

Antes De Decir Si

A handbook for couples who are contemplating marriage. What you need to know before you commit your life to someone else.

During this time span, Krishnamurti gave talks in England and India. In this volume, Krishnamurti introduces the material as a form of a discussion. He asks those listening to engage in the material along with him. "What I propose to do during these discussions is to think outwith each one of you this extraordinarily complex problem of living. You know this problem is not confined to a narrow area. All over the world it is the same. We are confused; we do not know what to do; and we do not know how to set about it or to discover why each group is fighting the other."

Antes de Decir "S-": Before You Say "I Do!"

The Perfect Remedy for Cold Feet! More than half of all couples who become engaged this year will never make it to the altar. Why? Leading experts believe it's because couples fail to really get to know their potential mate before getting engaged.

Relationship expert and noted couples counselor Norm Wright steers potential brides and grooms through a series of soul-searching questions to discern if they've really met "the One." Couples will be much more confident about whether or not to pursue marriage after completing these in-depth and personal questions. Norm also addresses the delicate subject of calling off the wedding if readers discover that a potential mate

isn't actually meant to be a life partner.

In this new edition, completely updated for DSM-IV-TR, the authors transform their professional experience into clear, concise, practical, and learnable skills. They teach how to master each of the four basic interview components separately, and how to make them interact optimally during the five phases of the patient interview. Also included is an example of a write-up of a psychiatric evaluation that will satisfy most third-party payers, taking the reader through the write-up step by step and showing how it can be adapted to virtually any procedural or research need. Changes to this edition:

- Addition of discussion of violence and duty to warn
- Expansion of attention problems, suicide intent, and comorbidities of personality disorders
- Addition of formal assessments of executive functions and of dementia (in appendix)

As with the previous edition, *The Clinical Interview Using DSM-IV-TR* presents a unique vision of how to use the most powerful assessment strategies developed in the field of clinical psychology and psychiatry.

This primer on biblical criticism and key problems in religion and philosophy is intended as an introduction to these complex subjects for Spanish-speaking laypersons with little or no prior scientific training in the area. Professor Avalos critically reviews the classic arguments for the existence of God, alleged miracles and faith-healing, the belief that the Bible is the inerrant word of God, problems of good and evil in the Bible, creation stories, biblical prophecy, the resurrection of Jesus, and many other topics. In the last part of the book, Avalos discusses the scientific worldview, especially as it impinges upon the question of the existence of God. A

notes section allows readers to explore more deeply the areas touched on in the text; appendices provide information on the sources of many biblical stories and beliefs in Mesopotamian and other ancient Near Eastern cultures; and a final personal note briefly recounts the author's experiences from his upbringing in fundamentalist Christianity to his current skeptical view. This informative volume is an excellent starting point for those who wish to explore with a minimum of resources basic questions in religion, philosophy, and biblical studies. Hector Avalos (Ames, IA) is associate professor of Religious Studies at Iowa State University, the author of four books on biblical studies and religion, the former editor of the *Journal for the Critical Study of Religion*, and executive director of the Committee for the Scientific Examination of Religion.

A los 14 años, con la lectura de Análisis profano de Freud, se produce un quiebre en la vida de María Esther Gilio: “Después de haber pasado mi primera infancia diciendo ‘quiero ser médica de locos’, después de ver un film de Claudette Colbert en que ésta, con todo su encanto francés, convertía a locos furiosos en santos de estampita, quise ser psicoanalista”. Este es el testimonio de alguien que sospecha que hablar de uno mismo en el pasado es como hablar de otra persona, y que el presente surge permanentemente como un espejo que no siempre queremos enfrentar de manera directa (“Llegamos a hoy. Y yo no quiero escribir sobre mí misma”). Como si la conversación con quienes compartimos preciados intereses mostrara nuestra identidad más genuina, la autora –abogada, escritora, biógrafa y periodista– nos habla de experiencias de vida a través de una serie de entrevistas. Aparecen aquí algunos de los más importantes y prestigiosos psicoanalistas contemporáneos: Jean Laplanche, Jacques Alain Miller, Emilio Rodríguez, Elisabeth Roudinesco, Benzión Winograd,

