In this Bancroft Prize-winning history of the Civil Rights movement in Atlanta from the end of World War II to 1980, Tomiko Brown-Nagin shows that long before "black power" emerged and gave black dissent from the mainstream civil rights agenda a name, African Americans in Atlanta questioned the meaning of equality and the steps necessary to obtain a share of the American dream. This groundbreaking book uncovers the activism of visionaries--both well-known figures and unsung citizens--from across the ideological spectrum who sought something different from, or more complicated than, "integration." Local activists often played leading roles in carrying out the agenda of the NAACP, but some also pursued goals that differed markedly from those of the venerable civil rights organization. Brown-Nagin documents debates over politics, housing, public accommodations, and schools. Exploring the complex interplay between the local and national, between lawyers and communities, between elites and grassroots, and between middle-class and working-class African Americans, *Courage to Dissent* transforms our understanding of the Civil Rights era.

Despite the promise of competency-based education (CBE), learner-centered issues related to support, retention, and program completion rates remain problematic. In addition, the infrastructure for higher education, including issues related to faculty (intellectual property, workload, and curriculum), pose barriers and challenges in the design, development, implementation, and delivery of CBE. In response, administrators, faculty, designers, and developers of competency-based experiences must incorporate innovative strategies that are foreign to the traditional institution. A strong emphasis on retention and graduation rates must surround the student with support, starting with the design and development of the CBE system. There are few resources that can help prepare instructional designers, advisors, academic administrators, and faculty to meet the many challenges of designing, developing, implementing, and managing CBE. *Career Ready Education Through Experiential Learning* is an essential reference book that includes strategies for design and development of competency-based education (CBE) programs, as well as administrative and delivery strategies as examples of how CBE can be implemented. Through a strong theoretical framework, chapters present the best practices, strategies, and practical tips as examples and scenarios that can be used

in higher education settings. While highlighting education courses, programs, and lessons across various institutions and educational domains, this book is ideal for higher education administrators and policy designers/implementors, instructional designers, curriculum developers, faculty, public policy leaders, students in curriculum and instruction and instructional technology programs, along with researchers and practitioners interested in CBE and experiential learning in higher education.

The 2018 Edition of the Complete & Independent Guide to the Eurovision Song Contest is the 11th edition of this book and as usual it's packed with statistical details of every Contest since 1956 along with plenty of new analysis, over 337 pages, our biggest edition ever. The book looks at the national qualification competitions for 2018 and has an in-depth section on the entire voting history of each country, along with dozens of facts and statistics on this year's Contest and historical trends, including jury/public differences, bloc voting and analysis of where best to perform in the running order.

From his first appearance as Mork from Ork on the 1970s sitcom Happy Days, Robin Williams was heralded as a singular talent. In the pre-cable television era, he was one of the few performers to successfully transition from TV to film. An Oscar-winning actor and preternaturally quick-witted comedian, Williams became a cultural icon, leaving behind a large and varied body of work when he unexpectedly took his own life in 2014. This collection of new essays brings together a range of perspectives on Williams and his oeuvre, including beloved hits like Mrs. Doubtfire, Good Morning, Vietnam, Good Will Hunting, The Fisher King, Dead Poets Society and Aladdin. Contributors explore his earlier work (Mork and Mindy, The World According to Garp) and his political and satirical films (Moscow on the Hudson, Toys). Williams's darker, less well-known fare, such as Being Human, One Hour Photo, Final Cut and Boulevard, is also covered. Williams's artistry has become woven into the fabric of our global media culture.

In this collection of interviews, Kingston talks about her life, her writing, and her objectives. From the first, her books have hovered along the hazy line between fiction and nonfiction, memoir and imagination. As she answers her critics and readers, she both clarifies the differences and exults in the difficulties of distinguishing between the remembered and the re-created. She explains how she worked to bridge her parents' Chinese dialect with American slang, how she learned to explore her inheritance and find new relevance in her mother's "talk-stories," and how she developed the complex juxtapositions of myths and memoir that fill her

books.

