Palaces like the Aljafera and the Alhambra rank among the highest achievements of the Islamic world. In recent years archaeological work at Crdoba, Kairouan and many other sites has vastly increased our knowledge about the origin and development of Islamic palatial architecture, particularly in the Western Mediterranean region. This book offers a comprehensive and up-to-date overview of Islamic palace architecture in Spain, Morocco, Algeria, Tunisia and southern Italy. The author, who has himself conducted archaeological field work at several prominent sites, presents all Islamic palaces known in the region in ground plans, sections and individual descriptions. The book traces the evolution of Islamic palace architecture in the region from the 8th to the 19th century and places them within the context of the history of Islamic culture. Palace architecture is a unique source of cultural history, offering insights into the way space was conceived and the way rulers used architecture to legitimize their power. The book discusses such topics as the influence of the architecture of the Middle East on the Islamic palaces of the western Mediterranean region, the role of Greek logic and scientific progress on the design of palaces, the impact of Islamic palaces on Norman and Gothic architecture and the role of Sufism on the palatial architecture of the late medieval period. Der Motorsport hilet anno 1898 mit der Automobilfahrt durch Südtirol seinen Einzug in Österreich. Das Thema, so reich an Spannung und Dramatik, wurde nun erstmals in zusammenhängender Form als Geschichte des heimischen Motorsports aufgearbeitet, von den Semmering-Rennen und alpenfahrten über die Flugplatzrennen bis zu den Großen Preisen von heute ...

Spain's southern city of Seville basks in romantic myths and legends, evoking the scent of jasmine and orange blossom. But there is an ascetic core to its sybaritic spirit. For all their fame as passionate performers, the poet Unamuno called Sevillanos "finos y frios"-refined and cool. Once Europe's most cosmopolitan metropolis, bridging cultures of East and West and hub of a sea-borne empire, Seville was defined by Spain's great seventeenth-century playwright Lope de Vega as "port and gateway to the Indies". The city retains both the swagger of its seafaring heyday, and the sensual flavor of Moorish al-Andalus. Seville produced Spain's lowest ruffians, grandest grandees and a seductive gypsy culture that colors our wider perception of Spain. Elizabeth Nash explores the palaces, the mosques, the patios, fountains and wrought-iron balconies of Seville, Cordoba and Granada, cities celebrated for centuries by Europe's finest painters, poets, satirists and travel writers for their voluptuous beauty and vibrant cultural mix.

For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

¿Qué tienen en común el seleccionador nacional de baloncesto y el director general de Inditex? Aunque a simple vista pudiera parecer que más bien poco, un análisis más profundo revela multitud de paralelismos entre los que, quizá, el más significativo sea que ambos dirigen equipos ejerciendo (y gestionando) el liderazgo con el objetivo de alcanzar la excelencia (se refleje ésta en una cuenta de resultados o en un campeonato olímpico). Partiendo de las similitudes (y también de las diferencias) entre el ámbito del deporte de alta competición y el mundo de la alta gestión, Juan Carlos Cubeiro y Leonor Gallardo desarrollan un estudio conciso y ameno, repleto de referencias a casos reales y cercanos de deportistas de éxito (Fernando Alonso, Rafa Nadal,

el Sevilla C.F., etc.) y de empresas y empresarios igualmente reconocidos (Microsoft, Inditex...) de los que extraen valiosas lecciones que se pueden aplicar en nuestro día a día en la búsqueda de esa excelencia. Descriptivo y formativo, Liderazgo, empresa y deporte, puede leerse desde el punto de vista del deportista o del gestor pues ofrece claves esenciales que permitirán tanto a uno como a otro alcanzar el oro en la gestión y obtener dividendos tangibles en el deporte.

This book provides a comprehensive analysis of the crisis of relations between state and society in five Andean countries from the 1980s to the present.

This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.
