From the Blue Ridge Mountains to the beach, in this book travelers and their dogs will find hotels and inns that offer canine-inspired Southern hospitality as well as a wide array of things to do with your best canine pal. Virginia truly is for dog lovers. For over 40 years Virginia's tourism slogan has been "Virginia is for lovers," but both resident pooches and visiting Fidos know that it really should be "Virginia is for dog lovers"! Whether they're relaxing on the river, checking out the crabs on Chesapeake Bay, or hiking through the beautiful state and national parks, four-legged visitors are welcomed warmly. After all, Virginia is one of only a handful of states that has an official dog breed, the American Foxhound, a direct descendant of the hounds that George Washington bred to indulge his passion for foxhunting. Virginia's historic love affair with canines continues today, with more than 1,000 pet-friendly hotels, restaurants, attractions, and events that you and your best furry friend (BFF) can explore together. From the Blue Ridge Mountains to the beach, visitors traveling with their BFFs will find fine hotels and inns that offer canine-inspired Southern hospitality, verdant vineyards that beg for a long stroll, battlefields, beaches, and an array of dining and entertainment options that you can enjoy with your best friend. Virginia truly is for dog lovers!

Descriptions of 150 hiking trails, 38 mountain biking trails, and cross-country skiing trails, as well as more than 100 leash-free parks in Oregon suitable for your canine friend.

Handbook for All Pet Guardians (New and Experienced): Includes Little-Known Facts that Could Save Your Pet's Life By: Carole Nailen Animals deserve the same thoughtfulness and consideration that we give our fellow man. They feel emotions, have healing properties, and teach human beings so much about the world around us. When we have pets, it is our duty to protect them, love them, and keep them safe. Adopting a pet requires planning and preparation, as does caring for this animal throughout its entire lifetime. This handbook is designed to educate pet owners on how to find the best pet for your home, how to care for them, and also how to keep them safe from harmful situations. Additionally, this manual cites ways to protect animal rights and health even outside of your own home via the food you eat, products you buy, and companies you support. Animals deserve our love and respect, and they need our help in staying safe in this world.

Melissa McCue-McGrath CPDT-KA, wrote this book in response to a dog nearly killing a 6'4" man and his German shepherd in her city. After that terrible incident, and a decade of working with frustrated dogs in urban centers, she spoke with professionals in related dog industries. She consulted with veterinarians, rescue volunteers, behavior specialists, certified dog trainers, dog daycare providers, groomers and more to identify why urban dogs are failing, and what we need to do to help these dogs succeed. The same issues -- and solutions -- came up again and again across the board. This book explains how to find the right dog for a city environment; identifies how to find a good care taker for your pet; defines "behaviorist"; explains how to get exercise for an athletic dog in a city of leash-laws; and pontificates on how to responsibly advocate for an urban dog. Most importantly, this book lays out how exactly to find reputable help for any possible issue, and holds your hand if things are not working as hoped. This is not a dog training book - there are thousands on the market already. Instead, this book will supplement any science-based training regimen. It gives insight as to why dogs do what they do, but perhaps more importantly, it explains why people do what they do and why we must do better for the sake of our urban dogs. We all need to do better - our urban dogs are in the balance.

Frannie must rethink her dream of becoming a veterinarian after she and Elliott, her future assistant, cause chaos by letting her Aunt Magoo's dog, Bark, loose in a veterinarian's waiting room.

Unfortunately, much of what has been written about software engineering comes from an academic perspective which does not always address the everyday concerns that software developers and managers face. With decreasing software budgets and increasing demands from users and senior management, technology directors need a complete guide to the subject

I talked my sister into letting me help her write this book because I knew it would take a lot of work to get it the way she wanted it. There are quotes here from people whose dogs were acting out and driving them loony. These desperate owners called Eileen because she is well known in these parts or because their veterinarian or a friend recommended her. She jumps in her blue jeep and drives to their house. She evaluates the dog and the owner. It's usually the owner's fault I've discovered. She tells them, "This is a very cool dog. He's awesome. We can get him straightened around in no time." The relief they feel is huge. I've seen Eileen turn out of control dogs into angels in seconds. After some basic obedience training the dogs and the owners often attend an "agility" or "therapy dog" class taught by Eileen. The dogs are excited and happy to be there with the other dogs. It's like camp or a festival. The owners fall in love with their dogs again. The dogs, of course, always love their owners, no matter what. Amazing creatures. Everyone should read this book. You should especially read it before you get a dog so you know exactly what's involved. I'm not only talking to the adults I'm talking to the kids too. Mickey McGovern has worked in the Hollywood film industry for fifteen years as a writer and a visual effects producer. But more importantly she's Eileen Tonick's sister.

