In the company of his friend Stephen Katz (last seen in the bestselling *Neither Here nor There*), Bill Bryson set off to hike the Appalachian Trail, the longest continuous footpath in the world. Ahead lay almost 2,200 miles of remote mountain wilderness filled with bears, moose, bobcats, rattlesnakes, poisonous plants, disease-bearing ticks, the occasional chuckling murderer and - perhaps most alarming of all - people whose favourite pastime is discussing the relative merits of the external-frame backpack. Facing savage weather, merciless insects, unreliable maps and a fickle companion whose profoundest wish was to go to a motel and watch *The X-Files*, Bryson gamely struggled through the wilderness to achieve a lifetime's ambition - not to die outdoors.

journalists ventured very far into the Soviet heartland, Life magazine sent Peter Young prospecting for stories from the Black Sea resorts to the shores of Kamchatka in the Pacific Far East. His superbly written memories of that assignment provide a colorful and amusing highlight in a life - long career of reporting and editing." Roy Rowan Life magazine's former chief of correspondents "I read this book in one gulp, with delight and many fond memories. It's a true gift to the author's family, to his old friends and colleagues, and, one hopes, to lots of readers. His intention to portray the warmth, humor, and earthiness of the Russian people really comes through. The whole manuscript is immensely human. That was a hard story to tell back in the '60s, and I don't think Americans to this day have any appreciation of the Russians as human." Richard C. Longworth Former Moscow correspondent United Press International "Peter Young's travels through Soviet Russia and Eastern Europe are filled with real-life adventure and mind-grabbing insights, not to mention plenty of humor. This is a must-read book by a reporter/editor who has seen more than most of us and is able to describe his travels graphically." Joseph E. SOON TO BE A MAJOR MOTION PICTURE Back in America after twenty years in Britain, Bill Bryson decided to reacquaint himself with his native country by walking the 2,100-mile Appalachian Trail, which stretches from Georgia to Maine. The AT offers an astonishing landscape of silent forests and sparkling lakes--and to a writer with the comic genius of Bill Bryson, it also provides endless opportunities to witness the majestic silliness of his fellow human beings. For a start there's the gloriously out-of-shape Stephen Katz, a buddy from Iowa along for the walk. Despite Katz's overwhelming desire to find cozy restaurants, he and Bryson eventually settle into their stride, and while on the trail they meet a bizarre assortment of hilarious characters. But "A Walk in the Woods" is more than just a laugh-out-loud hike. Bryson's acute eye is a wise witness to this beautiful but fragile trail, and as he tells its fascinating history, he makes a moving plea for the conservation of America's last great wilderness. An adventure, a comedy, and a celebration, "A Walk in the Woods" has become a modern classic of travel literature.
