A legendary fashion designer for Barbie shares the story of her adventures working behind-the-scenes at Mattel, and spotlights the creations that transformed the world's most famous doll into a style icon in this beautifully designed book—published in commemoration of Barbie's sixtieth anniversary—illustrated with 100 full-color photographs, including many never-before-seen images of rare and one-of-a-kind pieces from the author's private archive. Dressing Barbie is a dazzling celebration of the clothes that made America's favorite doll, and the incredible woman behind them. For thirty-five years, Carol Spencer enjoyed an unparalleled reign as a Barbie fashion designer, creating some of Barbie's most iconic looks from the early 1960s until the late 1990s. Barbie's wide-ranging wardrobe—including princess gowns and daisy-print rompers, flirty sundresses and smart pantsuits—combined fashion trends and haute couture with a liberal dose of fantasy. In Dressing Barbie, the successful and prolific designer reminisces about her time at Mattel working with legendary figures such as Ruth Handler, Barbie's creator, and Charlotte Johnson, the original Barbie designer, and talks about her best and most beloved clothing designs from each decade. But Carol's most impressive creation is her own life. As Handler

famously said, “Barbie always represented the fact that a girl has choices”—a credo Carol epitomized. In *Dressing Barbie*, she talks candidly about how she broke free of the constraints of the late 1950s to pursue a dazzling career and an independent life for herself. Over the course of her successful and prolific career, Carol won many accolades. She was the first designer to have her signature on the doll, the first to go on a signing tour, the first to design a limited-edition Barbie Doll for collectors, and the designer of the biggest selling Barbie of all time. Now, Carol is the first member of the inner circle to take fans behind the pink curtain, revealing the fashion world of Barbie, the quintessential California girl, as never before.

"That night I wanted to understand, I was curious, I looked at them and looked again and I couldn't take my eyes off the screen. I wondered: are they dolls or real children? There was no information in Italy, it wasn't easy, I searched and searched again, I scoured American forums, blogs, websites. That night, 10 years ago, I understood what I wanted to

do: make one."The phenomenon of reborn dolls was born in the U.S. between the end of the 1980s and the beginning of the 1990s. The first reborn doll was sold on eBay in 2002. This phenomenon, disturbing to some, a true passion for others, has now effectively become a new art form. Nowadays the number of reborn dolls, the artists who create them (reborners or reborn artists), and collectors has increased considerably. There's people who love them, who cuddle them, who use them in the medical field and who create or want to start creating them. In "Reborn Dolls and Reborning", the first work of its kind, Laura Cosentino and Carmelo Calanni let us meet this new art form in all its aspects, from an artistic, historical and social point of view. The author herself, Laura, who over time has become one of the best reborn artists in Italy and in the world, allows us to witness her extraordinary passion for Reborning; a real "love story". But this is also the first book aimed at collectors who are always on the hunt for tips and useful advice, as well as a precious guide for neo-reborners who want to start creating their first doll.

Graduating from Antwerp's Royal Academy of Fine Arts in the 1980s, Martin Margiela (and his contemporaries in the Antwerp Six) transformed global fashion with his aggressive restatement of traditional fashion design and a polemical approach to luxury trends. Working first with the house of Gaultier, Margiela absorbed the radical design of Japanese deconstruction, making it wholly his own with the founding of his own label in 1988. Margiela propounds a singular, enigmatic look, moving beyond the recognizable tropes of deconstruction--a monochromatic palette, oversized garments, non-traditional fabrics, exposed seams, or roughly applied details--to develop a fully considered worldview, one with elegance, mystery, and menace in equal measure. This book provides an inside look at the design process from a craftsman who creates pieces prized for their originality, delicacy, and daring. In the spirit of Margiela's garments, the book is a work of art in itself, designed exclusively by Margiela and complete with silver inks, ribbon markers, a variety of lush paper types, twelve booklets, and an embroidered white-linen cover. This

book provides a window onto the intimate, handmade world of a unique designer.
