David Brower (1912–2000) was a central figure in the modern environmental movement. His leadership, vision, and elegant conception of the wilderness forever changed how we approach nature. In many ways, he was a twentieth-century Thoreau. Brower transformed the Sierra Club into a national force that challenged and stopped federally sponsored projects that would have dammed the Grand Canyon and destroyed hundreds of millions of acres of our nation's wilderness. To admirers, he was tireless, passionate, visionary, and unyielding. To opponents and even some supporters, he was contentious and polarizing. As a young man growing up in Berkeley, California, Brower proved himself a fearless climber of the Sierra Nevada's dangerous peaks. After serving in the Tenth Mountain Division during World War II, he became executive director of the Sierra Club. This uncompromising biography explores Brower's role as steward of the modern environmental movement. His passionate advocacy destroyed lifelong friendships and, at times, threatened his goals. Yet his achievements remain some of the most important triumphs of the conservation movement. What emerges from this unique portrait is a rich and robust profile of a leader who took up the work of John Muir and, along with Rachel Carson, made environmentalism the cause of our time.

Ideal for those studying biochemistry for the first time, this proven book balances scientific detail with readability and shows you how principles of biochemistry affect your everyday life. Designed throughout to help you succeed (and excel!), the book includes in-text questions that help you master key concepts, end-of-chapter problem sets grouped by problem type that help you prepare for exams, and state-of-the-art visuals that help you understand key processes and concepts. In addition, visually dynamic Hot Topics cover the latest advances in the field, while Biochemical Connections demonstrate how biochemistry affects other fields, such as health and sports medicine. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The sixth edition of Adapted Physical Education and Sport details current inclusion practices, helps develop in developing IEPs consistent with legislation, enhances sport participation, and includes a web resource with 26 video clips for administering the new Brockport Physical Fitness Test.

Während des Zweiten Weltkriegs dienten tausende Österreicher – meist Geflohene vor dem Nationalsozialismus – im Kriegsapparat der USA. Neben der US-Armee hatten vor allem die Geheimdienste, wie das subversiv agierende „Office of Strategic Services“, österreichische Exilanten in ihren Reihen. Österreicher kämpften in amerikanischen Divisionen und nahmen als Wehrmachtsdeserteure an riskanten Geheimdiensteinsätzen teil. Der Widerstandskampf im Exil wurde unter dem Dach der amerikanischen „Anlehnungsmacht“ und oft mit hohem persönlichem Risiko geführt. Florian Traussnig liefert eine Zusammenschau des Forschungsstands und wirft biographische Schlaglichter auf die Beiträge, die die Vertreter des „anderen Österreich“ im Kampf gegen Hitler-Deutschland und bei der Befreiung ihres ehemaligen Heimatlandes geleistet haben.

The two-volume Emergency Medical Services: Clinical Practice and Systems Oversight delivers a thorough foundation upon which to succeed as an EMS medical director and prepare for the NAEMSP National EMS Medical Directors Course and Practicum. Focusing on EMS in the ‘real world’, the book offers specific management tools that will be useful in the reader’s own local EMS system and provides contextual understanding of how EMS functions within the broader emergency care system at a state, local, and national level. The two volumes offer the core knowledge trainees will need to successfully complete their training and begin their career as EMS physicians, regardless of the EMS systems in use in their areas. A companion website rounds out the book’s offerings with audio and video clips of EMS best practice in action. Readers will also benefit from the inclusion of: A thorough introduction to the history of EMS An exploration of EMS airway management, including procedures and challenges, as well as how to manage ventilation, oxygenation, and breathing in patients, including cases of respiratory distress Practical discussions of medical problems, including the challenges posed by the undifferentiated patient, altered mental status, cardiac arrest and dysrhythmias, seizures, stroke, and allergic reactions An examination of EMS systems, structure, and leadership
