Book collectors are a special (and wonderful) breed, as are books related to book-collecting. This fine example lists the correct titles and original date and place of publication of more than 33,000 collectible book titles. The titles listed were written by 931 authors who used a total of 1,764 dif

The main materials contained in these pages will certainly be new for the vast majority of readers. Moreover the Mandaean narratives, legends and discourses are not only interesting because of their own distinctive matter and manner, but they are also arresting; for they raise a number of problems, some of which are far-reaching and one is fraught with implications of immense importance. The definite solutions of these problems, however, lie in the future, and the most important of them will perhaps never be reached; for, in the absence of straightforward historical information, general agreement on any subject that concerns Christian origins immediately or even indirectly is now well-nigh a psychological impossibility.

The John Locke Collection A Collection of his most Important Works Second Treatise of Government by John Locke An Essay Concerning Humane Understanding, Volume 1 by John Locke An Essay Concerning Human Understanding, Volume 2 by John Locke John Locke FRS (29 August 1632 - 28 October 1704) was an English philosopher and physician regarded as one of the most influential of Enlightenment thinkers and known as the "Father of Classical Liberalism". Considered one of the first of the British empiricists, following the tradition of Sir Francis Bacon, he is equally important to social contract theory. His work greatly affected the development of epistemology and political philosophy. His writings influenced Voltaire and Rousseau, many Scottish Enlightenment thinkers, as well as the American revolutionaries. His contributions to classical republicanism and liberal theory are reflected in the United States Declaration of Independence. Locke's theory of mind is often cited as the origin of modern conceptions of identity and the self, figuring prominently in the work of later philosophers such as Hume, Rousseau, and Kant. Locke was the first to define the self through a continuity of consciousness. He postulated that, at birth, the mind was a blank slate or tabula rasa. Contrary to Cartesian philosophy based on pre-existing concepts, he maintained that we are born without innate ideas, and that knowledge is instead determined only by experience derived from sense perception.

A legend in the folk music community, John Jacob Niles enjoyed a lengthy career as a balladeer, folk collector, and songwriter. Ever close to his Kentucky roots, he spent much of his adulthood searching for the most well-loved songs of the southern Appalachia. The Ballad Book of John Jacob Niles brings together a wealth of songs with the stories that inspired them, arranged by a gifted performer. This new edition includes all of the melodies, text, commentary, and illustrations of the 1961 original and features a new introduction by Ron Pen, director of the John Jacob Niles Center for American Music at the University of Kentucky. Alfred's Basic Piano Library Technic Books provide reading and rhythm drills and exercises perfectly paced with each Lesson Book to improve musicianship and develop coordination of the hands.

A unique chance to read these two chilling Gothic tales from the brilliant storyteller John Harding together. Modern Gothic classic Florence & Giles and it's sequel The Girl Who Couldn't Read are a must for fans of Edgar Allen Poe.

John Lennon was one of the world's most influential people. Mark David Chapman was one of the most invisible. By the end of 1980, the Beatles had been broken up for a decade -- a decade John Lennon had spent in search of his true identity: singer, songwriter, activist, burn out. "It's the perfect time to be coming back," he declared. Except that Lennon was a marked man. As early as the Beatles' controversial 1966 American tour, the band had feared for their safety. "You might as well put a target on me," Lennon said, and the Nixon administration complied by opening an FBI file. If only the agents hadn't been so intently focused on the star himself, they might have detected Mark David Chapman's powerful, ever-growing obsession with his onetime idol. Chapman, himself a tragic nowhere man, ultimately achieved the notoriety he craved by actualizing the target on Lennon -- single-handedly wounding the spirit of a generation.

Vol. for 1928 includes translations from Khol's Handbook.

Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

A priced and annotated annual record of international book auctions.

This is the extended and annotated edition including * an extensive biographical annotation about the author and his life Calvin produced commentaries on most of the books of the Bible. His commentaries cover the larger part of the Old Testament, and all of the new excepting Second and Third John and the Apocalypse. His commentaries and lectures stand in the front rank of Biblical interpretation. This book embraces the most difficult portion, in some respects, of THE OLD TESTAMENT, and of that portion, as acknowledged by all, the most difficult is THE BOOK OF THE PROPHET HOSEA. Probably no part of Scripture is commonly read with so little benefit as THE MINOR PROPHETS, owing, no doubt, to the obscurity in which some parts are involved. That there is much light thrown on many abstruse passages in this Work, and more than by any existing Comment in our language, is the full conviction of the writer. Acute, sagacious, and sometimes profound, the Author is at the same time remarkably simple, plain, and lucid, and ever practical and useful. The most learned may here gather instruction, and the most unlearned may understand almost every thing that is said. The whole object of the Author seems to be to explain, simplify, and illustrate the text, and he never turns aside to other matters. He is throughout an Expounder, keeps strictly to his office, and gives to every part its full and legitimate meaning according to the context, to which he ever especially attends.

This book contains a selected list of children's books from 1600 to 1900 and includes historical and literary description of the books.
