The organization of this study guide parallels that of Cheng F Lee's Statistics for Business and Financial Economics, providing a comprehensive treatment of every chapter. To maximize students' understanding of the material, the author presents it in a slightly different though complementary way. For each chapter, the study guide provides: Chapter Intuition. Each chapter begins with an intuitive verbal explanation of the chapter's central message on why the chapter is important and where it is headed. Chapter Review. Rather than just giving a simple outline of the chapter, all the key concepts in the chapter are covered in a simple, easy-to-follow account. Useful Formulas. Where appropriate, a list of useful formulas from the chapter is provided so that one need not search the text to find formulas necessary for solving the problems. Example Problems and Solutions. Here, sample problems similar to the problems in the text are provided, along with step-by-step solutions. To provide a guide to solving the problems, each example states the topic that the problem illustrates. Supplementary Exercises. Once the example problems are studied, one's skills can be put to work by solving problems. A variety of exercise types is offered to accommodate various learning styles. Old Testament Study Guide, Pt. 3: The Old Testament Prophets. This volume is the third of three on the Old Testament. This volume is an unusually large volume that includes nearly all of the Old Testament prophets, their teachings and warnings to their people, and their prophecies of the coming of the Messiah and the latter days. It covers the period of the Bible from the end of King Solomon's reign through the end of the Old Testament, including the ministries of Jonah, Micah, Hosea, Amos, Joel, Isaiah, Jeremiah, Ezekiel, Esther, Daniel, Ezra, Haggai, Nehemiah, Zechariah, and Malachi (Elijah and Elisha were covered in Volume 8). We are taken from 826 BC to 430 BC, when the Old Testament closes. Then finally, we read of the Intertestamental Period between the ministry of Malachi and the rise of John the Baptist to open the New Testament. The cover features a classic painting of Daniel in the lion's den, painted by Riviere in 1890.

In this detailed study outline of the book, the author connects the message of the book to its Old Testament roots and reclaims it for contemporary Christians struggling to live out their faith in what seems to be an increasingly hostile world. The author presents the images of Revelation as a "divine picture book" not to be debated, or to serve as a detailed calendar of end-time events but to reassure believers today that the promise of the gospel is still as real, fresh, and powerful as it's ever been.

"To this day we have not the slightest idea what it was Jesus twice scribbled in the sand. By and large the commentaries have asked the wrong question through the ages. They labor over the content, over what he might have written. They ask what, without ever realizing the real question is why? It was not the content that mattered but why he did it. Unexpected. Irritating. Creative." Singer, songwriter and diligent student of Scripture, Michael Card is well known for the depth of his lyrics and the artistry of his music. But far more significant than the songs he has penned is the source of his inspiration--the creativity embodied in Jesus Christ, the incarnate Word of God. In his book *Scribbling in the Sand* Card explores the biblical foundations of true Christian creativity. Whether we think of ourselves as creative or not, all of us are created in the image of our Creator God, and thus creativity is a vital expression of our discipleship. This companion study guide provides eight sessions to help individuals and groups interact with the themes of Michael Card's book. With discussion questions, inductive Bible studies and creative exercises, each session provides opportunities for reflection, discovery and application. The user-friendly format makes this guide ideal for small groups, Sunday school classes or anyone who wants to enter into a life of Christian creativity.

Measurable Learning Outcomes have been added to the opening of each chapter, and can act as the basis for selecting content, classroom activities, and assessments such as chapter or unit tests and final projects or exams.
