Exam Board: AQA Level & Subject: GCSE Biology First teaching: September 2016 First exams: June 2018 AQA approved GCSE Science is changing and AQA GCSE (9-1) Biology from Collins has been developed to embed the skills your students need to succeed in all three assessment objectives, while providing a clear and supportive route through the new, more challenging GCSE content. * Each spread starts with language and ideas at a lower level and increases in complexity, engaging students of all ability levels * Key concept spreads highlight knowledge that students must grasp before they can move on * Dedicated pages on analysing, interpreting and evaluating all the required practicals, so students are fully prepared for the indirect assessment. * Maths activities at the appropriate level are embedded throughout, along with Maths skills pages that focus on developing the skills needed for each topic * Prepare students for the demands of the new specification with differentiated questions, worked examples and lots of opportunities to practice * Co-teach both Foundation and Higher tier with a single book (the Higher-only content is clearly flagged).

Exam board: AQA Level & Subject: GCSE Combined Science: Trilogy First teaching: September 2016 First exam: June 2018 To support students in their completion of the required practicals on their GCSE Science (9-1) course, the Collins AQA lab book is the only resource that they need. This lab book will: * provide students with all the information they need to perform their required practicals; including the method,

apparatus needed, common mistakes and safety tips* be the one place to record the outcomes of practicals, providing an easy reference for revision* challenge students with extra questions designed to improve analysis, evaluation and maths skills* prepare students for their examinations, with exam-style questions directly linked to the required practicals and apparatus use.

Exam Board: AQA Level & Subject: GCSE Biology First teaching: September 2016 First exams: June 2018 AQA approved

This Workbook will support and motivate students to reach their full potential with targeted questions and support. * Provides plenty of practice opportunities for short- and long-answer questions on every topic * Builds confidence with worked examples demonstrating how to answer different types of questions * Further support from hints and tips explaining command words, advising how to approach questions and more The questions begin with confidence-building, lower demand questions and they are ramped throughout each topic. The workbook provides coverage of maths and practical skills as well as offering synoptic questions. The range of questions available encourages students to develop their skills in applying and analysing as well as recall. Frequent support notes provide hints and tips on strategies for decoding questions (for example by identifying key words in the question), key terminology, and how to write explanations and give the right amount of detail.

This book, written for the new AQA GCSE 9-1 Biology course, contains over 500 short answer factual recall questions about the most recent GCSE Biology syllabus. The questions in this book are designed to match exactly what AQA Examiners are looking for, with all the key words and phrases you need to include in your answers to gain those top marks in your GCSE exams. It uses clear, concise language which is drawn from the specification to really test your understanding on every part of the syllabus. Our AQA Biology Student Workbooks are well suited for classwork, homework, independent study and exam preparation. It covers all the topics on the GCSE Syllabus, as listed below, and includes the higher-tier content to ensure students are able to attain the top grades. Cell Biology Organisation Infection and Response Bioenergetics Homeostasis and Response Inheritance, Variation and Evolution Ecology

This Foundation Workbook is designed to support the development of key literacy and numeracy skills of students in the 1-4 grade range, as well as building confidence in answering open response questions. The amount of scaffolded support decreases throughout the workbook to encourage independent learning. - Summarises all the Foundation content to be learned for each topic - Provides plenty of practice questions - Builds confidence by showing how to answer questions or work through calculations - Helps students to improve their answers by focusing on use of key scientific vocabulary, how to link key concepts, and work with graphs Each topic opens with a bulleted summary of the key ideas, reminding students of the key scientific vocabulary and equations they should be able to recall. The questions begin with confidence-building, low demand questions (multiple choice, matching, sentence completion or closed short answer) leading to more open questions including calculations as part of structured questions. The questions include applying and analysing as well as recall, for example bringing in skills used in analysing results from practical work. Frequent support notes provide hints and tips on key vocabulary, how to answer open response questions (for example by writing causal explanations), strategies for decoding questions (for example by identifying key words in the question) and how to interpret information from tables and graphs. 'Show me' writing frames demonstrate how to build longer answers, how to work with equations in science and how to convert units. In later pages the level of scaffolding is gradually reduced by removing

the guided support so that students are supported in becoming independent learners throughout their GCSE course.

Biology

The UK's bestselling GCSE Science series has now been updated and specifically tailored for the new 2016 AQA GCSE Science (9-1) specifications. These brand new Workbooks are the perfect companion for the series and support your Foundation students on their journey from KS3 to success in the new AQA GCSE.
