This proceedings book covers the theory, design and applications of computer networks, distributed computing and information systems. Today's networks are evolving rapidly, and there are several developing areas and applications. These include heterogeneous networking supported by recent technological advances in power wireless communications, along with silicon integration of various functionalities such as sensing, communications, intelligence and actuations, which is emerging as a critically important disruptive computer class based on a new platform, networking structure and interface that enables novel, low-cost and high-volume applications. However, implementing these applications has sometimes been difficult due to interconnection problems. As such, different networks need to collaborate, and wired and next-generation wireless systems need to be integrated in order to develop high-performance computing solutions to address the problems arising from these networks' complexities. This ebook presents the latest research findings, as well as theoretical and practical perspectives on the innovative methods

This book investigates some of the learning processes of students of French and German as they begin language learning at an advanced level, a stage which is frequently problematic. By looking at the learning strategies employed by both successful and less successful language students, the author elucidates some of the key cognitive and affective processes which facilitate advanced level language learning. The implications of this for the classroom are discussed in detail, leading to practical recommendations for learning and teaching strategies. A central theme is the need to teach explicitly the proficient use of learning strategies, and suggestions are made as to how this may be achieved in the language classroom.

at least upper-intermediate proficiency (CEFR level B2) who want not only to improve their pronunciation, but also to acquire a solid understanding of the rules and rationale of English pronunciation. University students who are considering a career in teaching as well as practising English teachers who wish to perfect their pronunciation will appreciate the value of this dual objective. Key Features: - The twenty recorded lessons with worksheets are suitable for self-study (ideally with a computer) or group work with a teacher (in a language lab). - Each lesson is designed to last approximately 50 minutes. . The book is divided into four parts, addressing all major aspects of English pronunciation - rhythm and weak forms, word stress, spelling-pronunciation rules, intonation and linking. - The characteristic rhythm of English, an important but often neglected aspect of pronunciation, is dealt with right from the start, in the first three lessons. - Basic work on intonation is integrated into each lesson and then reviewed and expanded upon in the final two lessons. - Seven different native English speakers from England have been used for the recordings, representing standard, educated varieties of British English as spoken by people whose origins range from Bournemouth on the south coast to Carlisle near the Scottish border. - An innovative exercise design allows the learner to evaluate his or her knowledge as the exercise is

Confucianism in China and other East Asian countries, the book considers the problems involving Korean Bible translation in general and the Term Question in particular. It examines James Scarth Gale, an early Canadian Protestant missionary to Korea, as one of the language's remarkable translators. The book additionally compares three English versions of the Korean Declaration of Independence of 1919, arguing that the significant differences between them are due both to the translators' political vision for an independent Korea as well as to their careers and Weltanschauungen. The book concludes with a detailed analysis of Deborah Smith's English translation of 'The Vegetarian' by Han Kang, which won the 2016 Man Booker International Prize for Fiction.
