Astronauts and Their Cats: A Mother and Daughter Astronaut Team, the Immortal Shape-Shifting Space Cats, Snifferu and Whiskers, keep Patches, the Kitten busy in the Intergalactic Cat Club. They make a rather different family household during the day. However, at night, the space station is cat-shadow dark, except for the human's cats that mingle with the shape-shifting immortal space cats that prowl the corridors and live among the rows of computers. They are wannabee free cats who travel onboard the space shuttles. Some, unknown to the space program, aren't even home-grown. "Which cat sprayed gang graffiti on the space shuttle?" A ground controller cat, an orange tabby, studied the photo. "But how did it get there?" He aimed a scowl over his computer at his boss. "Maybe it's a paste-on the astronauts put up to celebrate all those years here," the boss said in a dark-as-coffee voice. The cat's boss hurried to another computer. Patches, the Earth-born part orange tabby, part Siamese cat, formerly a library cat adopted by the ground controller's boss, sniffed with disdain and curled up on top of the main filing cabinet. A computer screen banner reflected bright red in each kitten's cornflower blue eyes. Rows of blinking computers lit up the room everywhere. The controller called in an expert. Every expert in the room studied the graffiti this time through video monitors as they watched the space shuttle. The controller pressed a button on his phone. "I'll call security."

Beneath the surface of our world, mythological creatures and their artifacts still exist—corrupt people pay fortunes for a sliver of dragon bone, a basilisk's scale, or an angel's wing. Angela Gough is an American criminology student in London whose fiancé Vince disappears, and her investigation leads her into a black market specializing in arcane relics. She meets Mary Rock, a criminal of mythic status who also wants to find Vince... to kill him. They are perfect killing machines. They are the Aliens. And some people value them above all else. But the attempt to weaponize a creature of such power is a very dangerous game for the inhabitants of Earth to play... The first volume of The Complete Aliens Omnibus contains Earth Hive by Steve Perry, Nightmare Asylum by Steve Perry and The Female War by Steve Perry and Stephani Perry.