A first volume of a full-scale portrait of the acclaimed screen actress includes coverage of her years as a dancer in New York, her fraught marriage to Broadway figure Frank Fay, her partnership with Zeppo Marx and her marriage to Robert Taylor. 35,000 first printing. (This book was listed in a previous Forecast.)

"'Descendants of Joseph & Prudence Parks Corey' is a book compiled & researched by their 4th great grandson, Chuck L. Rhodes. This family history beings around the year of Joseph's birth in 1762, at Rhode Island, and continues through ten generations up to 2019."--Back cover.

Freedom Faith is the first full-length critical study of Rev. Dr. Prathia Laura Ann Hall (1940-2002), an undersung leader in both the civil rights movement and African American theology. Freedom faith was the central concept of Hall's theology: the belief that God created humans to be free and assists and equips those who work for freedom. Hall rooted her work simultaneously in social justice, Christian practice, and womanist thought. Courtney Pace examines Hall's life and philosophy, particularly through the lens of her civil rights activism, her teaching career, and her ministry as a womanist preacher. Moving along the trajectory of Hall's life and civic service, Freedom Faith focuses on her intellectual and theological development and her radiating influence on such figures as Dr. Martin Luther King Jr., Marian Wright Edelman, and the early generations of womanist scholars. Hall was one of the first women ordained in the American Baptist Churches, USA, was the pastor of Mt. Sharon Baptist Church in Philadelphia, and in later life joined the faculty at the Boston University School of Theology as the Martin Luther King Chair in Social Ethics. In activism and ministry, Hall was a pioneer, fusing womanist thought with Christian ethics and visions of social justice.

This book is a collection of recent scholarship on Maxine Hong Kingston, gathered on the occasion of the very first conference ever devoted exclusively to Kingston and to celebrate her opera omnia. Featuring the work of researchers from four continents, the book represents the cosmopolitan reception of the most important Asian American author. In addition to many new angles on her two canonical postmodern autobiographies, *The Woman Warrior* and *China Men*, this collection also tackles Kingston's less frequently discussed writings and her most recent publications. Parallel readings and comparisons further test her legacy in the sense of her enduring influence on younger Asian American writers. Though it is a conference book, this peer-reviewed volume includes additional articles by selected scholars. It also contains original presentations by Maxine and her husband Earll Kingston. (Series: Contributions to Asian American Literary Studies - Vol. 7)

From the nation's leading expert, an indispensable analysis of key threats to the integrity of the 2020 American presidential election As the 2020 presidential campaign begins to take shape, there is widespread distrust of the fairness and accuracy of American elections. In this timely and accessible book, Richard L. Hasen uses riveting stories illustrating four factors increasing the mistrust. Voter suppression has escalated as a Republican tool aimed to depress turnout of likely Democratic voters, fueling suspicion. Pockets of incompetence in election administration, often in large cities controlled by Democrats, have created an opening to claims of unfairness. Old-fashioned and new-fangled dirty tricks, including foreign and domestic misinformation

campaigns via social media, threaten electoral integrity. Inflammatory rhetoric about “stolen” elections supercharges distrust among hardcore partisans. Taking into account how each of these threats has manifested in recent years—most notably in the 2016 and 2018 elections—Hasen offers concrete steps that need to be taken to restore trust in American elections before the democratic process is completely undermined.

In a complicated political era when the United States feels divided, this book celebrates feminism and female contributions to politics, activism, and communities. Each of the forty-four women profiled in this illustrated book has demonstrated her capabilities and strengths in political and community leadership and activism, both in the United States and around the world. Written in an approachable, journalistic tone and rounded out by beautiful color portraits, history, key political processes, terminology, and thought-provoking quotes, this book will inspire and encourage women everywhere to enact change in their own communities and to pursue opportunities in public affairs.