Canine and Feline Behavior for Veterinary Technicians and Nurses provides the veterinary technician with a solid foundation in behavioral medicine. Designed as a daily resource for interacting with and educating pet owners, the book familiarizes readers with the behavioral, mental, and emotional needs of dogs and cats. Canine and Feline Behavior for Veterinary Technicians and Nurses offers a complete guide to the technician's role in behavioral preventive services and how to assist the veterinarian with behavioral intervention. Covering the roles of animal behavior professionals, normal development of dogs and cats, and the human-animal bond, the book includes correlations from human mental health care throughout. The book encompasses learning theory, preventive behavioral services, standardized behavior modification terms and techniques, and veterinary behavior pharmacology. Canine and Feline Behavior for Veterinary Technicians and Nurses is an essential resource for veterinary technicians to realize their full potential and become a pivotal component of the behavioral health care team for canine and feline patients.

Some owners can house train their dogs without having to call on an expert. But when people experience difficulty with house training, it can lead to a variety of very serious consequences for the dog and frustration for the owner. While most trainers can offer standard house training advice for puppies, dealing with on-going problems with older dogs-fear based peeing, male marking, soiled crates-may be beyond the scope of what a dog trainer is equipped to handle. *Hard to House Train* by Peggy Swager is designed to be the go-to reference guide for trainers who encounter difficult house training cases. With in-depth Information on proven techniques as well as how to deal with the underlying behavioral problems (both dog and human!) which underlie them, this book should be part of your reference library. To know a Shih Tzu is to love a Shih Tzu . . . they're irresistible, coy, flirtatious, and passionately devoted companions. They love the good life, and though they can be shrewd (or selectively deaf, or consciously naïve), the Shih Tzu is so endearing that even "big dog" lovers find themselves swooning over this adorable breed. But is the Chinese Charmer the right match for you? *Shih Tzu for Dummies* answers all of your questions, like: What is a Shih Tzu really like? Can I get a Shih Tzu if I have children or other pets? How difficult is grooming? Can I do it myself or should I get a professional? How do I find a good breeder? What about a good vet? What should my Shih Tzu eat? Do small dogs really need that much training? How can I teach my Shih Tzu some basic commands? The Shih Tzu is built for one job and one job alone: to be your close personal friend for life. A dog bred for companionship must be allowed to do its job, and its job is to be with you. So, if you have the time (for grooming), dedication (for training), and room (on your lap and in your heart), the Shih Tzu is a small dog with a lot of love just waiting for a new best friend. In the world of dogs, there is now more awareness than ever of the need to provide enrichment, especially in shelters. But what exactly is enrichment? The concept is pretty straightforward: learn what your dog's needs are, and then structure an environment and routine that allows them to engage in behaviors they find enriching. To truly enrich your dog's life, you should offer them opportunities to engage in natural or instinctual behaviors. Aside from the limitations we have to place on a dog in today's modern, busy world, the biggest constraint to enriching your dog's life is your imagination! What the experts say about Canine Enrichment: Don't let the word "enrichment" in the title fool you into thinking that the scope of this book is too narrow or not something you will find valuable. It focuses comprehensively on meeting your dog's needs and is written in a holistic, science-based, practical, straightforward, and easy-to-understand way. I love this book! Ken Ramirez, author of *Animal Training: Successful Animal Management Through Positive Reinforcement* Canine Enrichment is a deep dive into what dogs really need and how we can provide it. It's a great book for dog lovers who want to go beyond the standard superficialities of "dogs need exercise." Just the chapter on agency is worth the price of the book! Patricia McConnell, Ph.D., CAAB Emeritus, author of *The Other End of the Leash* and *The Education of Will* The scope of this book is ambitious and the authors deliver, navigating the subject of enrichment with depth and relevance. Caregivers will gain critically important perspectives and practical information to improve the lives of their animals. Susan G. Friedman, Ph.D., Professor Emeritus, Utah State University, and founder of Behavior Works, LLC Provides basic information for starting a dog daycare with focus on local business resources, licensing and zoning requirements, good locations, and legal, financial and insurance concerns for the daycare owner.

