Many established churches are facing a number of challenges in today's increasingly secular culture. Such a shift in many communities creates a challenge of church growth and church health when it seems that satisfying the needs of one group creates barriers to reaching another group. So many are asking, "How do you keep people over sixty years of age, who often hold church culture values-while at the same time reach people under forty, who often hold postmodern values?" If a church is interested in growing, this situation becomes a major challenge. Reaching People under 40 while Keeping People over 60 looks at the church as it seeks to function in a new world. It looks at the differences in the generations and at postmodernism - not just a generational difference but a global change. Most importantly, Reaching People under 40 while Keeping People over 60 looks at what a church can do in this new age to help the church survive - and thrive! Foreword by Bill Easum. A TCP Leadership Series title.

Creeds, candles, silence, and ancient spiritual practices are gaining understanding and popularity among young people. Youth are realizing that there are treasures in tradition. As Morning Breaks and Evening Sets is a tool for unearthing, dusting off, and tapping into these treasures. As Morning Breaks and Evening Sets provides an introduction to the biblical form of prayer known as the Liturgy of the Hours--a rich and time-tested way for Christians to pray with the whole community of faith and out of the source of its hope, the inspired Scriptures. This type of prayer immerses believers in the poetic word of God found in the psalms, scriptural canticles, and scriptural readings. As Morning Breaks and Evening Sets contains fifteen prayer experiences designed to put the hearts and minds of adolescents in touch with the sacred. This is a book of simple yet profound prayer experiences that speak to the everyday experiences of young people. In this book young people experience the venerable practice of using the Scriptures to offer praise, thanksgiving, and intercession.

Revised anniversary edition: When St. Benedict formed his first small community of monks at Monte Cassino on the hilltop, Italy--and much of Europe--was ravaged by war. The Roman Empire was breaking apart, and politics, cultural life, and even the Church, were all in disarray. In the midst of these tumultuous times, Benedict offered his followers a “little rule,” a guide about the size of a checkbook, that showed his monks the way to peace as they learned to prefer Christ above all things. Though it was written nearly 1500 years ago, the Rule of Benedict still offers the practical tools for living a Christ-centered today. Here in St. Benedict's Toolbox, readers will find a primer on how to use these tools in their own tumultuous lives. Each chapter examines one aspect of the Rule, from ways of praying to ways of embracing humility, and offers suggestions for prayer, reflection, journaling, and action. As they learn to use Benedict's tools, readers will discover the power--and the timeliness--of this ancient way of life.

Turning Prayers into Protests is a comparative study of religious-based oppositional activity in Slovakia and East Germany prior to 1989. Religion was a central arena for culture, thought, and social organization in the societies that became communist after the Second World War. It was thus a primary concern for communist regimes. The author examines the various and divergent grass-roots activism of the secret Catholic Church in Slovakia and the Lutheran Church in East Germany that confronted state socialist rule and contributed to its eventual dismantling. He compares the two cases in terms of the political power, influence and affect that these Churches had in regard to state repression or cooptation, vividly demonstrating that religion could provide a space for independence beyond state control as well as a foundation for resistance.

How many times have you poured your heart and soul into something for your youth ministry—only to have it fall flat, leaving not much more than a fond memory in the minds of students, let alone amazing life-change in their hearts? You're not alone. Far too often, we build plans and programs and then stop to ask God to bless them. We all want a transformational student ministry, but we need to remember that God has to be the one doing the transformations in the lives of our students. Based on the principles found in the book of Acts, *Moving Forward by Looking Back* will help you look back at how God transformed lives through the early church, and look forward at how those principles can be applied to your youth ministry today. As you reflect on the book of Acts, you'll explore how your youth ministry can implement the principles of: • Adoration—engaging students with God • Community—engaging students with God's people • Truth—engaging students with God's Word • Service—engaging students with God's world With practical ideas that are easy to apply in any ministry context, whether you're a rookie or a veteran, a professional or a volunteer youth worker, this book is an invaluable resource for any youth ministry that wants to see its students transformed by God.

