Every meaningful life is a series of trials and triumphs and both have to be accepted with equal poise for perennial joy. This book explains that no matter how much one may try or wish, there is no real control over the events of life and one has to face them as they come. A positive person accepts these gracefully and grows wiser in the process. However, the reverse is what befalls upon a negative person with negative thoughts and actions. In this motivational book, the author has narrated several anecdotes from his own life or from those closely connected to him. From every incident he draws a positive inspiration for himself, as well as for others. Very aptly titled, each incident has been described in a simple, short and lucid manner which keeps the reader engaged throughout the book. A very powerful and moving book that provides ample scope for self-development.

Humans have a purpose in this world: providing high-quality cat food, both wet and dry, also the Minimum Daily Cat Requirement of petting(not less than two hours),and most important, making available a good Sleep Environment for a cat. This must include comfortable chairs, couches, beds, countertops and a variety of floor surfaces: bare wood, a cool cement area, linoleum, and carpeting. Carpeting is required not only as an Essential Sleep Option, but also for puking on. Never puke on anything not covered by carpeting. Dogs, on the other hand, serve no useful purpose. All they can do is disturb and disrupt, specifically disturb and disrupt cat sleeping activity. Fortunately, dogs can be trained. It's a nuisance, but it can be done. This book contains detailed tips on training your dog, but for starters, know that a couple of quick scratches to your dog's snout will have a very positive effect.

Award winning fine artist Joe Pearce brings wisdom, humor, and creative perspective to the trials, tribulations, and party that is life. After growing up in the drug culture of the 70's, Joe Pearce turned to a fundamentalist church for personal redemption. He felt called to become a traveling evangelist and musical artist, which is how he met his wife. Joe eventually transitioned away from that belief system to become part of corporate America. Joe was working a job in financial services, 20 years into marriage, when his wife developed severe schizophrenia. [The Art of My Life](#) explores Joe's struggles with care taking for, and coping with, his wife's illness. Joe tells a raw, blatantly honest narrative of his unique life experiences while weaving in themes of his and other's art with the hopes of helping people find their passion along their own unique paths.

In order to understand common conditions such as coeliac disease and Crohn's disease, one must view the gut in its evolutionary context. This is the novel approach to the gut and its diseases that is adopted in this book. The first part tells the story of the evolution of the gut itself – why it came about and how it has influenced the evolution of animals ever since. The second part focuses on the evolution of immunity and how the layers of immune mechanisms are retained in the gut, resembling the strata revealed in an archeological dig. The final part, 'The Gastro-Archeologist', ties the first two together and highlights how understanding the gut and immune system in their evolutionary context can help us understand diseases affecting them. Ambitious