Veronica Boutelle, the industry's top consultant, writes for the non-business savvy dog pro, sharing the detailed information you need to start, operate, and prosper in the dog world in clear, easy-to-read language. This second edition,

incorporating Veronica's ten years of experience helping dog pros succeed, included additional advice on packaging services, setting policies, and avoiding burnout, an expanded marketing chapter and resources section, and two entirely new chapters covering online marketing and developing the perfect staff.

Dogwise Publishing is pleased to reunite again with Pat Miller for the publication of her second volume of Positive Perspectives, a collection of her recent articles. This collection is more advanced than volume one, with particular emphasis on understanding the latest in canine behavioral research so that you can become a more effective trainer and/or owner. Written in Pat's understandable but sophisticated style, Positive Perspectives 2 presents the latest "positive" thinking on body language, training and behavioral concepts, teaching behaviors, problem behaviors, and aggression.

Each of these city-specific dog-resource directories takes all of the guesswork out of finding new dog shops, services and places, including dog day cares, boarding facilities, pet sitters, dog parks, dog trainers, pet boutiques, alternative therapies, and neighborhood pet-supply stores. Each listing includes not only the address, phone number, hours of operation, and payment information, but also an original review that offers readers the inside scoop on each business. Also included is an emergency directory that's essential for middle-of-the-night ailments, a dog rescue directory, puppy starter kit, and lost dog help. The listings are arranged in an easy thumb-through layout and the book is perfectly sized to fit in a pocketbook or glove box.

Charismatic dog trainer Doggy Dan shares his insights and tips into how working with dogs has helped him bring up his children. Learn how to lead the way in your family without using fear or aggression. Find out how to be clear and calm, firm and yet fair in all your dealings with others. Learn how to be confident and sensitive to those around you, and how to make decisions for the good of everyone. As Dan says, this book is not rocket science, it's a very practical and straightforward book with clear examples and lots of anecdotes that will change the way you think about your interactions with your children and, in fact, any other people. This book will change your life forever.

Help! He's herding the neighborhood kids!!

Herding breed dogs such as Border Collies, Corgis, and Australian Shepherds have incredibly strong instinctive behaviors to do the work they were bred for—controlling various kinds of livestock. These behaviors manifest themselves in modern herding breed dogs kept as companions or family pets in a number of ways. These include chasing cars and bicyclists, herding kids, nipping at vulnerable heels, barking incessantly, and acting as the "fun police" in dog parks. All behaviors that are entirely appropriate and necessary when dealing with sheep or cattle, not so great in a suburban neighborhood. Fortunately, these instincts can be redirected in a number of ways that keep these energetic dogs busy and happy as well as out of trouble. That is why so many of these dogs can be taught to excel in agility and obedience trials, love to retrieve, and make great running companions. In her latest book, author Dawn Antoniak-Mitchell offers solutions to solving and preventing problem behaviors associated with herding breeds living in the modern world. And no, even though your Border Collie or Corgi might love it, you don't need to buy a farm!

As the owner of two obsessive but outstanding herding dogs, I found myself nodding along in agreement with this book from start to finish. Dawn offers tips to allow a handler to work with, rather than against a dog's herding instincts and her easy-to-read writing style and the depth of information she shares makes this book a must read for anyone who works or lives with herding dogs.

Nicole Larocco-Skeehan, CPDT-KA and member of the Board of Directors, CCPDT

A super resource that explains how instinctive behaviors impact dogs in their every day activities. I especially like the training tips—very clear and helpful explanations to manage problems often brought out by a variety of herding instincts.

Lynn Leach, owner of Downriver Stock Dog Training and creator of the popular *All Breed Herding* DVD series

A wonderful mix of training information, management suggestions, psychology, and commonsense advice for herding dog owners. Easy to read and filled with gems of information for all dog owners—like eliminating annoying barking! I highly recommend this book for trainers and owners of any breed of dog.

