U.S. history is increasingly perceived, interpreted, and taught as part of a global historical experience. The mutual influence of change - of global forces entering the United States and of American ideas, goods, and people moving out through the world - has been a consistent feature since the 16th century. Although most Americans today are aware that their influence is felt abroad and are increasingly aware of the influence of events abroad on their own lives, they tend to think of these as recent developments. In fact, those earliest exchanges of beliefs and products some 500 years ago established a pattern of interaction that continues today. *American Horizons* tells the story of the United States by exploring this exchange on a global scale and placing it at the center of that story. By doing so, the authors provide a different perspective on the history of the United States, one that they hope broadens the horizons of those who read their work and are ever mindful of the global forces that increasingly and profoundly shape their lives. At the same time,

# Download Ebook American Horizons U S History In A Global Context

American Horizons considers those ways in which U.S. influence reshaped their lives and experiences of people of other nations. American Horizons presents an opportunity to view the nation's history as more than a mere sequence of events for students to memorize. Although adhering to the familiar chronological organization of the U.S. History course, their narrative style and structure provide the flexibility of shifting emphasis from time to time to the global aspects of American history. Although the story of the United States is always at the center, that story is told through the movement of people, goods, and ideas into, within, or out of the United States.

provides a diverse set of documents that situate U.S. History within a global context. Covering political, social, and cultural history, the nearly 200 selections--including many visual documents--will spark discussion in the classroom and give students a deeper understanding of America's history.

Reading American Horizons includes solid pedagogy to make the documents more accessible to students. American Horizons, Second Edition, is the only U.S. History survey text that presents the traditional narrative in a global context. The authors use the frequent movement of people, goods, and ideas into, out of, and within America's borders as a framework. This unique approach provides a fully integrated global perspective that seamlessly contextualizes American events within the wider world. The authors, all acclaimed scholars in their specialties, use their individual strengths to provide students with a balanced and inclusive account of U.S. history.

Presented in two volumes for maximum flexibility, American Horizons, Second Edition, illustrates the relevance of U.S. history to American students by centering on the matrix of issues that dominate their lives. These touchstone themes include population movements and growth, the evolving definition of citizenship, cultural change and continuity, people's relationship to and impact upon the environment, political and ideological contests and their consequences, and Americans' five centuries of

engagement with regional, national, and global institutions, forces, and events. In addition, this beautifully designed, full-color book features hundreds of photos and images and more than 100 maps.

A Companion to Ronald Reagan evaluates in unprecedented detail the events, policies, politics, and people of Reagan's administration. It assesses the scope and influence of his various careers within the context of the times, providing wide-ranging coverage of his administration, and his legacy.

Assesses Reagan and his impact on the development of the United States based on new documentary evidence and engagement with the most recent secondary literature Offers a mix of historiographic chapters devoted to foreign and domestic policy, with topics integrated thematically and chronologically Includes a section on key figures associated politically and personally with Reagan

American Horizons U.s. History in a Global Context: to 1877 Oxford University Press, USA

"A higher education primary source book to accompany American Horizons: U.S. History in a Global Context, fourth edition."--

Starkey's devil in Massachusetts and the Post-World War II consensus -- Boyer and Nissenbaum's Salem possessed and the anti-capitalist critique -- An aside: investigations into the practice of actual witchcraft in seventeenth-century New England -- Demos's entertaining satan and the functionalist perspective -- Karlsen's devil in the shape of a woman and feminist interpretations -- Norton's in the devil's snare and racial approaches, I -- Norton's in the devil's snare and racial approaches, II

Now fully revised and updated, The United States and China offers a comprehensive synthesis of US-Chinese relations from initial contact to the present. Balancing the modern (1784–1949) and contemporary (1949–present) periods, Dong Wang retraces centuries of interaction between two of the world’s great powers from the perspective of both sides. She examines state-to-state diplomacy, as well as economic, social, military, religious, and cultural interplay within varying national and international contexts. As China itself continues to grow in global importance, so too does the US-Chinese relationship, and this book provides an essential grounding for understanding its past, present, and possible futures. First published ten years ago, award-winning historian Ray Raphael’s *Founding Myths* has since established itself as a

Offers an Asian immigrant perspective on US racial relations and explores the unique situations and challenges facing Asian immigrants in the United States. A Postcolonial Relationship critically examines the problems of current US racial relations from an Asian immigrant perspective and provides a new understanding of the complications that Asian immigrant groups experience as the "third other." Choi Hee An dismantles black/white and native/alien binary concepts from an Asian immigrant perspective and explores the deeper understandings of postcolonial relationships that Asian immigrants face. By deconstructing black/white, native/alien, and host/guest binary divides, this book addresses the current structures of sociohistorical binary paradigms, investigates the unique challenges of Asian immigrant positions, analyzes the reality of their third otherness, and explores the possibilities of transforming binary relationships into postcolonial relationships based on ethical and theological religious traditions and practices in Asian immigrant contexts. Choi Hee An is Clinical Associate Professor of Practical Theology and
