

Because Of Sex International Edition

Good Sex presents sexual ethics in the light of faith. Speaking on behalf of Christianity, Buss describes "love your neighbor as yourself" as the only Christian "rule"; it is a positive rule rather than one that focuses on prohibitions. Since this call is never fulfilled in practice, it is joined by forgiveness for oneself and others. More concrete guidelines need to be aided by "wisdom," which is not specifically Christian. Detailed biblical support is provided at the end. Stipe, a contemporary Pagan, advocates respect for all living things and doing no harm as a minimal ethical guide, leaving positive prescriptions to individual judgment. Buss and Stipe discuss details of sexual ethics in largely positive terms--what is good to do--but also with a concern for problems that should be avoided. They agree in many practical matters, just as Christians and Pagans did many years ago, before sexual equality became an ideal. They discuss various kinds of sex, including seeing and being seen, touching, masturbation, and penetration; different sexual identities; committed and uncommitted relationships, including the advisability of extended relations; having and raising children; abortion; and sensuous awareness in a spiritual setting.

Explores cultural myths, how they reflect attitudes toward sexuality, and how these attitudes have changed over time
This book makes an innovative contribution to the relatively young field of Queer Linguistics. Subscribing to a poststructuralist framework, it presents a critical, deconstructionist perspective on the discursive construction of heteronormativity and gender binarism from a linguistic point of view. On the one hand, the book provides an outline of Queer approaches to issues of language, gender and sexual identity that is of interest to students and scholars new to the field. On the other hand, the empirical analyses of language data represent material that also appeals to experts in the field. The book deals with repercussions of the discursive materialisation of heteronormativity and gender binarism in various kinds of linguistic data. These include stereotypical genderlects, structural linguistic gender categories (especially from a contrastive linguistic point of view), the discursive sedimentation of female and feminine generics, linguistic constructions of the gendered body in advertising and the usage of personal reference forms to create characters in Queer Cinema. Throughout the book, readers become aware of the wounding potential that gendered linguistic forms may possess in certain contexts.

Ruan (The Institute for Advanced Study of Human Sexuality, San Francisco), the leading authority in his field, presents a comprehensive historical survey of Chinese sexology covering ancient texts, the latest statistics and mass media reports, and his own interviews and correspondence with sexual minorities. Annotation copyrighted by Book News, Inc., Portland, OR

Praise for the First Edition: "Sex Offender Laws . . . is a good source for [a] balanced, objective, and thorough critique of our current sex offender policies as well as a source for accurate information about a very heterogeneous population. . . . The message that sexual abuse is often a multifaceted and complex issue and that policy based on quick fixes or knee jerk reactions does not often work will be informative and enlightening to many readers." —Sex Roles "[T]his fine book by Richard Wright and his distinguished collaborators provides the evidence that wise policy makers would want to consider. It covers every major field of research concerning sex offenders and sexual offenses and provides evidence of bad practices and policies. Intellectually honest politicians should read this book." —Michael Tonry, LLB, Professor of Law and Public Policy, University of Minnesota Law School (from the Foreword) The most comprehensive book available about sex offender policies and their efficacy, *Sex Offender Laws* has been widely embraced as a text for courses in criminal justice, social work, and psychology. Now updated to keep pace with rapidly changing laws and policies, this second edition features an increased emphasis on policy and program alternatives. It incorporates new content on high-profile issues affecting adolescent sex offenders, critical analyses of the results of recent studies on sex offender policies, effective approaches in preventing recidivism, and cutting-edge research in the fields of criminal justice, law, forensic psychology, and social work. The second edition continues to document and assess the full gamut of laws designed to respond to and prevent sexual violence. The majority of sex offender policies—often developed as "quick fixes" in response to high-profile cases—are not based on empirical evidence, nor have they demonstrated any significant reduction in offender recidivism. This new edition showcases alternative models that offer innovative and victim-centered approaches to combating sexual violence. Expert authors explore critical, controversial topics such as sexting, Internet sexual solicitation, the death penalty, mandatory sentencing, statutory rape, age of consent laws, and community responses. The book examines the political "untouchability" of sex offender laws and their adverse effects; despite their popularity, sex offender laws have largely failed to keep people safe and actually promote an inaccurate sense of vulnerability. The text also analyzes the role of the media and presents a new chapter on Sexual Assault Nurse Examiner programs. Expert contributors include Karen Terry, author of *Sexual Offenses and Offenders*, and others who bring a wealth of insight to the field of sex offense. New to the Second Edition: Emphasizes policy and program alternatives to currently ineffective policies Provides new content on the criminalization of adolescent sexuality Analyzes the role of the media in sex offense and sex offense policies Critically discusses state implementation of the 2006 Adam Walsh Act Introduces new policy alternatives including environmental criminology and its use toward sexual violence prevention and the increasing use of civil litigation in sexual assault cases Examines the political "untouchability" of sex offender laws and their adverse affects and unintended consequences