Gail Tamases Fisher, CDBC and author of *The Thinking Dog*

If you have chosen to bring a herding breed in to your life and home this is the book for you! Dawn takes the reader through the history of herding breeds in order to help you understand the why behind some of the obsessive-compulsive behaviors your herding breed may be exhibiting. Better yet, Dawn then offers up specific exercises and training techniques to help herding breed owners become as valuable as livestock in the eyes of their herding dog. You owe it to your herding breed to read this book!

Gerianne Darnell, author of *Canine Crosstraining: Achieving Excellence in Multiple Dog Sports*

Dawn Antoniak-Mitchell is the author of *Terrier-Centric Training*, and *From Birdbrained to Brilliant*. She is the owner of *BonaFide Dog Academy* in Omaha, Nebraska.

Jake is off to daycare, but he's worried about what's in store. Going somewhere new can be scary--trying something different, even more. How will he get ready, and what will help him through? What will bring him comfort and help prepare him for something new? Follow Jake, a sweet, kind, and misunderstood dog as he travels away from home for the first time. Jake loves his comfy bed, close friends, and favorite trail, but now he's off to Doggy Daycare for the first time. He's worried others won't like him and run away, and he doesn't want to leave the place he knows best. His best friend Neet is

there to help him, along with a surprise from his family, but will Jake overcome his worries and have fun? And is he the only one nervous about being in a new place? Kindness, comfort, and aid from loved ones fill this tale with love and compassion. Looking for Books about New Experiences and Managing Stress for Kids? Jake the Growling Dog is a fun-loving tale about new adventures, friendship, handling stress, and overcoming fear. Author and licensed educational counselor, Samantha Shannon, brings Jake back for this second tale about a dog who is different from other dogs and critters. After making some new friends at home in his first book when others began to see him as the sweet and kind dog he is despite his growly voice, now Jake's family takes him somewhere new. We've all been nervous at one time or another about a new experience, and Jake's tale not only shows kids that they aren't alone in having those butterflies in their tummy it also gives them gentle ideas on how to handle those worries and fears while having a blast with their favorite growly character and his furry friend. Includes Conversation Starters and Activities for Children, Families, Schools, and Counselors to help with confidence, stress, and preparing for new experiences. This story is packed with loads of fun, while also educating our little ones that they can overcome fears and cope with stress in a variety of ways. Along with Jake's story, this picture book also includes talking points about why trying new things is important, what stress is and how it makes us feel, ways to cope with nerves and worries, a child-friendly discussion prompt about mindfulness, and a breathing activity. These activities are perfect for families, schools, and counselors to help children reduce stress and bring families and friends closer together by encouraging healthy coping skills, imagination, and understanding of both the mind and body. A Positive Story to Promote Self-Confidence and Empathy Jake's story encourages children to not only try new things for themselves, but to also be kind to others who may be nervous as well. Knowing they aren't alone and that others may need support, encouragement, or a little kindness as well will help create a kinder world, to appreciate differences, and to find connections. These topics are discussed in subtle, sweet, and impactful ways for both young readers and the supportive adults in their lives. Ages and Grades While many kids in grades K-5 (ages 6-11) will be able to read this story on their own or with assistance, parents and grandparents will enjoy reading the story to baby, making it the perfect baby shower gift. Older children and pre-teens to adults will also appreciate the illustrations, story, discussion topics, and activities to do as a family or in schools and counseling offices. Got a pet sitting, dog walking or dog training business? 20 experts share their secrets for pet business (and life) success. Each chapter is filled with tips and tools to run your pet business effectively. Kristin Morrison interviewed pet business and mind/body/spirit experts about the most important topics for new and experienced pet business owners. In the

interviews, the experts held nothing back - each interview uncovered insights that can help your pet business become more profitable, enjoyable, and rewarding.

