Cuba Investment and Business Guide Volume 1
Strategic and Practical Information

This book demonstrates how some of the most serious problems and dangers confronting teenagers today - tobacco, alcohol, substance abuse, pregnancy, sexually transmitted diseases, mental health problems and youth violence - can be addressed through health promotion and education.

PC Mag

Featuring three new chapters on hybrid and electric vehicles, this fully updated 5th edition of **AUTOMOTIVE SERVICE: INSPECTION, MAINTENANCE, REPAIR** helps students develop the knowledge and skills they need to be successful in a range of automotive careers. Known for its clear explanations and high quality art, this best-selling text covers all eight major course areas of automotive technology, from an introduction to shop management to theories of vehicle systems operations with step-by-step procedures for trouble shooting and repair. Technically reviewed by instructors and industry experts and reflecting the latest ASE Education Foundation's Automobile Program Standards, this edition is ideal for students enrolled in ASE Education Foundation-accredited programs. leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

Created... to help U.S. companies find business opportunities in the expanding markets of the Newly Independent States (NIS) of the former Soviet Union.

"Small businesses may not have safety and health professionals on staff, yet they can reduce injury and illness risks by obtaining safety and health information and adopting recommended practices. Most trade associations, franchisors, workers' compensation insurance groups and state health or labor departments are excellent resources for safety and health program materials. Comprehensive injury and illness prevention programs are recommended to reduce the risks for occupational injury, illness and death. You can: 1)

Identify and evaluate hazards and adopt effective hazard controls and safe work practices to prevent work-related injuries and illnesses. 2) Lead a work group to address priority issues to help inform employers and policy makers about hazards and successful interventions. 3)

Assist in the design of an effective system to track occupational injuries and illnesses in the automotive repair/maintenance industry. 4) Represent a partner organization to work on a goal implementation plan. Provide input to the NORA Coordinator on the implementation of goals (noracoordinator@cdc.gov) and suggest important issues to consider for future goals. 5)

Promote the development of comprehensive occupational safety and health programs for automotive repair and maintenance establishments. 6) Evaluate potential exposures to hazardous materials in automotive repair and maintenance facilities. 7) Develop and evaluate effective training materials that assist employers and employees in the recognition and control of hazardous materials in automotive repair and maintenance facilities." - NIOSHTIC-2

Discover how to choose a quality repair facility, buy a car, handle roadside emergencies, diagnose common problems, and communicate effectively with technicians – all while saving money.

Also available in BUS on CD-ROM: F&S index plus text international (call#: HD1010.F22)

This report should be of interest to transit bus maintenance managers and others interested in the development of written transit bus maintenance procedures, or "practices," and the sharing of these practices with others in the transit industry. The report provides guidance on how to develop effective transit bus maintenance practices tailored to one's local operating environment. It provides seven sample practices developed using the guidance. Complementing this report is an on-line Web Board sponsored by the Transportation Research Board's Committee on Transit Fleet Maintenance. This Web Board allows transit agencies to post their maintenance practices for others to review, revise as necessary for their own operating conditions, and use. The report provides instructions on how to access the Web Board, use it to develop maintenance practices, and share these practices among transit agencies.
