The Ben cao gang mu, compiled in the second half of the sixteenth century by a team led by the physician Li Shizhen (1518–1593) on the basis of previously published books and contemporary knowledge, is the largest encyclopedia of natural history in a long tradition of Chinese materia medica works. Its description of almost 1,900 pharmaceutically used natural and man-made substances marks the apex of the development of premodern Chinese pharmaceutical knowledge. The Ben cao gang mu dictionary offers access to this impressive work of 1,600,000 characters. This third book in a three-volume series offers detailed biographical data on all identifiable authors, patients, witnesses of therapies, transmitters of recipes, and further persons mentioned in the Ben cao gang mu and provides bibliographical data on all textual sources resorted to and quoted by Li Shizhen and his collaborators.

In this book, the first of a series, Robin D. Gill, author of the highly acclaimed Rise, Ye Sea Slugs! and Cherry Blossom Epiphany, the largest single-theme anthologies of poetry ever published, explores the traditional Japanese New Year through 2,000 translated haiku (mostly 17-20c). "The New Year," R.H. Blyth once wrote, "is a season by itself." That was nowhere so plain as in the world of haiku, where saijiki, large collections called of ku illustrating hundreds, if not thousands of briefly explained seasonal themes, generally comprised five volumes, one for each season. Yet, the great doyen of haiku gave this fifth season, considered the first season when it came at the head of the Spring rather than in mid-winter, only a tenth of the pages he gave to each of the other four seasons (20 vs. 200). Was Blyth, Zen enthusiast,

not enamored with ritual? Or, was he loath to translate the New Year with its many cultural idiosyncrasies (most common to the Sinosphere but not to the West), because he did not want to have to explain the haiku? It is hard to say, but, with these poems for the re-creation of the world, Robin D. Gill, aka "keigu" (respect foolishness, or respect-fool), rushes in where even Blyth feared to tread to give this supernatural or cosmological season - one that combines aspects of the Solstice, Christmas, New Year's, Easter, July 4th and the Once Upon a Time of Fairy Tales - the attention it deserves. With G.K. Chesterton's words, evoking the mind of the haiku poets of old, the author-publisher leaves further description of the content to his reader-reviewers. "The man standing in his own kitchen-garden with the fairyland opening at the gate, is the man with large ideas. His mind creates distance; the motor-car stupidly destroys it." (G.K. Chesterton: Heretics 1905)

The Cat and the Squirrel come to blows with the Duck in arguing about who will perform what duty in preparing their pumpkin soup, and they almost lose the Duck's friendship when he decides to leave them.

"Elegant representations of nature and the four seasons populate a wide range of Japanese genres and media. In *Japan and the Culture of the Four Seasons*, Haruo Shirane shows how, when, and why this practice developed and explicates the richly encoded social, religious, and political meanings of this imagery. Shirane discusses textual, cultivated, material, performative, and gastronomic representations of nature. He reveals how this kind of 'secondary nature,' which flourished in Japan's urban environment, fostered and idealized a sense of harmony with the natural world just at the moment when it began to recede from view. Illuminating the deeper meaning behind Japanese aesthetics and artifacts, Shirane also

clarifies the use of natural and seasonal topics as well as the changes in their cultural associations and functions across history, genre, and community over more than a millennium. In this book, the four seasons are revealed to be as much a cultural construction as a reflection of the physical world."--Back cover.

In the small Colorado town of Summit View, a surprising multi-generational mix of women from Grace Church meet once a week to pass a hot dish and to pray. He adds one short piece per day, describing the material and natural world with the precision and mesmerising intensity that have become his trademark.
