NEW YORK TIMES BESTSELLER A thoroughly modern guide to becoming a smarter, faster, more creative cook from Molly Baz, featuring fun, flavourful recipes anyone can make. If you seek out, celebrate and obsess over good food but lack the skills and confidence necessary to make it at home, you've just won a ticket to a life filled with supreme deliciousness. Cook This Book is a new kind of foundational cookbook from Molly Baz, who's here to teach you absolutely everything she knows and equip you with the tools to become a better, less stressed, more efficient cook. Molly breaks the essentials of cooking down to clear and uncomplicated recipes that deliver big flavour with little effort and a side of education, including dishes like Pastrami Roast Chicken with Schmaltzy Onions and Dill, Chorizo and Chickpea Carbonara, and, of course, her signature Cae Sal. But this is not your average cookbook. More than a collection of recipes, Cook This Book teaches you the invaluable superpower of improvisation through visually compelling lessons on such topics as the importance of salt and how to balance flavour, giving you all the tools necessary to make food that tastes great every time. Throughout, you'll encounter dozens of QR codes, accessed through the camera app on your smartphone, that link to short, technique-driven videos hosted by Molly to help illuminate some of the trickier skills. As Molly says, 'Cooking is really fun, I swear. You simply need to set yourself up for success to truly enjoy it.' Cook This Book will help you do just that, inspiring a new generation to find joy in the kitchen and take pride in putting a home-cooked meal on the table, all with the unbridled fun and spirit that only Molly could inspire.

"Song of Myself" is a poem by Walt Whitman that is included in his work Leaves of Grass. It has been credited as "representing the core of Whitman's poetic vision". The poem was first published without sections as the first of twelve untitled poems in the first (1855) edition of Leaves of Grass. The first edition was published by Whitman at his own expense. In 1856 it was called "A Poem of Walt Whitman, an American" and in 1860 it was simply termed "Walt Whitman." Walter "Walt" Whitman (1819 – 1892) was an American poet, essayist and journalist. His work was very controversial in its time, particularly his poetry collection Leaves of

Grass, which was described as obscene for its overt sexuality.

Channel Kindness is a collection of fifty-one stories of kindness, bravery, and resilience from young people all over the world collected by the Born This Way Foundation and introduced by Lady Gaga. For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities, and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of being yourself, being kind to yourself and others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery, and resilience from young people all over the world, proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice, just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started their own social movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. Individually and collectively, the stories collected here prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

In the grand tradition of "Raindrops on roses and whiskers on kittens" comes an uplifting tribute to 100 everyday things worth celebrating. The list, in rhyming couplets, draws directly from a preschooler's world—from slippery floors to dinosaurs, from goldfish to a birthday wish. Amy Schwartz weaves a masterful balance between art and text, with each of the 100 items portrayed as its own well-observed and warmly detailed vignette. While the contents provide readers with a frame of reference for the quantity of "100"—a celebratory milestone in preschools and early elementary grades—the oversized pages envelop young children in the

You know a pile of poo when you see one. But what about when the poo is carefully concealed in an everyday scene? With great artistry and mischievous glee, bestselling author Hugh Jassburn has created a selection of entrancing visual puzzles to keep you entertained whenever you need a comfort break. Whether you're scanning a busy beach or scoping out a city street, there's a dump to be discovered on every spread of this highly amusing search-and-find book.

The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

Make use of those dull moments on the lav by teaching yourself how a starfish eats a clam, how to say ‘Hello’ in every European language and what the dot over an i is called. Covering all types of trivia, from science and natural history to the different types of moustache, this little book contains enough fascinating facts to keep you learning throughout the year. ‘A great way to get shit done’ Loo Quarterly

Keep crafty children of all ages entertained and inspired for hours with Fiona Hayes’ 100 Things to Recycle and Make. Everyday materials are transformed into all kinds of stunning and practical projects, from toy animals and vehicles to dressing-up props, decorations, games, and even fun storage solutions. Bringing together the best projects from the popular *Crafty Makes* series, each section is dedicated to a different base object: cardboard boxes; paper plates; cardboard tubes; materials from nature; and egg cartons. With twenty projects per section to choose from, and 100 projects overall, this book will appeal to a wide range of ages and interests. Simple cardboard tubes become a set of pirate skittles, a friendly octopus, and an entire castle. Plain cardboard boxes are turned into a pirate ship, a money box, and a robot; twigs, leaves and other outdoors materials become picture frames, masks, and a dinosaur. Paper plates make a great bug or flower hat, a dotted frog, and a cute panda, while egg

cartons are turned into a fire engine, a pencil holder, and a Christmas tree. Children will be entertained for hours with this invaluable collection of crafty makes, and even the whole family can be involved in recycling everyday objects and turning them into exciting projects. Create entire animal kingdoms and alien worlds, or simply a new favourite toy or mascot. With such a huge range of exciting projects to make from the simplest of objects, 100 Things to Recycle and Make is the ultimate craft inspiration for creative children.

