Basic PackINDEX BOOK

The 1st World Conference and Technology Exhibition on Biomass for Energy and Industry, held in Sevilla in June 2000, brought together for the first time the traditional European Conference on Biomass for Energy and Industry and the Biomass Conference of the Americas, thus creating the largest and most outstanding event in the worldwide biomass sector. The conference elaborated innovative global strategies, projects and efficient practice rules for energy and the environment at a key stage in the industry's development. New concepts and projects were highlighted to increase the social and political awareness for a change in worldwide resource consumption and to promote economically, socially and environmentally sustainable development for the next millennium. In 2 volumes, the Proceedings include some 470 papers essential to an understanding of current thinking, practice, research and global developments in the biomass sector - a vital reference source for researchers, manufacturers, and policy makers involved or interested in the use of biomass for energy and industry.

Sharpen your blade. You live in a gray-shaded world, a twilight realm where good and evil intertwine and mirages abound. The enemy lurks. The King is calling. Your mission awaits. As a soldier in the army of God, you have been given everything you need to face these war zones of life. But owning the tools is not enough. You must train yourself to properly use them. Otherwise you might lop off your own hand rather than defeat the enemy. So strap on your armor. Pick up your sword. Take a deep breath. Basic training is about to begin. * * * As a curriculum designed for high school students, Bearing the Sword teaches the basics of discernment and critical thinking. This is done through intensive Bible study and the analysis of media, specifically pre-selected film clips. The Basic Pack Plus includes one training manual

and one training notebooks plus the media log.
