

Basic American Grammar And Usage An Esl Efl Handbook

"Polish: An Essential Grammar" is the sole up-to-date Polish grammar available to English-speakers. A reference guide to the most important aspects of the language, it presents a fresh and accessible description, focusing on genuine patterns of use in the modern language. The ideal reference work for the independent learner the business traveler or the researcher, this grammar is written without jargon and with a special focus on areas traditionally problematic for English-speakers. The preliminary section on the Polish alphabet, the range of contemporary usage and grammatical examples, and the comprehensive index contribute to the accessibility of the book. Sections also focus on aspects frequently left out of less-detailed works (such as the diminutive noun, vowel and consonant changes, irregular verb declension and declension of words into different parts of speech) making this book an essential companion to the student of Polish even as study continues to advance.

Updated and revised with more examples and expanded discussions, this second edition continues the aim of providing teachers with a solid understanding of the use and function of grammatical structures in American English. The book avoids jargon and presents essential grammatical structures clearly and concisely. Dr. DeCapua approaches grammar from a descriptive rather than a prescriptive standpoint, discussing differences between formal and informal language, and spoken and written English. The text draws examples from a wide variety of authentic materials to illustrate grammatical concepts. The many activities throughout the book engage users in exploring the different elements of grammar and in considering how these elements work together to form meaning. Users are encouraged to tap into their own, often subconscious, knowledge of grammar to consciously apply their knowledge to their own varied teaching settings. The text also emphasizes the importance of understanding grammar from the perspective of English language learners, an approach that allows teachers to better appreciate the difficulties these learners face. Specific areas of difficulties for learners of English are highlighted throughout.

The world's best-selling grammar series for learners of English. Grammar in Use Intermediate with Answers, authored by Raymond Murphy, is the first choice for intermediate (B1-B2) learners of American English and covers all the grammar required at this level. Exercises help them strengthen their grammar and the book-specific website has grammar reviews that ensure that they master the material. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

A New English Grammar, a grammar of American English, is the American version of the author's acclaimed Descriptive Grammar of English. While the grammar of American English and of British English (or International English) are essentially the same, there are some differences, and in this new American English version of the grammar, priority is given to American usage, making this an ideal reference book for teachers and students in high school, and for anyone else wanting to gain a clearer understanding of English grammar. A review of the Descriptive Grammar of English in EFL Magazine commended it for the "clarity of explanations and wealth of examples" For the purposes of this American English edition, examples of grammar usage have been selected to reflect the life and interests of readers in the United States, making them relevant to the experiences of American students or international students wishing to familiarize themselves with life and culture in the USA. This English Grammar uses American English spelling in those few cases where it differs from British English. It is important however to stress that American English and British English are one and the same language. The biggest differences between the two are phonetic, not grammatical. Native English speakers can usually tell if a speaker is from North America or from Britain, or maybe from Australia or some other part of the English-speaking world; but they will find it much harder to notice, without actually thinking about it, whether a written document is in American English or in British English. There are a few telltale signs; Americans write realize where the British will write realise; Americans write traveled while the British write travelled... and in this case it is the American spelling that respects the traditional rules concerning the doubling or not of consonants in English. In the twenty-first century however, there is so much movement of both written texts and audio documents that the differences between American English and British English are becoming blurred. People in the USA read books and magazine articles, not to mention websites, written in British English, and people in the UK read plenty of books, articles and websites written in American English. While most people in the USA who use a spell-checker when writing will use one that is set up for American English, some will use one set up for British or international English.... and if a few alert readers may notice the difference, most will not, and hardly any will be unduly worried. Still it makes sense for anyone in the USA, or international users who have more contact with American speakers, to look at grammar in an American context, which is what this grammar book does.

Grammar in Use Intermediate is a highly successful grammar text known for its clear, concise explanations and innovative format. Ideal for students preparing for the TOEFL® test or other standard examinations, the new edition of this popular North American English grammar title offers even more support, with a larger format to include more explanation and practice, eight new units on phrasal verbs, and 10 pages of Additional Exercises. This edition, without answers, is ideal for classroom use. It includes a CD-ROM featuring additional practice exercises, progress reports, interactive games, and a link to the Cambridge Dictionaries Online. You can even create your own tests to review the language learned.

Designed for high-beginner to low-intermediate level learners, this American English edition of Essential Grammar in Use focuses on the fundamental structures of English grammar normally taught in basic or introductory courses. The easy-to-use layout is inviting to learners:

presentation of new structures with examples appear on the left-hand page, and exercises to check understanding on the right. Appendices deal with phrasal verbs, spelling and irregular verbs. The contents and index are clearly organised so that teachers and learners can easily find the unit or grammar point they need. There is a separate answer key for individual use and self-study. The key also provides a handy reference for teachers.