All kinds of dogs have a number of hard-wired traits bred into them. Hounds love to follow their noses, Retrievers love to fetch and Herding dogs love to herd. With few exceptions, these are pretty harmless activities and don't stand in the way of training. Terriers, however, were bred to hunt and kill vermin independently, digging underground and barking excitedly, almost impervious to pain. Let's see...just a few challenges to overcome in training: strong prey drive, independence, feistiness, digging, barking, the list goes on. In Terrier-Centric Dog Training, author Dawn Antoniak-Mitchell takes up the challenge to help terrier owners train their dogs by making sure they understand the instincts bred into terriers and what the most effective training and management techniques are to use when working with a "natural born killer." You can train your terrier, but just don't let him loose off-leash in a park full of squirrels!

Landscape and Race in the United States is the definitive volume on racialized landscapes in the United States. Edited by Richard Schein, each essay is grounded in a particular location but all of the essays are informed by the theoretical vision that the cultural landscapes of America are infused with race and America's racial divide. While featuring the black/white divide, the book also investigates other social landscapes including Chinatowns, Latino landscapes in the Southwest and white suburban landscapes. The essays are accessible and readable providing historical and contemporary coverage.

Presents a reference for owners of aging dogs that shares comprehensive recommendations for providing the best possible care, offering information on nutrition, cognitive decline, and coping with loss.

Starting a Successful Pet Hotel Business Do you love animals? Are you looking for a career that is recession-proof and always in demand? Would you like to be your own boss? You should start a pet hotel business! I have been in the pet care industry for over a decade. I first started working as a receptionist in my uncle's veterinary clinic at age 18. I had owned dogs and cats in my childhood but never thought about making it a career. When I was thinking about college, I realized that becoming a vet technician was a viable option. When my uncle retired and sold his practice, I worked with the new vet as a tech for a few years. We found ourselves with frequent requests to board animals for the short-term. Usually, these requests came from pet owners who were our usual vet clients going out of town for a few days at a time. We took these dogs and cats in for mostly weekends and holidays. I realized that in my area, the need for quality pet boarding was essential. I started my own pet boarding business out of an old daycare building. The daycare had been closed down for a while, but it had easily convertible facilities for pet boarding. The building had a nearly commercial-sized kitchen and 4 different classrooms, each with its own attached bathroom. It also had a large fenced-in yard which used to have playground equipment and big indoor community space, presumably for assemblies or indoor playtime. A building originally built to house children during the day was easily converted to a building intended to house cats and dogs. My pet boarding business was born on a shoestring budget. In this book, I will show you how to start your own pet hotel from the ground up. This book comes from my personal experiences combined with research that I conducted while starting out years ago. I will show you everything I learned about how to start a dog or cat boarding kennel business (or doggy daycare) so that you can start your business on the right foot. You will learn: What a Typical Day at a Pet Boarding Hotel is Like What Potential Profit this Business Can Bring Why Choosing the Right Location is Important What You Can Expect Your Initial Investment to Be Deciding if This is Right for You What Skills, Experience, and Knowledge is Needed What to Consider Before Starting How to Spot Industry Trends Crafting a Business Plan Advice for Naming Your Business Consider the Owner's Name Advice for Finding Financing Advice on How to Form a Legal Entity What Permits and Licenses You Will Need Insurance Concerns Construction Concerns (for New Builds or Remodels) How to Determine Costs and Pricing Advice for Amenities to Offer Designs for Cat Boarding Helpful Software for Client and Pet Management Marketing Your Business Building an Online Presence How to Use Your Website for Marketing How to Use Facebook for Marketing How to Use Retention Marketing to Keep Clients Daily Operational Considerations Hiring Your First Employee Retaining Good Employees Effective Daily Management Techniques You will learn about all this and more! When Alison Lanier pet-sat for a client several years ago, an accident occurred abroad, and a pet parent never returned

home from her vacation. After witnessing the aftermath of that accident, Alison began wondering who would take care of her six dogs in the event of unexpected disability, illness, or death. She wrote Love in a PetBook to answer that question and to give peace of mind to pet parents everywhere. Besides addressing the ways that our own mortality relates to the ongoing care of our pets, this PetBook also helps you compile everything that a dog walker, house sitter, groomer, doggie daycare facility, pet foster caregiver, and animal shelter needs to know about your beloved pet. This book honors pets and the people who love them. Love in a PetBook is for every household that considers their pet family.
