The Avengers are trapped in the Savage Land, battling friend and foe. And Spider-Man heads to the one person in the entire place he knows he can trust: Ka-Zar! But is it really him? This important chapter rewinds the events of the very first New Avengers story and shows how it connects to the Invasion. Plus: the break up of Jessica Jones and Luke Cage; a major development in the life of Echo; and the story of how the Skrull empire was able to infiltrate the Marvel Universe, and who instigated the invasion - and why! Collects New Avengers #38-42.

The Secret History of Marvel Comics digs back to the 1930s when Marvel Comics wasn't just a comic-book producing company. Marvel Comics owner Martin Goodman had tentacles into a publishing world that might have made that era's conservative American parents lynch him on his front porch. Marvel was but a small part of Goodman's publishing empire, which had begun years before he published his first comic book. Goodman mostly published lurid and sensationalistic story books (known as "pulp") and magazines, featuring sexually-charged detective and romance short fiction, and celebrity gossip scandal sheets. And artists like Jack Kirby, who was producing Captain America for eight-year-olds, were simultaneously dipping their toes in both ponds. The Secret History of Marvel Comics tells this parallel story of 1930s/40s Marvel Comics sharing offices with those Goodman publications not quite fit for

children. The book also features a comprehensive display of the artwork produced for Goodman's other enterprises by Marvel Comics artists such as Jack Kirby and Joe Simon, Alex Schomburg, Bill Everett, Al Jaffee, and Dan DeCarlo, plus the very best pulp artists in the field, including Norman Saunders, John Walter Scott, Hans Wesso, L.F. Bjorklund, and Marvel Comics #1 cover artist Frank R. Paul. Goodman's magazines also featured cover stories on celebrities such as Jackie Gleason, Elizabeth Taylor, Liberace, and Sophia Loren, as well as contributions from famous literary and social figures such as Isaac Asimov, Theodore Sturgeon, and L. Ron Hubbard.

A mighty history: Building the House of Ideas From the very first issue of pulp impresario Martin Goodman's Marvel Comics in 1939, the comic book creators of Marvel's Golden Age flipped the traditional fantasy script by placing the inhuman and the invincible into the real

world. With the likes of the fiery android Human Torch, vengeful sea prince Sub-Mariner, and pip-squeak-turned-paragon Captain America, Marvel created a mythological universe grounded in a world that readers recognize as close to their own, brimming with humor and heartache. In the early 1960s, this audacious approach launched the creation of heroes who have since become household names—Spider-Man, The Incredible Hulk, the Fantastic Four, Iron Man, the Avengers, Thor, the X-Men—the list goes on. Fans still celebrate it as the Marvel Age of comics, an era populated by a pantheon of bickering heroes, misunderstood monsters, and noble villains. In celebration of Marvel's 75th anniversary, TASCHEN presents a magnum opus of the most influential comic book publisher today, with an inside look not only at its celebrated characters, but also at the "bullpen" of architects whose names are almost as familiar as the protagonists they brought to life—Stan “the Man” Lee, Jack “King” Kirby, along with a roster of greats like Steve Ditko, John Romita, John Buscema, Marie Severin, and countless others. With essays by comics historian and former Marvel editor-in-chief Roy Thomas, this book delves into the heart of thousands of costumed characters who continue to fight the good fight in comics, movies, and toy aisles of the world. The XL-format book includes:

- More than 700 pages of near 2,000 images including vintage comic books, one-of-a-kind original art, behind-the-scenes photographs and film stills, as well as rare toys and collectibles
- A four-foot accordion-fold timeline, suitable for framing!
- Biographies of more than 300 artists, writers, editors, and famous fans who helped shape Marvel's history
