Nine-time Emmy Award-winning writer/producer Ed. Weinberger, known for his work on such legendary comedies as *The Mary Tyler Moore Show*, *Taxi*, and *The Cosby Show*, imagines an alternate Trump 2020 presidential campaign in this hilarious new novel. In *GOTCHA!* Weinberger creates a chaotic world inhabited by America's 45th President where cheating at golf is taken for granted; Fox anchors are valued advisors; and hydroxychloroquine is promoted as a COVID-19 cure. Spanning the critical period from March 5, 2020 to January 24, 2021, *GOTCHA!* takes readers into Trump's private world as he meets with his re-election committee, has a hush-hush dinner with Laura Ingraham, makes an angry early-morning call to Don, Jr., and asks Melania whether his bullet-proof vest makes him look fat. Trump tries to rush through a COVID-19 vaccine; attempts to build rapport with African Americans; and even gets away with shooting a protester on Fifth Avenue—an incident applauded by the NRA. With an entertaining mix of fiction and satire, this provocative novel looks into the corrupt, three-ring-circus that is Washington in the new normal.

At their basic level, sporting events are about numbers: wins and losses, percentages and points, shots and saves, clocks and countdowns. However, sports narratives quickly leave the realm of statistics. The stories we tell and retell, sometimes for decades, make sports dramatic and compelling. Just like any great drama, sports imply conflict, not just battles on the field of play, but clashes of personalities, goals, and strategies. In telling these stories, we create heroes, but we also create villains. This book is about the latter, those players who transgress norms and expectations and who we label the "bad boys" of sports. Using a variety of approaches, these 13 new essays examine the cultural, social, and rhetorical implications of sports villainy. Each chapter focuses on a different athlete and sport, questioning issues such as how notorious sports figures are defined to be "bad" within particular sports and within the larger culture, the role media play in creating antiheroes, fan reactions when players cross boundaries, and how those boundaries shift depending on the athlete's gender, sexuality, and race.

Much like Gardner's *Multiple Intelligences*, Maulding-Green and Leonard have, in *Leadership Intelligence: The Journey to Your True North*, postulated a theory regarding the age old question, 'are leaders born or are leaders made?' This theory is predicated on the idea that there is a genetic predisposition toward leadership via the vehicle of imprinting. The five critical factors which undergird the tenets of Leadership Intelligence, are delineated and developed through the lens of the soft skills of a leader. There is further clarification as to why some leaders seem to have 'a greater intensity' of these factors than their peers. To aid the reader in relating to the theory, a conceptual model based on a GPS is threaded throughout each chapter interweaving both examples and understandable content. The model relates keeping the organization moving in a true north fashion. The final chapters reveal how a leader can develop or enhance these skills and how he/she can avoid leadership derailment, due to neglecting them.
