

programs; departments and teaching staff; buildings and grounds; and degrees conferred. Volume two of the set provides four indexes, including an institutional Index, a subject accreditation index, a levels of degrees offered index, and a tabular index of summary data by state. These helpful indexes allow readers to find information easily and to make comparisons among institutions effectively. Also contained within the text are charts and tables that provide easy access to comparative data on relevant topics.

This volume provides new data about the molecular biology of CRPC and a review of the definition, staging and prognostic factors that define CRPC. The book features an in depth review of proven therapeutic options, including bone targeted therapies, immunotherapy, chemotherapy and hormonal based therapies. Combination therapy as well as novel targeted approaches presently under investigations are also reviewed. The text provides up to date guidelines and algorithms for the management of CRPC based on international guidelines presently available as well as evidence based medicine. As a concise yet comprehensive summary of the current status of the field, Management of Castration Resistant Prostate Cancer serves as a very useful resource for physicians and researchers dealing with this challenging malignancy.
