Provides practice tests with official INS sample questions and tips on improving vocabulary and reading comprehension skills. The latest information on enrollments, tuition and fees, academic programs, campus environment, available financial aid, and much more make the 29th edition of Profiles of American Colleges America's most comprehensive and authoritative source for college-bound high school students. Every accredited four-year college in the United States is profiled, and readers are directed to a brand-new Barron's Web site featuring a FREE ACCESS college search engine that presents exclusive on-line information to help students match their academic plans and aptitudes with the admission requirements and academic programs of each school. The book presents profiles of more than 1,650 colleges, each profile including details on: • Admission requirements • Library and computer facilities • Admissions procedures for freshmen • Campus safety and security • Thumbnail descriptions of faculty • Requirements for a degree • Athletic facilities • Extracurricular activities • E-mail addresses • College fax numbers and web sites • Admissions Contacts • and more Schools are rated according to Barron's reliable competitiveness scale, which ranges from "Noncompetitive" to "Most Competitive." The book's tinted pages section presents an Index of College Majors that lists all available major study programs at every school. Also profiled are excellent colleges in Canada and several other countries, as well as brief profiles of religious colleges, and American colleges based in foreign countries.

This book is based on the author's clinical experience as director of a program in the paediatrics department of a large teaching hospital that assesses and treats a broad range of learning problems. He has consulted with thousands of families, explaining complex data in straightforward terms understandable to the parents. He coined the term "shut-down learner" to describe children who thrive with hands-on tasks requiring visual and spatial abilities, but who become discouraged by their difficulty mastering core academic skills such as reading and writing. As many as 40% of Americans experience problems with these core skills, and a significant proportion of them are spatial thinkers. This book is packed with techniques that parents can use to help their shut-down learner succeed in school and in life. In a friendly, non-technical style, the author helps them understand their child's characteristics and offers specific approaches to break the downward spiral.