Love them or hate them, the tweets of President Donald J. Trump rule the Twitterverse. Until our last presidential campaign, television, particularly campaign ads, dominated the political landscape. But with the rise of Donald J. Trump came a new political tool: the internet. Trump used this to communicate instantly and very effectively with the American people. And it worked. Establishing his political positions by tweeting numerous times a day, Trump pulled a major upset by defeating Hillary Rodham Clinton to become the 45th president of the United States. Once in office, Trump did not abandon his penchant for using Twitter as his populist platform. Instead, he doubled down on it, making it his primary means of communicating with the American people. Knowing how effective a tweet can be, Trump once wrote, “Boom. I press it and within two seconds we have breaking news.” With a massive Twitter following of 78 million by the spring of 2020, Trump’s direct impact upon Americans cannot be dismissed, nor can the value of his tweets as an essential part of the historical record be denied. To put the enormous impact of his tweets into perspective, Trump won the White House with 63 million votes—a number significantly lower than his massive Twitter following. Now you can read the collected tweets of wisdom—or ridiculousness—from President Donald J. Trump, from his inauguration through February 2020 in this historically significant collection.

Special 2018 Edition From the new Introduction by Janet L. Miller, Teachers College, Columbia University: "Maxine Greene never claimed to be a visionary thinker. But forty years later, her trepidations detailed throughout 1978's *Landscapes of Learning* now appear unnervingly prescient. Witness and treasure *Landscapes* as evidence of her matchless abilities to inspire myriad educators and students worldwide." "I would suggest that there must always be a place in teacher education for ‘foundations’ people, whose fundamental concern is with opening new perspectives on the many faces of the human world." —Maxine Greene The essays in this volume demonstrate clearly that Maxine Greene is herself an example of the kind of “foundations” specialist she hopes to see: someone who can stimulate, inform, and bring new insights to teachers, students, curriculum planners, administrators, policymakers—indeed all those concerned with education in its broadest sense. These essays, a number of them based on lectures presented to various professional organizations, reveals her dedication to learning and teaching, as it reveals

her belief in the potential of each individual person. A philosopher whose orientation is largely existential and phenomenological, she seeks to demystify aspects of today's technological society, to question taken-for-granted notions of social justice and equality, and to elucidate conflicts between youth and age, the poor and the middle class, minorities and Whites, male and female. As a humanist, she calls for self-reflectiveness, wide-awakeness, and personal transformation within the context of each person's own lived world—each one's particular landscape of work, experience, and aspiration. Recognizing the multiple realities that compose experience, the many landscapes against which sense-making proceeds, the essays are grouped in four sections: intellectual and moral components of emancipatory education; social issues and their implications for approaches to pedagogy; artistic-aesthetic considerations in the making of curriculum; and the cultural significance of women's predicaments today. All are richly illuminated by examples; all are written with grace and passion; all will help readers achieve greater self-understanding and critical consciousness. "This is a significant book."—Phi Delta Kappan "Maxine Greene forces us to consider what we can do even in a limited way and to begin to understand where we have failed." —Cross Currents

Journalist Rebecca Traister's New York Times bestselling exploration of the transformative power of female anger and its ability to transcend into a political movement is "a hopeful, maddening compendium of righteous feminine anger, and the good it can do when wielded efficiently—and collectively" (Vanity Fair). Long before Pantsuit Nation, before the Women's March, and before the #MeToo movement, women's anger was not only politically catalytic—but politically problematic. The story of female fury and its cultural significance demonstrates its crucial role in women's slow rise to political power in America, as well as the ways that anger is received when it comes from women as opposed to when it comes from men. "Urgent, enlightened...realistic and compelling...Traister eloquently highlights the challenge of blaming not just forces and systems, but individuals" (The Washington Post). In *Good and Mad*, Traister tracks the history of female anger as political fuel—from suffragettes marching on the White House to office workers vacating their buildings after Clarence Thomas was confirmed to the Supreme Court. Traister explores women's anger at both men and other women; anger between ideological allies and foes; the varied ways anger is received based on who's expressing it; and the way women's collective fury has become transformative political fuel. She deconstructs society's (and the media's) condemnation of female emotion (especially rage) and the impact of their resulting repercussions. Highlighting a double standard perpetuated against women by all sexes, and its disastrous, stultifying effect, *Good and Mad* is "perfectly timed and inspiring" (People, Book of the Week). This "admirably rousing narrative" (The Atlantic) offers a glimpse into the galvanizing force of women's collective anger, which, when harnessed, can change history.

