The Jeep Cherokee is one of the most prolific and rugged sport utility vehicles in history. Throngs of off-roading enthusiasts have chosen the Cherokee for navigating over the toughest terrain, climbing rocks, and trail driving, but these unibody 1984-2001 models have much room for improvement to become the best off-road vehicles. In Jeep Cherokee XJ Advanced Performance Modifications: 1984–2001, author Eric Zappe explains how to transform a stock Cherokee into the toughest and most capable off-road 4x4 SUV. The author details the buildup, right combination of parts and products, and modifications necessary to build an aggressive off-road rig. He also shows how to

weld and gusset the frame in critical areas. Installing a three- and four-link suspension system is also profiled so the Cherokee delivers greater travel and better off-road handling. Suspension and frame modifications are necessary to run large wheels and tires. And these wheels and tires are essential for traction, performance, and ground clearance in extreme off-road situations. Swapping in Dana 44, Dana 60, and Ford 9-inch axles delivers superior performance and durability, which is covered as well. In addition, how to modify the Jeep inline 6-cylinder engine for increased displacement and performance is revealed. All of the most popular and effective mods, parts, and upgrades for a dedicated off-road Cherokee are covered. If you've been looking for the one guide to build the most capable off-road Cherokee, you've found it.

what this book is all about! While Ford dabbled in supercharging and turbocharging on production cars all the way back in 1957 with the legendary Thunderbird, and then again with Shelybs and over-the-counter kits, and then again in the late '70s and early '80s with turbocharging 4- cylinder applications in Mustangs and SHOs, the real revolution in supercharging and turbocharging Ford products has come through the aftermarket in more recent times. The Fox Mustang, created in 1979, and the platform that would eventually feature fuel injection in 1986, allowing much more boost, created a genre of lightning-quick and affordable performance cars.

After praying to God one night, Jesus told Diane to tell her story. She knew that this would be both challenging and difficult to do on so many levels. By telling her story, her audience would be brought to places unknown to most people. During her life she has dealt with Bi- Polar Disorder and has encountered many difficulties along the way. She was faced with a teenage age pregnancy and felt forced into having an unwanted abortion. She married and had two children. The marriage ended in divorce and years later she remarried. The boys were adopted by her new husband. The story to be told though is not just about her family, work and travels. Her story is a dark one. She has battled with Satan for years, been admitted to mental hospitals and has been placed on numerous medications to treat her disorder. One Sunday, while attending a church service, Diane
