

American Pageant 13th Edition Multiple Choice Questions

On May 25, 2012, President Obama announced that the United States would spend the next thirteen years – through November 11, 2025 – commemorating the 50th Anniversary of the Vietnam War, and the American soldiers, “more than 58,000 patriots,” who died in Vietnam. The fact that at least 2.1 million Vietnamese – soldiers, parents, grandparents, children – also died in that war will be largely unknown and entirely uncommemorated. And U.S. history barely stops to record the millions of Vietnamese who lived on after being displaced, tortured, maimed, raped, or born with birth defects, the result of devastating chemicals wreaked on the land by the U.S. military. The reason for this appalling disconnect of consciousness lies in an unremitting public relations campaign waged by top American politicians, military leaders, business people, and scholars who have spent the last sixty years justifying the U.S. presence in Vietnam. It is a campaign of patriotic conceit superbly chronicled by John Marciano in *The American War in Vietnam: Crime or Commemoration?*. A devastating follow-up to Marciano’s 1979 classic *Teaching the Vietnam War* (written with William L. Griffen), Marciano’s book seeks not to commemorate the Vietnam War, but to stop the ongoing U.S. war on actual history. Marciano reveals the grandiose flag-waving that stems from the “Noble Cause principle,” the notion that America is “chosen by God” to bring democracy to the world. Marciano writes of the Noble Cause being invoked unsparingly by presidents – from Jimmy Carter, in his observation that, regarding Vietnam, “the destruction was mutual,” to Barack Obama, who continues the flow of romantic media propaganda: “The United States of America ... will remain the greatest force for freedom the world has ever known.” The result is critical writing and teaching at its best. This book will find a home in classrooms where teachers seek to do more than repeat the trite glorifications of U.S. empire. It will provide students everywhere with insights that can prepare them to change the world.

The Theater of Trauma is a groundbreaking rereading of the relations between psychology and drama in the age of Eugene O’Neill, Susan Glaspell, and their many brilliant contemporaries. American modernist Theater of Trauma drew its vision from the psychological investigation of trauma and its consequences - among them hysteria and dissociation - made by French and American psychiatrists such as the great Pierre Janet, Alfred Binet, William James, Morton Prince, and W.E.B. Du Bois; the European and American «dissociationist culture» that developed around their work; and the resulting trauma of World War I. American dramatists’ deep resistance to Freud’s suppression of trauma challenges the equation of Freud and modernism that has become commonplace in modernist criticism.

Revelation is a strange and puzzling book. Apart from the few who are endlessly fascinated by it, most of us are unsure what to do with it. And since it seems so different from the rest of the New Testament, perhaps the safest policy is to ignore it. But what if that meant losing something really important? What if *Revelation* turned out to be a powerful and gripping presentation of the same momentous news we find throughout the New Testament? If so, bypassing it will mean that our devotion and discipleship will fail to be as deep and robust as they should be. A gospel pageant? If that is what *Revelation* brings us, perhaps it is time to read it again!

Timed with the centennial of the Panama-Pacific International Exposition (PPIE) of 1915, Jewel City presents a large and representative selection of artworks from the fair, emphasizing the variety of paintings, sculptures, photographs, and prints that greeted attendees. It is unique in its focus on the works of art that were scattered among the venues of the exposition—the most comprehensive art exhibition ever shown on the West Coast. Notably, the PPIE included the first American presentations of Italian Futurism, Austrian Expressionism, and Hungarian avant-garde painting, and there were also major displays of paintings by prominent Americans, especially those working in the Impressionist style. This lavishly illustrated catalogue features works by masters such as Winslow Homer, John Singer Sargent, Claude Monet, Paul Cézanne, Robert Henri, Edward Weston, Imogen Cunningham, Edvard Munch, Oskar Kokoschka, Umberto Boccioni, and many more. The volume also explores the PPIE's distinctive murals program, developments in the art of printmaking, and the legacy of the French Pavilion, which hosted an abundance of works by Auguste Rodin and inspired the founding and architecture of the Legion of Honor museum in San Francisco. A rich and fascinating study of a critical moment in American and European art history, Jewel City is indispensable for understanding both the United States' and California's role in the reception of modernism as well as the region's historical place on the international art stage. Published in association with the Fine Arts Museums of San Francisco. Exhibition dates: de Young Museum, San Francisco: October 17, 2015–January 10, 2016

With the economy struggling, there has been much discussion about the effects of deindustrialization on American manufacturing. While the steel and auto industries have taken up most of the spotlight, the textile and apparel industries have been profoundly affected. In *Empty Mills*, Timothy Minchin provides the first book length study of how both industries have suffered since WWII and the unwavering efforts of industry supporters to prevent that decline. In 1985, the textile industry accounted for one in eight manufacturing jobs, and unlike the steel and auto industries, more than fifty percent of the workforce was women or minorities. In the last four decades over two million jobs have been lost in the textile and apparel industries alone as more and more of the manufacturing moves overseas. Impeccably well researched, providing information on both the history and current trends, *Empty Mills* will be of importance to anyone interested in economics, labor, the social historical, as well as the economic significance of the decline of one of America's biggest industries.

As of 2012, only 43 men have held the office of the President of the United States. Some have been sanctified and some reviled. This historical work addresses the careers of the first ten presidents, men who made vital contributions not only to the office of the presidency, but to the course of the fledgling nation. From Washington through Tyler, every term is recounted in detail and each presidential profile provides as many as a hundred quotations (with full source notes) by the president, his friends, family, historians, and others. Each profile ends with an extensive bibliography of books about the president, his principles and policies, and also provides suggestion for further reading. Rigorously nonpartisan in approach, this detail-rich text describes the early years of what may well be one of the most demanding jobs in the world. You may not think that a history book could make you laugh, but *THE AMERICAN PAGEANT* just might. It's known for being one of the most popular, effective and entertaining texts on American history. Colorful anecdotes, first-person quotations and the authors' trademark wit bring history to life. Learning aids make the book as accessible as it is enjoyable: part openers and chapter-ending chronologies provide a context for the major periods in American history, while primary sources and introductions to key historical figures give you a front row seat to the nation's past. This collection of new essays explores the role played by women practitioners in the arts during the period often referred to as the Belle Epoque, a turn of the century period in which the modern media (audio and film recording, broadcasting, etc.) began to become a reality. Exploring the careers and creative lives of both the famous (Sarah Bernhardt) and the less so (Pauline Townsend) across a remarkable range of artistic activity from composition through oratory to fine art and film directing, these essays attempt to reveal, in some cases for the first time, women's true impact on the arts at the turn of the 19th century.
