Blake Books Supplement is a continuation of Blake Books (1977), a bibliographical record of publications covering all aspects of William Blake's life and work - his writings, drawings, and engravings - and works of criticism on them. Most of the information in the Supplement was published in the period 1972-1992, but there are items newly recorded here which appeared as early as the 1790s. The mass of new material is enormous - the last 20 years have produced almost as many items for inclusion as the preceding 200 years covered in the original Blake Books. Some of the most important discoveries concern newly identified writings and engravings by Blake himself. The work is organized like Blake Books, enabling the two volumes to be used side by side.

Including an international directory of museum permanent collection catalogs. More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

The Ten Blake Songs helped to establish the unique ensemble combination of voice and oboe and has become a major staple in the chamber music repertoire for both oboists and singers. Vaughan Williams wrote the work in 1958 -- the last year of his life -- for the documentary film *The Vision of William Blake*, written and directed by Guy Brenton. The film, which commemorated the bicentennial of Blake's birth, explores Blake's personal philosophy as expressed through his poetry and artwork. When Vaughan Williams added music to Blake's *Illuminated* poetry, almost two centuries after its creation, he broadened the scope of its artistic gesture. In addition, as Vaughan Williams wrote the piece for a film that

presented the visionary art, poetry, and philosophy of Blake, the complete effort culminated in a kaleidoscope of artistic perspective. This treatise is a comprehensive case study of the first four songs from the Ten Blake Songs by Ralph Vaughan Williams. The first two chapters address pertinent background information and the next four chapters provide an exploration of each specific poem followed by an analysis of the music. The musical analysis focuses on the techniques Vaughan Williams used to enhance the meaning of the poetry. This case study will provide a resource for performers and scholars who are seeking an in-depth knowledge of Vaughan Williams's Ten Blake Songs for the purpose of attaining insight into all its artistic facets. Vaughan Williams's influences in composing the piece are explored, including William Blake and his poetry (the Songs of Innocence and of Experience), and the film, The Vision of William Blake, for which the Ten Blake Songs were written.
