Offering an updated overview of reading theory, it summarises key ideas and issues in first and second language contexts. In addition to providing insightful research analyses, Grabe and Stoller offer practical advice for practitioners and researchers, including evidence-based teaching ideas and a multi-step iterative process for conducting meaningful action research on reading-related topics. The volume outlines 29 projects for teacher adaptation and use, as well as numerous new or substantially expanded resource materials that can be used for both action research and classroom instruction. Learning aids featured throughout the volume include · key concept boxes and a glossary of key terms · quote boxes highlighting critical issues in the field · resource lists of relevant journals, books and websites Fully revised throughout, with a range of new exemplary L1 and L2 research studies and an entirely new chapter on the move from research implications to instructional applications, this second edition of Teaching and Researching Listening is an invaluable resource for teacher trainers, practicing teachers, materials writers and researchers alike.
