied with my life in various fields, and also intend to continue to do so." Then you can quickly put down this book! Because in fact you do not need this information. But if your answer is Yes, or you say: "If possible, I would like to experience it, seeing more progress in a year than the past twelve years." The next question you should ask would be: "How can I let "The Phenomenon" happened to me?" What are the seven major driving forces to activate The Phenomenon? "The Phenomenon" is first proposed by the godfather of Direct Marketing, Dan Kennedy. (He was also called the "21st Century Napoleon Hill "). According to his own career course as well as access to numerous self-made successful entrepreneurs, he found that in these successful entrepreneurs' career, there is often a period of time , they created bigger achievement within 6 to 12 months than in the past 6-12 years. This discovery caused his curiosity, so he began to generalize that before this phenomenon happened, what have these people done? And then summarized the seven major driving forces. If you need to start from scratch , or you really want to experience it as soon as possible, you cannot know what Dan Kennedy summed up -1st driving force: the elimination of the time difference between ideas and action 2nd driving force: speed, speed, speed 3rd driving force: to create extremely personal or business advantage 4th driving force: focusing on building a system 5th driving force: see hidden opportunities 6th driving force: to find or create an effective way to make money 7th driving force: Overcoming intuitive reaction of "This doesn't work." 11 laws of the universal laws related to success "Forgotten 11 laws of the universe" are from 1939 Dr. Raymond Holliwell in his work "Working With The Law", which in addition to " the law of attraction " , also described another ten laws for those who intend to pursue a more successful to know. These rules, explaining the reason why many people working very hard to use " law of attraction " , but found that only some desire achieved, but in some case it didn't. It also helped me to better understand the relationship between the external world and the internal world. Not just "believe we can achieve" that simple. If you want to manifest the things you want in the tangible world, there are many conditions needed be considered. In the book, I 'll explain to you in depth 11 laws which are in charge of your life to the success. Law of thinking / law of supply / law of attraction / law of receiving / Law of Growth / law of compensation / law of forgiveness / Law of sacrifice rule / Law of Obedience / law of success/ Law of Non-resistance

Author H.J. Harris presents an historical overview of the harsh treatment of black Americans, from the founding of this

nation, to the racial undercurrents of the 2008 presidential election. He offers a spiritual, biblical approach to show the damage that the paradigm of slavery has done to the nation's soul. America's record in dealing with black Americans is presented through events such as the coup of 1898, the Declaration of White Independence, and the destruction of Black Wall Street. The author applies the Hundredth Monkey Behavior Phenomenon to understand how the slavery experience created and perpetuated certain habits, attitudes, and behaviors that presently impact black and white Americans. The subtle implication of America the Racist? is that the 2008 presidential election represents an opportunity for this country to rise above the shackles of racism and discrimination and truly become the light of the world.
