A comprehensive guide to understanding and practicing Vedic astrology, the art of jyotish. • Teaches beginners how to read and interpret Vedic astrology charts, based on their own birth chart as well as the birth charts of 112 notable people. • Shows how to use Vedic astrology to anticipate upcoming events and direct the cosmic energies of one's life toward a positive future outcome. For over 5,000 years the people of India have used jyotish, or Vedic astrology, to anticipate future influences and make major decisions. Now Andrew Bloomfield brings this increasingly popular tool to the West in an easy-to-follow, comprehensive format, providing the reader with everything needed to practice the Indian art of predicting the future. Vedic astrology was codified by the ancient Maharishis to help people achieve the four basic goals of human existence: kama (desire), artha (wealth), dharma (life purpose), and moksha (spiritual growth). Unlike other forms of astrology, Vedic calculations focus more on the primal, unconscious, driving forces linking our thoughts and actions. How to Practice Vedic Astrology shows how to make accurate predictions on when to expect life's changes concerning one's career, love life, children, or spirituality.

It is said that everything is written even before the birth of the child. His destiny is written and we are but a puppet in hands of God. God has made this universe indeed and set rules that we may not know fully because God alone is the all knowing. He in all probability has millions of rules and laws such as law of gravitation, vaastu, fengshui, Chinese astrology, vedic astrology, numerology, dowsing and not denying some sciences that we developed like Chemistry, Physics. God has set a path to run this world and these hidden knowledge were discovered only when God allowed. This book teaches basics of understanding one of many rules and laws which we term as Vedic Astrology.

Most introductory astrology books, such as this one, are content to teach you the ABC's of astrology: Planets, signs, houses, aspects, pretty much in that order. You're then congratulated that, by the time you reach the end of the book, you can look up the individual pieces and spit out canned interpretations, by rote. Vivian Robson (1890-1942, a man, by the way), expected better. Here is an example: Having found the significator of the matter concerned interpret all aspects to it as things and people affecting it. Suppose Jupiter were chief significator of money and afflicted by Saturn. We should judge that money matters would be hampered by poor conditions, depressing surroundings, ill-health, or whatever Saturn signified in that horoscope. In other words, we should give Jupiter the chief consideration as significator of the matter enquired into, and interpret the action of Saturn in its relation to Jupiter, and not vice-versa. On the other hand if Saturn were the significator we should judge that fits of generosity or extravagance would affect the finances, because Jupiter is expansive in its action, and its afflicting aspect would cause trouble and loss. This general judgment is then refined by taking into account the sign and house occupied by the aspecting planet, and the houses it rules. Thus, suppose with Saturn as significator that Jupiter threw an adverse aspect from the 5th house. Then we should judge that the extravagance would arise from too much indulgence in pleasure, or from gambling, or other matters ruled by the 5th house. This would be modified by the sign containing Jupiter. A water sign would incline more to self-indulgence, a fiery one to gambling, a sign ruled by Venus to expenditure on women, and so on, thus enabling us to enlarge on the judgement obtained from the house position alone. We should next look to see what houses Jupiter ruled. If it ruled the 3rd we should judge expense and extravagance over journeys, relatives and other third house matters, and by blending the influences, that gambling losses (5th) would come through the advice of relatives (3rd) or some other appropriate blending. . . . This, however, is not the only way the influences would work. . . . There is method to be used, and it is one which needs considerable practice, but it is well-worth the trouble involved, and the student will himself be amazed to find how accurately the most trifling details may be predicted. As a word of advice to the beginner I would say - Do not be afraid to let yourself go in this way. You will make many mistakes to start with, but it is the only way to make your Astrology of practical use. There is too great a tendency nowadays to float about in a comfortable haze of so-called esotericism. The first need of Astrology is accuracy and definition, not pseudo-religious speculation, and it is only by concentrating on the practical and scientific side that we can really make Astrology of service, and obtain for it the recognition it deserves. (pgs. 110-113: go have a look) Someday a picture of the man will be found.
