Canada is packed with intriguing places for travel where heritage and landscape interact to create stories that fire our imagination. Scattered across the land are incredible tales of human life over the centuries. From the Majorville rock formation (dated as being older than Stonehenge), through the systems of walking trails developed by pre-contact Native Peoples, and the fur trade routes, to the more recent grand stories of the Chilkoot Gold Rush of 1897, Bob Henderson, the traveller, captures our living history in its relationship to the land – best expressed through the Norwegian quote "nature is the true home of culture." The diversity of fascinating content includes the ancient James Bay landmark (the "Wonderful" Stone); the mountain treks of naturalist Mary Schaffer Warren; the west coast observations of George Vancouver; practices such as dog sledding, warm winter camping and canoeing that allow for heritage insights; the trails of Dundas, Ontario; the exploits of missionary Gabriel Sagard; the recluse Louis Gamache of Anticosti Island; the abandoned gravesites along the coast of Newfoundland – to name but a few. As historian Michael Bliss once said, "We have to find a way to make history smell again." Author Bob Henderson brings the "fragrance of the past" into the present and invites us to imagine and participate. "Like an enthused hummingbird too eager to land, Bob Henderson leads a wide-ranging tour of the vast garden of Canadian history and landscape. Once entrusted with the scent of intrigue we are invited to follow these stories and trails deeper, make them speak and inform our own travels and impressions. Here are stepping stones and touchstones, paths toward richer engagements via a storied and fabulous past." — Alexandra & Garrett Conover, co-authors of *The Snow Walker's Companion* "I pulled off the river; a log cabin set back in the woods had caught my eye. Though very old it was in good shape — there was no lock on the door. A framed note beside it read, 'Leave as you found it.' The

Follow the Money is based on a startling insight: there are three different forms of money, not just one; and the form of money a society implements determines the kind of society it will be, and what's more, how it will think. For money is not neutral. It is a product of human artifice, the particular expression of a particular society, that at the same time determines the further course of that society, not just in terms of economics, but in all areas of cultural endeavor. This thesis is implemented with verve. The book takes the reader on a journey through history, beginning with ancient Mesopotamia, through Phoenicia, Greece, and Rome, then through medieval and early-modern Europe in its interaction with the Near and Far East, all the way to the modern-day community of nations. It demonstrates in no uncertain terms just how decisive the institution of money has been, and at the same time just how misunderstood - its role, its effects, even the very form it takes. This is still the case, with the result that political choices and action end up entirely misguided. It is especially true of the attempt to address the credit and debt crises afflicting the world today. The way forward will only come through a better understanding of money as institution. This book is a first step in arriving at such an understanding. As such, it takes the form of historical inquiry, which is the only form such a first step can take. Follow the Money is illustrated and published in full color.

The Jew's Trail through the Ages is translated from the 1937 edition of *Die Spur des Juden im Wandel der Zeiten*, written by Alfred Rosenberg in 1919 and first published in 1920. Tracing Jewry's interaction with non-Jews from antiquity to the 20th century, Rosenberg discerns a constantly re-occurring pattern. First, the Jews are accepted, or at least tolerated, despite their pronounced desire for exclusivity. Jewish usury results over time in great wealth and influence, often even special privileges. Ultimately, the burden of usury, abuse of power, arrogance and hardly concealed hostility toward everything non-Jewish trigger a backlash, the tables are turned and the Jews suffer persecution. Relying heavily on Jewish sources such as the Talmud and various Jewish authors, Rosenberg examines the Jewish spirit as well as the Jewish role in Freemasonry, the French

revolution and communism. Softcover. 180pp.

As the Memphis Line was pushing eastward through the virgin Ozark hills, railroad officials realized that watering stations were needed every 8 to 10 miles. One such station was built on the future site of the town of Mansfield. In 1882, F.M. Mansfield and George Nettleton officially established the town. Noted for its rolling hills and abundance of natural water sources, Mansfield became known as the "Gem of the Ozarks." Early settlers that were drawn to the area established local businesses, including orchards, canning factories, and mines. Farming became an essential way of life for most rural residents. Today, the town is famous as the place where author Laura Ingalls Wilder, who lived here from 1894 until her death in 1957, wrote her renowned Little House books. It was also the boyhood home of Major League Baseball player Carl Mays, who at one point was a teammate of Babe Ruth.