The numerous studies of Maxine Hong Kingston's touchstone work *The Woman Warrior* fail to take into account the stories in *China Men*, which were largely written together with those in *The Woman Warrior* but later published separately. Although Hong Kingston's decision to separate the male and female narratives enabled readers to see the strength of the resulting feminist point of view in *The Woman Warrior*, the author has steadily maintained that to understand the book fully it was necessary to read its male companion text. Maureen Sabine's ambitious study of *The Woman Warrior* and *China Men* aims to bring these divided texts back together with a close reading that looks for the textual traces of the father in *The Woman Warrior* and shows how the daughter narrator tracks down his history in *China Men*. She considers theories of intertextuality that open up the possibility of a dynamic interplay between the two books and suggests that the Hong family women and men may be struggling for dialogue with each other even when they appear textually silent or apart.

Data on nutritional status of human populations are periodically needed, as well as their relationships with anthropometry, body composition, body image and energy expenditure, and also with health lifestyle outcomes. All these parameters contribute jointly to give a complete knowledge on dietary and lifestyle habits, and hence how to proceed to improve it in order to enjoy an optimal healthy status. So, you are kindly invited to submit proposals for manuscripts that fit the objectives and the topics of this Nutrients Special issue. The aim of this proposed Nutrients Special Issue on "Anthropometry, Body Composition and Resting Energy Expenditure in Humans" is to publish selected papers detailing specific aspects of anthropometric, body composition and energy expenditure data in human populations and their relationships with nutritional status, as well as nutritional surveys and trials that examine measured differences or changes in these parameters are also cordially invited.

Tear down the obstacles to creative innovation in your organization *Unlocking Creativity* is an exploration of the creative process and how organizations can clear the way for innovation. In many organizations, creative individuals face stubborn resistance to new ideas. Managers and executives oftentimes reject innovation and unconventional approaches due to misplaced allegiance to the status quo. Questioning established practices or challenging prevailing sentiments is frequently met with stiff resistance. In this climate of stifled creativity and inflexible adherence to conventional wisdom, potentially game-changing ideas are dismissed outright. Senior leaders claim to value creativity, yet often lack the knowledge to provide a creative framework. *Unlocking Creativity* offers effective methods and real-world examples of how the most successful organizations create cultures of innovation and experimentation. Best-selling author and scholar Michael Roberto presents a thorough investigation of organizational obstacles to creative thought. Highly relevant to the growth crises many enterprises face in today's economic landscape, this book examines how to break barriers to spark creativity and foster new ideas. This insightful and informative work allows business executives, senior managers, and organization leaders to:

- Recognize the six organizational mindsets that impede creativity and innovation
- Learn how to tear down the barriers that obstruct the creative process
- Create an environment that allows talented people to thrive
- Encourage creative collaboration in teams throughout an organization

Leaders do not have to conceive innovative ideas, but rather open the path for curious and creative employees within their organization. *Unlocking Creativity: How to Solve Any Problem*

and Make the Best Decisions aids organizations in removing obstacles to the creative process and helps to form an atmosphere of imagination and innovation.

This title brings together seven presidential politics scholars to address the Trump presidency and the current functioning of American democracy based on recent provocative research. These studies focus on several important topics, including presidential leadership theory and the Trump presidency, examining its mistruths, analyzing its record in the lower federal courts, probing its use of the pardon power, debating whether it requires an entirely new United States constitution to prevent future authoritarian threats, and assessing Trump's contribution to presidential power research. Taken together, these chapters represent a snapshot view of the early Trump presidency and its implications for US politics moving forward.

'Nicolas David Ngan's Soul Contract Reading for me was comprehensive and profoundly affecting. It felt like a therapy session with someone who already knew all of my issues ...
