An author's quest to discover what really happened to his uncle in World War II To all appearances, Anthony "Tony" Korkuc was just another casualty of World War II. A gunner on a B-17 Flying Fortress, Korkuc was lost on a bombing mission over Germany, and his family believed that his body had never been recovered. But when they learned in 1995 that Tony was actually buried at Arlington National Cemetery, his nephew Bob Korkuc set out on a seven-year quest to learn the true fate of an uncle he never knew. Finding a Fallen Hero is a compelling story that blends a wartime drama with a primer on specialized research. Author Bob Korkuc initially set out to learn how his Uncle Tony came to rest at Arlington. In the process, he also unraveled the mystery of what occurred over the skies of Germany half a century ago. Korkuc dug up military documents and private letters and interviewed people in both the United States and Germany. He tracked down surviving crewmembers and even found the brother of the Luftwaffe pilot who downed the B-17. Dozens of photographs help readers envision both Tony Korkuc's fateful flight and his nephew's dogged search for the truth. A gripping chronicle of exhaustive research, Finding a Fallen Hero will strike a chord with any reader who has lost a family member to war. And it will inspire others to satisfy their own unanswered questions.

Traditionally, 'the right of the line' is the vanguard, the place of honour and greatest danger in battle. In this history of the Royal Air Force during the European War of 1939-45, John Terraine shows how the RAF, which in 1939 was small and inadequate for the task it was called upon to perform had, by the end of the war, taken up its proper position. He describes the build-up to war, the early tests in France and at Dunkirk, the Battle of Britain, the Battle of the Atlantic, the RAF in North Africa and the Mediterranean, the strategic air offensive over Germany and eventual victory in Europe. 'His best book yet' The Times 'John Terraine is a fine historian but he also believes that history should be exciting and readable' The Listener
