Offering a bird's eye view of foreign investments in Latin America, this volume informs us of how the economic and social environment affects management in Latin American subsidiaries and regional markets. It also presents Japan Multinational Enterprises Study Group (JMNESG) led by Dr. Abo, who visited 5 Japanese companies in Argentina, 15 in Brazil and 10 in Mexico. Exploring 30 companies in detail, the scores are analyzed by a hybrid theory of application and adaptation established by JMNESG. The companies JMNESG visited are located mainly in Argentina, Brazil, and Mexico, but also in Chile and Venezuela, and include: Toyota, Nissan, Honda, Toshiba, and Panasonic. The authors discuss and explore the unique characteristics of Japanese management in Latin America in comparison with world-wide application scores and offer a summary of free trade zones.

coherent region through the inter-play of various integrative economic, political and socio-cultural processes. Such a development is generally referred to as 'regionalism', which itself has become a defining feature of the contemporary international system, and this book explores the various ways in which East Asian regionalism continues to deepen. Focusing on the main themes of the East Asia region and the study of regionalism, economic regionalism and East Asia's new economic geography, Southeast Asia and the Association of Southeast Asian Nations (ASEAN), trans-regionalism, East Asia's new free trade agreement trends and key transnational issues in East Asia such as international migration and energy security, East Asian Regionalism will be an essential text for courses on East Asian regionalism, Asian politics and Asian economics. Key pedagogical features include: end of chapter 'study questions' case studies that discuss topical issues with study questions also provided useful tables and figures which illustrate key regional trends in East Asia extensive summary conclusions covering the chapter's main findings from different international political economy perspectives.

It is nowadays well accepted that both economic growth and development are highly dependent on improving not just the availability of capital, but also access to technological capabilities, infrastructure and resources. This has gone hand-in-hand with an increasing economic liberalization of most developing countries. The role of the MNE as a viable source of both capital and technology is one of the key features of this

new openness. In the process of embracing FDI as a solution to the myriad of economic ills - something even the World Bank has begun to do - little attempt is made to understand the rationale and the costs associated with this policy stance. Simply put, FDI is not a condition sine qua non for development. Too much emphasis has been placed on attracting FDI, and not on understanding how to optimise the benefits for the host economy. This volume aims to encourage and promote research related to these issues. This volume was previously published as a special issue of the European Journal of Development Research.

A behind-the-scenes look at Lexus's surprising twenty-year success story—in a revised new edition In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota's brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable
