Words at Work is a powerful resource for learners who want to expand their vocabulary in order to use English more effectively in a general Business English context. The 17 task-based units cover a range of essential topics, from Company organisation and Advertising to Finance and Information systems. The introduction unit on learning vocabulary successfully gives learners good ideas on techniques for remembering more words. The index also provides a way in to the specific vocabulary area they want to focus on. Words at Work is accompanied by a listening cassette. Every unit contains at least one listening task and one pronunciation task, to give learners the opportunity to hear and practise the vocabulary as well as see it. Words at Work is completely self-contained, with an answer key, tapescripts and an index with phonetic transcriptions, and can be used by learners working on their own.