A Pattern of Prayer is a guide to prayer based on the daily, weekly, and occasional prayers of an intentional, ecumenical, Christian community called Grace and Main Fellowship in Danville, Virginia. It's designed to cultivate a rhythm to the life of prayer either in groups or by individuals. Providing a structure for morning, midday, evening, and night prayer, it is an excellent devotional aid that also allows the reader, or readers, to pray along with others wherever they may be. Also included are some of the prayers and blessings used in the work of the community, as well as the community's "identity statements" or "little rule." To make use of the prayerbook, all you'll need, in addition to the book, is a Bible.

The Yoruba of southwestern Nigeria are exceptional for the copresence among them of three religious traditions: Islam, Christianity, and the indigenous orisa religion. In this comparative study, at once historical and anthropological, Peel explores the intertwined character of the three religions and the dense imbrication of religion in all aspects of Yoruba history up to the present. For over 400 years, the Yoruba have straddled two geocultural spheres: one reaching north over the Sahara to the world of Islam, the other linking them to the Euro-American world via the Atlantic. These two external spheres were the source of contrasting cultural influences, notably those emanating from the world religions. However, the Yoruba not only imported Islam and Christianity but also exported their own orisa religion to the New World. Before the voluntary modern diaspora that has brought many Yoruba to Europe and the Americas, tens of thousands were sold as slaves in the New World, bringing with them the worship of the orisa. Peel offers deep insight into important contemporary themes such as religious conversion, new religious movements, relations between world religions, the conditions of religious violence, the transnational flows of contemporary religion, and the interplay between tradition and the demands of an ever-changing present. In the process, he makes a major theoretical contribution to the anthropology of world religions.

This volume is a collection of anecdotes from a PK (Preacher's Kid).

This book traces the author's journey of ascension through the seven levels of initiation, through the process of anchoring and activating his fifty chakras, expanding to a 99-percent light quotient, then on to anchoring and fully activating all twelve bodies, which include the five higher bodies. Exactly how this is done is shared, and in-depth information is given on the workings of the inner-plane ashram under the guidance of Djwhal Khul, Lord Maitreya and Lord Melchizedek. You are invited to journey with him as he unfolds the process of his initiations, beginning at the sixth, moving through the equivalent of the tenth initiation and into the beginning of the eleventh. Written as a personal log, this book shares, in an open and candid manner, dreams, meditations, conversations with the masters, spiritual background, thoughts and reflections and actual ascension experiences.

Broadcasting the Faith tells the riveting story of the American church's embrace of radio in the early decades of the twentieth century. By investigating major radio personalities like Walter Maier, Aimee Semple McPherson, Harry Emerson Fosdick, and Charles Fuller, this study considers the implications for theology in America when Christianity moved to the airwaves. In the heyday of radio, religious-radio preachers sought to use their programs to counter the secularization of American culture. Ultimately, however, their programs contributed to secularization by accelerating changes already evident in both the conservative and liberal streams of American Christianity. To reach a vast American audience, radio preachers transformed their sectarian messages into a religion more suitable to the masses, thereby altering the very religion it aimed to preserve. To make religion accessible to large and diverse audiences, radio preachers accommodated their messages in ways suited to the medium of radio. Although religious-radio preachers set forth to advance the influence of religion in American society, their choice to limit theological substance ironically promoted the secularization of the American church.

This book explores the interrelation of literacy and religion as practiced by Western Christians in, first, historical contexts and, second, in one contemporary church setting. Using both a case study and a Foucauldian theoretical framework, the book provides a sustained analysis of the reciprocal discursive construction of literacy, religiosity and identity in one Seventh-day Adventist Church community of Northern Australia. Critical linguistic and discourse analytic theory is used to disclose processes of theological (church), familial (home) and educational (school) normalisation of community members into regulated ways of hearing and speaking, reading and writing, being and believing. Detailed analyses of spoken and written texts taken from institutional and local community settings show how textual religion
