

Anti Gravity Handbook Revised Third Edition

Hapgood utilizes ancient maps as concrete evidence of an advanced worldwide civilization existing many thousands of years before ancient Egypt. Hapgood concluded that these ancient mapmakers were in some ways much more advanced in mapmaking than any people prior to the 18th century. Hapgood believes that they mapped all the continents. This would mean that the Americas were mapped thousands of years before Columbus. Antarctica would have been mapped when its coasts were free of ice. Hapgood supposes that there is evidence that these people must have lived when the Ice Age had not yet ended in the Northern Hemisphere and when Alaska was still connected with Siberia by the Pleistocene, Ice Age 'land bridge'.

The Secret of the Ninth Planet (Chinese edition)

The mysterious Unipolar Dynamo, so simple that even the earth's core has one, so powerful that it forges metal alloy billets and launches a rail gun! This handbook has all the history, operating principles, practical construction details, and pictures of Faraday disk/unipolar/homopolar generators. Investigating the Paulsen UFO story and the DePalma claims of overunity, the author began an earnest scientific endeavour in 1980 to build and test a homopolar generators (HPG) for the elusive 'back torque' which had never been measured before in a one-piece HPG. This project helped to complete his Master's Degree in Physics at SUNY Buffalo. What does the torque push against when the magnet spins with the disk? How can the back torque or armature reaction be diminished or counteracted? These and other burning questions are answered in the only book of its kind on the subject of homopolar generators.

This book introduces a brand new field of scientific research based upon analysis of artifacts retrieved from crashed and damaged UFOs that have come down in Russia and America. For the first time, it reveals the scientific principles behind UFO propulsion dynamics, and shows that these principles are known and recognized by today's physicists. Potter's analyses of these UFO mechanisms are substantiated with references to a broad array of over 300 research papers published in scientific journals! Potter correlates many of the phenomena observed firsthand by close encounter witnesses and abductees and pinpoints the common themes reported, categorizing them according to known physical principles. He produces a comprehensive orchestration of energy dynamics used inside and around UFOs. His precise and lavish illustrations allow the reader to enter directly into the realm of the advanced technological engineer and to understand, quite straightforwardly, the aliens' methods of energy manipulation: their methods of electrical power generation; how they purposely designed their craft to employ the kinds of energy dynamics that are exclusive to space (discoverable in our astrophysics) in order that their craft may generate both attractive and repulsive gravitational forces; their control over the mass-density matrix surrounding their craft enabling them to alter their physical dimensions and even manufacture their own frame of reference in respect to time. Includes a 16-page color insert.

Presents a new interpretation of how religion evolved in ancient Egypt, linking the teachings of Akhenaten and his connection to the Exodus to the "real" Moses and Judaism and to the Rosicrucians.

A comprehensive and in-depth look at the early 'flying saucer technology' of Nazi Germany and the genesis of early man-made UFOs. From captured German scientists, escaped battalions of German soldiers, secret communities in South America and Antarctica to today's state-of-the-art 'Dreamland' flying machines, the astonishing book blows the lid off the 'Government UFO Conspiracy'. Examined in detail are secret underground airfields and factories; German secret weapons; 'suction' aircraft; the origin of NASA; gyroscopic stabilisers and engines; the secret Marconi aircraft factory in South America, and other secret societies, both ancient and modern, that have kept this craft a secret, and much more.

Discusses the theories of time travel and teleportation and examines actual experiments, the claims of time-traveling individuals, and patents for time travel and teleportation devices

This book is a groundbreaking contribution to the study of the UFO enigma, originally published over 30 years ago. In this book, Sanderson, a renowned zoologist with a keen interest in the paranormal, puts forward the curious theory that "Other Intelligences-live under the Earth's oceans. This underwater, parallel, civilization may be twice as old as Homo sapiens, he proposes, and may have developed what we call space flight." Sanderson postulates that the OINTS are behind many UFO sightings as well as the mysterious disappearances of aircraft and ships in the Bermuda Triangle. What better place to have an impenetrable base than deep within the oceans of the planet? Yet, if UFOs, or at least some of them, are coming from beneath our oceans or lakes, does it necessarily mean that there is another civilization besides our own that is responsible? In fact, could it be that since WWII a number of underwater UFO bases have been constructed by the very human governments of our planet? Whatever their source, Sanderson offers here an exhaustive study of USOs (Unidentified Submarine Objects) observed in nearly every part of the world. He presents many well-documented and exciting case studies of these unusual sightings; more.