Silvia Bleichmar, Janine Altounian, Lito Benvenuti, Mordechai Benyakar, César Botella, Françoise Davoine, Jean-Max Gaudilliere, Daniel Gil, Max Hernández, Philippe Jeammet, François Marty, Paul Roazen y Teresa Yuan. De manera paulatina, el lector encontrará en estas páginas una impresión de coherencia ética y profesional en el tratamiento de temas que le dan sentido a aquel primer deseo, y que revelan que “nuestras decisiones siempre están estrechamente unidas a lo que imaginamos”.

comunicación actuales permiten la transmisión potencial de cualquier cosa desde Pekin, Illinois a Pekín, China. Pero no sólo los fanáticos de Twitter pueden tener este problema. Cada uno de nosotros es capaz de caer presa de esta creciente plaga. Tenemos el potencial de cometer errores al hablar y al escribir. Es el mismo caso si hablamos con un extraño en la carnicería, o por teléfono con nuestra madre, o si enviamos un correo electrónico a un colega; podemos tener y en efecto tenemos problemas de comunicación y las personas podrían percibir una idea errónea. Cuando no pausamos lo suficiente para pensar antes de hablar o escribir, a menudo se produce un malentendido y causa una discusión. Terminamos siendo la persona que dice, «¿Conoce esa parte del cerebro que nos impide decir algo que no debemos? Bien, yo no la tengo». Este libro trata de evitar los malos entendidos y facilitar la comprensión en la comunicación. Dicho de otra manera, trata de anticiparse a que las personas reciban la idea equivocada y les permita obtener la idea correcta! Todos necesitamos trabajar en esta área de forma más intencional. Partiendo de ejemplos externos a conflictos internos, este libro trata las cuatro cosas que debemos pensar antes de comunicar. Es sabio hacernos las siguiente preguntas antes de decir o escribir: • ¿Es verdad? • ¿Es cordial? • ¿Es necesario? • ¿Es claro? Cuando respondemos honestamente a estas cuatro preguntas, pensamos sabiamente antes de hablar. Pero para una exploración más profunda, necesitamos conocer más acerca de nosotros mismos y descubrir por qué consciente y subconscientemente caemos en estos problemas de comunicación en un inicio. Puede que nos sorprenda lo que descubramos sobre nosotros mismos. ¿Comenzamos?

This collection offers a critical assessment of transcendentalism, the understanding of consciousness, absolutized as a system of a priori laws of the mind, that was advanced by Kant and Husserl. As these studies show, transcendentalism critically informed 20th Century phenomenological investigation into such issues as temporality, historicity, imagination, objectivity and subjectivity, freedom, ethical judgment, work, praxis. Advances in science have now provoked a questioning of the absolute prerogatives of consciousness. Transcendentalism is challenged by empirical reductionism. And recognition of the role the celestial sphere plays in life on planet earth suggests that a radical shift of philosophy's center of gravity be made away from absolute consciousness and toward the transcendental forces at play in the architectonics of the cosmos. Inmerso en los intrincados laberintos de la moral humana, la tica, la justicia, el conocimiento científico y el uso de los mismos con propósitos ulteriores, el autor nos adentra en un mundo cuasi mágico en el que nuestros sentidos nos dictan el desenlace del crimen cometido. Cada lector tendrá la oportunidad de sentir a flor de piel cada instancia de los acontecimientos en la vida de los personajes que el autor retrata con sus letras. Un grupo de jóvenes estudiantes adolescentes cuyos talentos se combinan, creando un círculo de hermandad y un código secreto el cual unir sus vidas y cambiar el curso de los para siempre. Ese hermetismo y complicidad, con el tiempo logra transformar ese código en el instrumento y causal de un crudo y escalofriante crimen. Sigfredo Soto nos plantea la distorsión que pueden sufrir nuestras estructuras sociales, morales, ticas, religiosas y de justicia cuando son arrojadas por el deseo de poder, venganza y ambición.

Right thinking comes with self knowledge. Without understanding yourself, you have no basis for thought; without self-knowledge what you think is not true."
