This book analyzes the nature of social forces, complexity of causation and the interdependence of change and continuity in the light of the crucial transition from ancient to early medieval India, with the emergence of the Delhi Sultanate and the Vijayanagar-Bahmani kingdoms. Proceeding to detail the most effervescent period in Indian history - the era of the great Mughals - the text provides an insight into the ideological-philosophical basis of the times, focusing on the Sufi and Bhakti movements, and culminates with the rise of the Marathas, the advent of European companies, and the eventual establishment of the British in Bengal.
