Because time, money, and resources are never enough to allocate, people as small as individuals, families, companies, and governments have to make frequent choices- choose to watch TV first, and then do homework; choose to save pocket money to buy books instead of snacks; Should the government choose to print money to save the economy or increase public construction to create jobs? The government will also use incentives, such as raising fines, to influence people's choices. Economics is to help us make better choices, make our lives, and make the world a better and fair world.