Shortlisted for the Man Booker Prize 2015. Shortlisted for the Baileys Prize for Women's Fiction 2016. Finalist for the National Book Awards 2015. The million copy bestseller, A Little Life by Hanya Yanagihara, is an immensely powerful and heartbreaking novel of brotherly love and the limits of human endurance. When four graduates from a small Massachusetts college move to New

York to make their way, they're broke, adrift, and buoyed only by their friendship and ambition. There is kind, handsome Willem, an aspiring actor; JB, a quick-witted, sometimes cruel Brooklyn-born painter seeking entry to the art world; Malcolm, a frustrated architect at a prominent firm; and withdrawn, brilliant, enigmatic Jude, who serves as their centre of gravity. Over the decades, their relationships deepen and darken, tinged by addiction, success, and pride. Yet their greatest challenge, each comes to realize, is Jude himself, by midlife a terrifyingly talented litigator yet an increasingly broken man, his mind and body scarred by an unspeakable childhood, and haunted by what he fears is a degree of trauma that he'll not only be unable to overcome – but that will define his life forever.

The bewitching tenth-anniversary edition of the classic children's novel *Coraline* by Neil Gaiman, featuring spellbinding illustrations from Chris Riddell and an exclusive new introduction by the author 'I was enthralled' - Philip Pullman There is something strange about Coraline's new home. It's not the mist, or the cat that always seems to be watching her, nor the signs of danger that Miss Spink and Miss Forcible, her new neighbours, read in the tea leaves. It's the other house – the one behind the old door in the drawing room. Another mother and father with black-button eyes and papery skin are waiting for Coraline to join them there. And they want her to stay with them. For ever. She knows that if she ventures through that door, she may never come back. This deliciously creepy, gripping novel is packed with glorious illustrations by Chris Riddell, and is guaranteed to delight and entrance readers of all ages.

This is one of the most important books ever written on the clandestine world of the UFO cover-up. Grant Cameron and Scott Crain do more than demonstrate the reality of an extraterrestrial presence on Earth. Through tenacious investigation and impeccable research, they shine a light into the CIA, NSA, Air Force, Navy, and other inside groups that have managed this secret for decades. Their conclusion is inescapable and shocking: this is a secret that the insiders themselves struggle to understand and contain. "Government agencies, at various times, perceive a need to release some UFO information to the public. Some, definitely not all. How do they do it? Always via avenues that leave no one at risk. That means ensuring there is no direct connection between the agency and whomever is doing the actual releasing. It also means the necessity of mixing in some false information. It means, ultimately, to tell the truth, but tell it with a slant. Until there is a full disclosure of the UFO/ET reality, deniability will remain paramount to those in possession of this great secret." - By the authors, from the book's Introduction.

Fintan O'Toole – Ireland's leading public intellectual and author of *Heroic Failure* – tells a history of Ireland in his own time.

In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical - and accessible - plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide toward certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he lays out a concrete, practical plan for achieving the goal of zero emissions—suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

Too many companies are managed not by leaders, but by mere role players and faceless bureaucrats. What does it take to be a real leader—one who is confident in who she is and what she stands for, and who truly inspires people to achieve extraordinary results? Rob Goffee and Gareth Jones argue that leaders don't become great by aspiring to a list of universal character traits. Rather, effective leaders are authentic: they deploy individual strengths to engage followers' hearts, minds, and souls. They are skillful at consistently being themselves, even as they alter their behaviors to respond effectively in changing contexts. In this lively and practical book, Goffee and Jones draw from extensive research to reveal how to hone and deploy one's unique leadership assets while managing the inherent tensions at the heart of successful leadership: showing emotion and withholding it, getting close to followers while keeping distance, and maintaining individuality while "conforming enough." Underscoring the social nature of leadership, the book also explores how leaders can remain attuned to the needs and expectations of followers. Why Should Anyone Be Led By You? will forever change how we view, develop, and practice the art of leadership, wherever we live and work.

NEW YORK TIMES BESTSELLER "I come from a family forged by tragedies and bound by a remarkable, unbreakable love," Hunter Biden writes in this deeply moving memoir of addiction, loss, and survival. When he was two years old, Hunter Biden was badly injured in a car accident that killed his mother and baby sister. In 2015, he suffered the devastating loss of his beloved big brother, Beau, who died of brain cancer at the age of forty-six. These hardships were compounded by the collapse of his marriage and a years-long battle with drug and alcohol addiction. In Beautiful Things, Hunter recounts his descent into substance abuse and his tortuous path to sobriety. The story ends with where Hunter is today—a sober married man with a new baby, finally able to appreciate the beautiful things in life.
