The Portable Edition is comprised of four books, each representing a major period of art history: Long established as the classic and seminal introduction to art of the Western world, the Eighth Edition of Janson's History of Art is groundbreaking. When Harry Abrams first published the History of Art in 1962, John F.

Kennedy occupied the White House, and Andy Warhol was an emerging artist. Janson offered his readers a strong focus on Western art, an important consideration of technique and style, and a clear point of view. The History of Art, said Janson, was not just a stringing together of historically significant objects, but the writing of a story about their interconnections, a history of styles and of stylistic change. Janson's text focused on the visual and technical characteristics of the objects he discussed, often in extraordinarily eloquent language. Janson's History of Art helped to establish the canon of art history for many generations of scholars. The new Eighth Edition, although revised to remain current with new discoveries and scholarship, continues to follow Janson's lead in important ways: It is limited to the Western tradition, with a chapter on Islamic art and its relationship to Western art. It keeps the focus of the discussion on the object, its manufacture, and its visual character. It considers the contribution of the artist as an important part of the analysis. This edition maintains an organization along the lines established by Janson, with separate chapters on the Northern European Renaissance, the Italian Renaissance, the High Renaissance, and Baroque art, with stylistic divisions for key periods of the modern era. Also embedded in this edition is the narrative of how art has changed over time in the cultures that Europe has claimed as its patrimony.

In this second volume, Albert Boime continues his work on the social history of Western art in the Modern epoch. This volume offers a major critique and revisionist interpretation of Western European culture, history, and society from Napoleon's seizure of power to 1815. Boime argues that Napoleon manipulated the production of images, as well as information generally, in order to maintain his political hegemony. He examines the works of French painters such

as Jacques-Louis David and Jean Auguste Dominique Ingres, to illustrate how the art of the time helped to further the emperor's propagandistic goals. He also explores the work of contemporaneous English genre painters, Spain's Francisco de Goya, the German Romantics Philipp Otto Runge and Caspar David Friedrich, and the emergence of a national Italian art. Heavily illustrated, this volume is an invaluable social history of modern art during the Napoleonic era. Stimulating and informative, this volume will become a valuable resource for faculty and undergraduates.—R. W. Liscombe, Choice

Few people today realize that almost everything associated with the Solomon Guggenheim Foundation--its mission, its collection of central European and early American modern art, and its landmark home--are realizations of the efforts of Hilla Rebay. Vrachopoulos (visual culture, CUNY and Parsons School of Design) and Angeline (Parsons School of Design and School of Visual Arts) attempt to remedy this situation with their study of Rebay's career as an artist, curator, patron and museum director. By placing Rebay in the sphere in which she moved and which she influenced, they convey a sense of American Modernism in the period between the wars. They conclude with an examination of Rebay's historical persona as it is portrayed in newspapers, magazines and academic sources. Annotation :2004 Book News, Inc., Portland, OR (booknews.com).

support by his patron Lady Rothermere, Faber & Gwyer (subsequently Faber & Faber) eventually takes over the responsibility for Eliot's literary periodical *The Criterion*. He supplements his income as a fledgling publisher, 'just as I did ten years ago, by reviewing, articles, prefaces, lectures, broadcasting talks, and anything that turns up.' His work as editor is internationalist above all else, and Eliot makes contact with a number of eminent and emergent writers and thinkers, as well as forging links with European reviews ('all of which have endeavoured to keep the intellectual blood of Europe circulating throughout the whole of Europe'). Eliot's responsibilities during this period extend to caring for Vivien, who returns home after months in a French psychiatric hospital and whom he looks after with anxious fortitude; and the personal correspondence with his mother closes with her death in September 1929.