Evil has been discharged hither and thither, and as a result a war is being waged between the Light and the Dark. Powerful occult reptilian bloodlines have commandeered the corporate-mass-media and the military-industrial complex, the everyman no longer a free entity. Why these torturing gifts, and wherefore lent to the people? No reason except for the desire to dominate and suppress. It is an inkling the beasts of prey within man and reptile cannot control. Secret societies are the gatekeepers to a much greater secret that encompasses extraterrestrials and cultures spanning across dimensions. The labyrinth has already been entered - next stop, a closer inspection at money and the big business of Big Brother. Are there more cards up the magician's sleeve? Only one, and that is the possibility for enlightenment.

This classic book on the theory of a lost continent in the Pacific imparts the fascinating travel stories and theories of James Churchward.

What unknown hands carved these mysterious skulls perhaps over 12,000 years ago? Do they really have the power of

life and death? In 1927, while searching for the lost civilisation of Atlantis, archaeologists discovered in the ruins of a Mayan city a perfect replica of a human skull, exquisitely carved and polished from a single piece of quartz crystal. It is clearly the product of a sophisticated civilisation -- yet its age has been estimated at 12,000 years! A number of life-size crystal skulls are known to exist. Where did they come from? Observers have reported strange sounds, odours, and light effects emanating from crystal skulls. Crystal skulls are said to have caused violence, physical injury, and even death. Can it be that these uncanny objects are our link to mankind's dark, magical past? Are they messengers from another age -- or another world? A fascinating compendium of current information on crystal skulls by two authors with first hand knowledge.

Explored here is how gravity, electricity, and magnetism manifest from a unified field around us; why artificial gravity is possible; secrets of UFO propulsion; free energy; Nikola Tesla and anti gravity airships of the 20s and 30s; flying saucers as superconducting whirls of plasma; anti-mass generators; vortex propulsion; government cover-ups; gravitational pulse drive; spacecraft; and more.

In this guide to the Apocalypse, Kephas presents this unorthodox analysis of his investigations into occultism, UFOlogy, and paranoid awareness that pertains to the 21st century and the impending End of Days.

What spooked the Allies in the closing months of the war? Why they were in such a panic to win quickly? Because they knew the Nazis were developing supermetals, electric guns, lasers, and ray weapons. Here are official, previously-suppressed reports of cold bombs, the red mercury bomb, oxygen bombs, fuel-air bombs, atomic bombs and rumors of the mysterious molecular bomb. The SS black alchemists delivered large mystery rockets with technology far beyond the V-2. They also invented the computer, magnetic tape and computer programs, refined crude oil using sound waves or produced gasoline for 11 cents per gallon as well as the synthetic penicillin substitute, 3065. Includes German experiments in time, sustained fusion reactions, zero point energy and travel in deep space.

In 1976, Scottish engineer Stan Hall organised a landmark expedition to the caves of the Tayos Indians in Ecuador, involving a dozen institutions, joint Special Forces, and astronaut professor Neil Armstrong as Honorary President and participant. Hall was driven by curiosity about Erich von Daniken's report of a Metal Library allegedly found in the caves by investigator Juan Moricz in the mid-1960s (published in von Daniken's 1972 blockbuster *Gold of the Gods*). This idea was considered unorthodox in the absence of any ancient written script in South America. In Hall's odyssey into the heart of global enigmas he researches: the origins of mankind; Atlantis; Ptolemy's lost city of Cattigara; and, the sudden rise and fall of wonder civilisations. This journey ended with his identification of Atlantis and Cattigara, and the entrance to the Metal Library along the Pastaza River in Ecuador. Imagination, action and danger combine explosively in the story of this spectacular British-Ecuadorian expedition to the Tayos Caves of Ecuador.

