Thousands of students have turned to veteran teacher Charles Lipson for no-nonsense advice on how to cite sources properly—and avoid plagiarism—when writing their research papers. This new edition of Cite Right, the popular overview of all major systems of citation, has been updated to reflect the most current versions of Chicago, MLA, APA, and other styles, and to discuss citation methods in the rapidly changing context of the Internet, digital publishing, and e-books. Best of all, it's very easy to use. Lipson first explains why it is so important to use citations—and to present them accurately—in research writing. He then outlines the main citation styles students and researchers are likely to encounter in their academic work: Chicago; MLA; APA; AAA (anthropology and ethnography); CSE (biological sciences); AMA (medical sciences); ACS (chemistry); physics, astrophysics, and astronomy; and mathematics, computer science, and engineering. New sections have
