In nineteenth-century Britain, a large number of prominent Anglican and Presbyterian Evangelicals rejected the idea that salvation meant "going to heaven when you die." Instead, they proposed that God would establish his kingdom on earth, renewing the creation and reanimating embodied humans to live in a world of science and progress. This book introduces the writings and activities of these women and men, among whom were counted the ardent social reformer Lord Shaftesbury, the highly-respected clergyman Edward Bickersteth, the popular author Charlotte Elizabeth Tonna, and the General Secretary of the Evangelical Alliance, Thomas Rawson Birks. The book shows that the catalyst for such theological revisionism was the end-times doctrine known as "premillennialism." While commonly characterized as a gloomy and sectarian belief, the book argues that premillennialism in Victorian Britain was actually an optimistic and often liberalizing creed. It dissolved older Evangelical assumptions about the dissimilarities between time and eternity, body and soul, heaven and earth. The book demonstrates that, far from being eccentric pessimists, premillennialists were actually pioneers of trends in nineteenth-century Christian theology that stressed the importance of the incarnation, prioritized social justice, and even entertained the idea of universal salvation.

Culturally we lack the training of an early age to be free thinkers. We have become instead, repeaters - cookie cutter persons. Thinking out of the box is so needed. This is what prompted me to write this book. Ive been there, done that so know it well. Children today say they are free thinkers, yet there they stand before us, all wanting and dressing alike. It may help the economy but it certainly is not free thinking. It likely is different than what Mom and Dad ascribe but its still about others thinking. How did we get to where we are? We are all responsible for it. So lets together not recreate the past

Hurting people want a God who is big enough to rescue them from heartache and circumstances beyond imagination. But even if they believe that such a God exists, they may have no idea how to approach him, much less how to ask him for the impossible. In this powerful book, Linda Evans Shepherd shows readers how to reach out to God and ask for a miracle. She shows how God's miracles may not come packaged in the ways we would expect, but they do come in ways that will transform our lives. This book will be a comfort to those who struggle with faith yet still dare to believe that God cares. Through solid biblical teaching and real-life stories of answered prayer, Shepherd walks with readers on a journey to renewed hope and the assurance that God still works miracles.

As he is driving home from a minister's conference, Baptist minister Don Piper collides with a semi-truck that crosses into his lane. He is pronounced dead at the scene. For the next 90 minutes, Piper experiences heaven where he is greeted by those who had influenced him spiritually. He hears beautiful music and feels true peace. Back on earth, a passing minister who had also been at the conference is led to pray for Don even though he knows the man is dead. Piper miraculously comes back to life and the bliss of heaven is replaced by a long and painful recovery. For years Piper kept his heavenly experience to himself. Finally, however, friends and family convinced him to share his remarkable story.

questions. Perhaps no other topic captures the popular imagination quite like heaven. Gary Scott Smith examines how Americans from the Puritans to the present have imagined heaven. He argues that whether Americans have perceived heaven as reality or fantasy, as God's home or a human invention, as a source of inspiration and comfort or an opiate that distracts from earthly life, or as a place of worship or a perpetual playground has varied largely according to the spirit of the age. In the colonial era, conceptions of heaven focused primarily on the glory of God. For the Victorians, heaven was a warm, comfortable home where people would live forever with their family and friends. Today, heaven is often less distinctively Christian and more of a celestial entertainment center or a paradise where everyone can reach his full potential. Drawing on an astounding array of sources, including works of art, music, sociology, psychology, folklore, liturgy, sermons, poetry, fiction, jokes, and devotional books, Smith paints a sweeping, provocative portrait of what Americans-from Jonathan Edwards to Mitch Albom-have thought about heaven.

Christians are often tempted to encapsulate God in their own little boxes, as if God could be tied down to our finite way of thinking. But we can neither domesticate nor fully understand God, for theology has a lot to do with coming to terms with the mystery of God. This revised edition of *Dancing in the Dark*--shaped, as in the first edition, by the two overarching themes of God as Trinity and a theology of participation--embraces the notion of mystery in presenting a compelling vision of seeing all things