Would you want to live in a factory-molded cube made of plastic, asbestos, and UFFI? With an "H-bomb shelter" and the nuclear furnace underneath? Or a house designed by God to harmonize with the cosmic Muzak? The Canadian Home explains how our housing came to be including the pagan origins of "colonial" homes, why "Tudor" is not Tudor, and where so many predictions went wrong. But the book is not just about tastes and floor plans; it also celebrates technological innovation, from prehistoric Inuit windows (of stretched seal guts) to the R-2000 house and habitation in space. For the first time, records of the Canadian Home Builders' Association have been opened to reveal the power plays of bureaucrats, developers, architects, and financiers and how they affect the quality, affordability, and choice of our housing today. Fiery debates over the sublime and the ridiculous (e.g. 1940s architectural articles on whether Toronto should be bombed) are set against the backdrop of Canadian politics and industrial history. Whether the reader's interest is in construction, politics, or home decor, this book explains why the roof over our heads is the way it is." Pierre Berton "In his fascinating study of Canadian shelter, Marc Denhez takes us on a 20,000-year journey from the days of the cave, the tipi, and the igloo, to the H-bomb shelter and the mobile home. This is, in short, a lively as well as an erudite study of the development of housing . [It] deserves a permanent position on any library shelf." "If you live in a house or own one or build one if you have a roof over your head read this book. A housing book with punch and humour immensely enjoyable." -Charles Lynch author, journalist and former governor of Heritage Canada.

No other region in North America features the variety and intensity of unusual phenomena found in the world's largest alpine valley, the San Luis Valley of Colorado and New Mexico. Since 1989, Christopher O'Brien has documented thousands of high-strange accounts that report UFOs, ghosts, crypto-creatures, cattle mutilations, skinwalkers and sorcerers, along with portal areas, secret underground bases and covert military activity. This mysterious region at the top of North America has a higher incidence of UFO reports than any other area of the continent and is the publicized birthplace of the "cattle mutilation" mystery. Hundreds of animals have been found strangely slain during waves of anomalous aerial craft sightings. Is the government directly involved? Are there underground bases here? Does the military fly exotic aerial craft in this valley that are radar-invisible below 18,000 feet? These and many other questions are addressed in this all-new work by one of America's top paranormal investigators. Take a fantastic journey through one of the world's most enigmatic locales!

Long out-of-print, Cramp's 1966 classic book on flying saucer propulsion and suppressed technology is available again. Cramp wrote Space, Gravity and the Flying Saucer in 1954 and was Vice-President of the British UFO Research Association (BUFORA). This is a highly technical look at the UFO phenomenon by a trained scientist. Cramp first introduces the idea of anti-gravity and introduces us to the various theories of gravitation. He then examines the technology necessary to build a flying saucer and examines in great detail the technical aspects of such a craft. Cramp's book is a wealth of material and diagrams on flying saucers, anti-gravity, suppressed technology, G-fields and UFOs.

Popular culture has often presented a mythologised version of archaeology that at times misinforms the general public about broader academic intentions. The fantastic and bizarre continue to capture the public imagination, so that while archaeological teams excavate, survey and record, they occupy the same geographic locations as ghost tour operators and seekers of the supernatural. Not only does archaeology operate within the same geography as modern mythology, but widespread access to technology, from satellite imagery to GPS data, means that enthusiastic amateurs can partake in their own investigations. With limited landscape identification training, an enthusiasm for discovery and strange cultural biases, fringe operators have utilised new technologies to justify old fallacies through variant forms of amateur archaeology. This collection draws on the wealth of work currently being undertaken by contemporary archaeologists in Australia, from rock art observations to art/archaeology experiments and even space archaeology. It explores archaeology on the edge, contextualising the fringe dwellers that operate on the periphery of accepted academia. It also looks at contemporary archaeological theory and practice in relation to these fringe operators, developing approaches toward interaction, in contrast to the more common reaction of repudiation. The relationship between the accepted centre and the outer edge in contemporary archaeological practice and theory unveils much about popular misconceptions and how archaeological spaces can be overlaid with variant mythological and cultural interpretations.

