

15 Ragtime Easy Piano Vol 1

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

A monthly journal for the musician, the music student, and all music lovers.

Catalog of Copyright Entries Third series This is Ragtime Jazz at Lincoln Center Incorporated Chamber symphony no. 1, for 15 solo instruments, op. 9 Courier Corporation

The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the application for registration, the copyright date, the copyright registration number, etc.).

Franz Schubert's piano pieces for four hands are among the most varied and significant works in the entire repertoire. Schubert wrote more of these works than any other major composer, and generations of teachers, students, and concert musicians have enjoyed their enduring beauty and vitality. Included in this volume are 15 of Schubert's best and most popular titles, taken from the definitive Breitkopf and Hartel "Schubert-Gesamtausgabe." Composed between 1818 and 1828, they include the tremendously popular Military Marches, Op. 51 (of which the D Major is a striking and familiar melody); the famed "Grand Duo" Sonata in C Major, Op. 140; the Fantasia in F Minor, Op. 103 (written only a few months before Schubert's death, it is one of the most famous and elegantly expressive works in the genre); Variations in A-flat Major on an Original Theme, Op. 35; Andantino Varie in B Minor on French Motifs, Op. 84, No. 1; Fugue in E Minor, Op. 152; and a delightful array of ländler, polonaises, and variations. The 23 separate pieces have been selected so that pianists of virtually any level can find works to match their needs. They range in difficulty from beautifully sculpted marches that beginners can play, to works requiring maturity and great technical skill. This volume has been specially designed as a playing edition. The noteheads are large and easily readable at the piano, and wide margins allow plenty of room for written notes, fingerings, analysis, etc. Of special importance is the addition of measure numbers, placed on alternate staves, which allow the pianists to find their place quickly while rehearsing. For playing, study, or simply listening along with records, this volume will be an admirable addition to your music library."

Includes music.

A Blues Bibliography, Second Edition is a revised and enlarged version of the definitive blues bibliography first published in 1999. Material previously omitted from the first edition has now been included, and the bibliography has been expanded to include works published since then. In addition to biographical references, this work includes entries on the history and background of the blues, instruments, record labels,
