

## Aqa Past Papers Biology Multiple Choice

Helps students manage their revision and prepare for exams efficiently. This title offers content that is broken into manageable sections. It provides exam tips and techniques to support students in the revision process.

If you are studying for AS Biology and are following the AQA specification A, this revision guide will give you exactly what you need to know for the exams with no superfluous material. Practice exam style questions are included for each module.

Each of the student books offers full and accurate coverage of the AQA specification for separate award science. The organisation of the books allows you to see at a glance exactly what you've covered and where. In addition, the books offer:- integrated AQA Psychology for AS and A-level Year 1 is the definitive textbook for the new 2015 curriculum. Written by eminent psychologist Professor Michael Eysenck, in collaboration with a team of experienced A-level teachers and examiner, the book enables students not only to pass their exams with flying colours, but also to fully engage with the science of psychology. As well as covering the six core topics students will study, the book includes: Activities which test concepts or hypotheses, bringing theory to life Key research studies explained and explored, showing the basis on which theory has developed Case studies which show how people's lives are affected by psychological phenomena Evaluation boxes which critically appraise key concepts and theories Self-assessment questions which encourage students to reflect on what they've learnt Section summaries to support the understanding of specific ideas – perfect for revision Exam hints which steer students towards complete and balanced answers Key terms defined throughout so students aren't confused by new language 200 figures, tables and photos End of chapter further reading to enable students to develop a deeper understanding End of chapter revision questions and sample exam papers to consolidate knowledge and practice exam technique A full companion website with a range of further resources for both students and teachers, including revision aids and class materials Incorporating greater coverage of research methods, as well as key statistical techniques, the sixth edition of this well-loved textbook continues to be the perfect introduction to psychology. Accessible yet rigorous, the book is the ideal textbook for students taking either the AS course or year 1 of the A-level.

Written by examiners and practising teachers, each book in this series contains activities and useful features intended to aid understanding. Knowledge is tested throughout, with progress checks at the end of every chapter and practice questions at the end of each section.

All trainee teachers working towards ATLS or QTLS are accountable for the quality of their work, the delivery of their lessons and the success of their students. This book provides comprehensive coverage of the sector's challenging quality agenda and focuses on the reality of teaching and managing under pressure. It begins by asking what is meant by 'quality', and goes on to give guidance on delivering quality lessons and coping with inspections. Professional issues such as accountability and team working are covered in a practical, accessible way. Throughout, case studies provide insights into everyday challenges faced by trainee teachers.

Covering the core content of the AQA Biology 2006 onwards (single award) specification, this revision guide reflects the 'How science works' element of the course.

Designed to be motivating to the student, this book includes features that are suitable for individual learning. It covers the AS-Level and core topics of almost all A2 specifications. It provides many questions for students to develop their competence. It also includes sections on 'Key Skills in Biology, 'Practical Skills' and 'Study Skills'.

This resource has separate books for biology, chemistry and physics. Each book is accompanied by a teacher's resource pack on customizable CD-ROM or as a printed pack. The series is designed to work in conjunction with the Separate Science for AQA series, so that coordinated and separate science can be taught alongside each other.

This textbook has been written specifically to meet the needs of students following the AQA A2 biology specification and provides thorough, carefully-structured coverage of the subject content. Comprehensive and exam focused, this textbook gives biology students integrated material on 'how science works' and topic-by-topic insight and advice, ensuring they are fully prepared for their exam. - Examiner commentary throughout the book helps to consolidate students' understanding of key topics - Extension material helps to deepen subject understanding - Short answer and exam style questions test knowledge as well as revision and exam skills These New editions of the successful, highly-illustrated study/revision guides have been fully updated to meet the latest specification changes. Written by experienced examiners, they contain in-depth coverage of the key information plus hints, tips and guidance about how to achieve top grades in the A2 exams.

These full-colour Revision Guides provide board-specific support for GCSE Science and are designed specifically to raise standards.