Offers a range of exotic technologies the Nazis researched, and challenges to the conventional views of the end of World War Two, the Roswell incident, and the beginning of MAJIC-12, the government's alleged secret team of UFO investigators.

Hypothetical Spacecraft and Interstellar Travel collects information about the latest and greatest hypothetical spacecraft.

Long trackways, stone rows, circles, standing stones, and huge earthworks may be found all over Britain, monuments dating back well over 4000 years. The authors have made a remarkable breakthrough in understanding the system by which prehistoric monuments were designed and placed.

"Search for lost Mayan cities and books of gold, discover an ancient canal system in Arizona, climb gigantic pyramids in the Midwest, explore megalithic monuments in New England, and join the astonishing quest for the lost cities throughout North [and Central] America"--Amazon.com.

IN HIS OWN WORDS: "Mysteries haunting mankind intrigue me the most, and I like writing about them." DECODING GOD—as the name suggests, the book is about explaining the mysterious god phenomenon that prevails in our society. I've taken a simple & direct approach to explaining the god phenomenon by taking help from research work done by others. This book is written in such a way that everyone can understand it, irrespective of his or her background in the subject. The book has been made concise so that it remains interesting to read. Furthermore, this book does not deal with the denial or acceptance of the existence of god but rather with the extent of god's influence. It is this phenomenon that I question. --- ANDY

While the government wants you to think that aliens are buzzing military bases, this book presents the overwhelming evidence that most "nuts and bolts" UFOs are made on earth and piloted by earthlings. This important book reveals the secret technologies German scientists captured at the end of World War II were working on, and takes us right up to today's state-of-the-art flying machines.

Leonard G. Cramp's classic book on flying saucer propulsion and suppressed technology is back in print in this expanded edition. Now including material from his first book; Space; Gravity & the Flying Saucer; this book is a highly technical look at the UFO phenomena by a trained scientist. Cramp first introduces the idea of 'anti-gravity' and introduces us to the various theories of gravitation. He then examines the technology necessary to build a flying saucer and examines in great detail the technical aspects of such a craft. Cramp's book is a wealth of material and diagrams on flying saucers; anti-gravity; suppressed technology; G-fields and UFOs. Chapters include: Crossroads of Aerodynamic Saucers; Limitations of Rocketry; Gravity and Magnetism; Gravitation and the Ether; The Present State of the Art; Gravitational Spaceships; The G-Field Theory; G-Field Lift Effects; Accompanying Phenomena; Analysis of Technically; Corroborative Evidence; Analysis

This fascinating book, first published in 1834 as *The Round Towers of Ireland or the Mysteries of Freemasonry, of Sabatism, and of Budhism*, was an instant sensation at the time, and was one of the first modern studies of Atlantis, Round Towers, pre-Christian Megalithic Architecture and Secret Societies. In addition to being a sourcebook on Atlantis Research, Druidic Culture and origins of modern Celtic Christianity, the book is a treasure trove of ancient esoteric lore and arcane knowledge of the past. Includes: The History of the Tuatha-de-Danaans; The Round Towers and Megalithic Crosses of Ireland are pre-Christian; Ireland's strange connections with ancient India, Persia and China; Ancient Secret Societies and Ireland; Ancient Egyptians and Ireland; Pre-Christian Messiahs, Mithraism, and Ireland; The Connections Between Atlantis and Ireland.

The deceptively simple task of making a mechanism which would turn forever has fascinated many famous men and physicists throughout the centuries. In fact, the basic tenets of engineering grew from the failures of these perpetual motion machine designers. This work offers an illustrated overview of perpetual motion machines and their inventors.
