It is my hope that this carefully selected set of pieces will offer guidance and clarity to both students and teachers of classical guitar. Now that music is available in such quantity and ease it is more important than ever to have a clear path laid out that will offer the possibility to explore the repertoire without putting up walls of frustration along the way. After working with several thousand guitarists online it has become clear that studying a piece of music that is too difficult can be one of the biggest impediments to learning and also the joy of music making. More often than not, students who experience struggle will put themselves at fault. However, I believe that a curated selection of music that is arranged in a progressive manner can avert frustration, foster steady progress, and make for a joyful learning experience. At the heart of this collection is a desire to foster joy and a sense of accomplishment. It is that joy that most likely brought you to the classical guitar in the first place. Each piece has been chosen because of musical, technical, and pedagogical reasons. The collection as a whole makes up the repertoire component of the curriculum at Classical Guitar Corner Academy and has been worked on diligently by a dedicated community of guitarists around the world. This edition is in standard notation and contains 123 pages. There are 52 pieces in total. Each grade is clearly marked and each piece has a brief set of instruction to help with study and focus. Although Johann Sebastian Bach did not write any music for the guitar, transcriptions of his unaccompanied string music and music for lute have long been a part of the guitar repertoire. Despite the respect that this music commands among musicians and audiences debate still exists as to what constitutes an appropriate means of transcribing, interpreting and performing this music on the guitar. It is this debate that prompted this long-awaited edition of Bach's unaccompanied cello suites by scholar and concert guitarists Stanley Yates. This definitive work includes performance scores, comparison scores and an invaluable 40-page guide entitled Arranging, Interpreting, and Performing the Music of J.S. Bach. Furthermore, the author offers comments on his arranging process and suggestions on using this edition including: ornamentation, slurs, fingerings, notation, and implementation of the comparison scores. Written in standard notation in guitar-friendly keys.

Together with The Baroque Book (97479), this book was compiled as part of an educational series implementing an innovative teaching concept developed by the UK branch of the European Guitar Teachers Association. This volume contains intermediate level classic guitar solos from the early 19th Century, including works by Aguado, Carcassi, Carulli, Coste, Diabelli, Giuliani, Molino, and Sor. The progressively arranged pieces are divided into three categories: 1) pieces that do not contain left-hand slurs or barres and do not go higher than the fifth position, 2) pieces that include half barres, single grace notes, and other examples of the left-hand slur, and 3) pieces that include full barres along with multiple grace notes. Higher positions are required with greater frequency in the latter two sections. Overall, this anthology provides great sight reading practice at an intermediate level, along with ample historical and biographical notes.
