From 1776 to 1781 - the key years of the War of the American Revolution - George Washington fought primarily in New Jersey. He battled not only the British army and their Loyalist and Hessian allies, he battled with Congress, with the weather, for food and military supplies, with disease, and with some of his own generals. In New Jersey you can find more open-to-the-public scenes of his actions than in any other state. George Washington's New Jersey leads you through the war and through these houses and battlefields - places like Trenton and Princeton, where Washington's daring nine-day campaign changed the course of world history. Explore homes like the Ford Mansion in Morristown where Martha joined him during the coldest winter of the entire century, far worse than the winter in Valley Forge. Trace the action at the forgotten battle of Springfield, when 6,000 British struck twice, two weeks apart and under two different generals. And America's amateur soldiers stopped them both times! New Jersey was the most fought-over, bloodiest, burnt-out of the thirteen original colonies. It saw more action than any other colony. It was also the most central colony, so that no matter where in America the fighting was, the troops had to cross through New Jersey to get to it. Let George Washington's New Jersey be your guide to this historic ground.

How should wealthy Christians view themselves, and how should they be viewed by others? These questions were popular in the ancient world, and the ancient Christian church voiced a unified answer to each. In the end, the reader will find those answers to be just as relevant today as they were centuries ago.