Uses virtue ethics to offer a sexual ethics inclusive of LGBT and straight people, one that challenges the longstanding procreative patriarchal norm. Richard W. McCarty offers a compassionate and inclusive conception of sexual virtue, one that liberates Christians from traditional patriarchal requirements for heterosexuality, marriage, and procreation. Daring to depart from ongoing debates about what Aristotle or Aquinas had to say, this book sets a new course centered on virtue ethics. It employs new insights from the sciences, biblical scholarship, analyses of church traditions, and revisionist

Where To Download Because Of Sex International Edition

natural law thinking. Eschewing simple deconstruction of traditional Christian norms for sexual morality, McCarty offers constructive ideas about what might count as real human goods for people in a wide variety of sexual relationships. Recreation, relational intimacy, and selective acts of procreation are three ends of sexual virtue that promote human happiness and can be appreciated in a broad Christian framework. While primarily referencing the Roman Catholic intellectual tradition, McCarty's work is also vital and accessible to those from Protestant backgrounds. Addressed to LGBT and straight readers, *Sexual Virtue* provides a compassionate sexual ethics for our time.

In this pioneering book, Eve Levin explores sexual behavior among the peoples of Serbia, Bulgaria, and Russia from their conversion to Christianity in the ninth and tenth centuries until the end of the seventeenth century. By ranging across all these societies, Levin is able to fulfill three basic aims: to delineate the general character of sexuality among the Orthodox Slavs, to enrich that account by drawing our attention to regional variations in the sexual mores of these peoples, and to draw suggestive comparisons between the world of the medieval Orthodox Slavs and their contemporaries in the Latin West. Levin begins with a study of the ecclesiastical image of sexuality as expressed in didactic and literary texts, showing that the Orthodox Church was deeply suspicious of sexuality. Her second chapter, on canon law and marriage, examines the conditions for marriage, divorce, and remarriage, the obligation of the conjugal relationship, and the impact of these rules on social order. Levin looks at church regulations concerning sexual relations among relatives by blood, marriage, spiritual kinship, and adoption in Chapter Three, and she devotes Chapter Four to prohibited sexual practices, both inside and outside of marriage. In the fifth chapter she studies Russian and South Slavic responses to rape, and demonstrates that these societies simultaneously censured violence against women and sanctioned the attitudes and social structures that justified it. Chapter Six deals with the rules on sexual conduct for the clergy, whose job it was to enforce sexual precepts. Throughout her work, Levin argues that, despite its conviction that sexual expression was diabolical, the medieval Orthodox Church approached sexual matters in a surprisingly practical way; its official sexual ethic corresponded to a great degree with popular views. Historians of the Slavic world, both medieval and modern, will welcome this accessible study. It should also attract comparativists who work in such fields as church history, the history of women and the family, and the history of sexuality.

Sexual Science and the Law Harvard University Press

The same powerful principles from Dr. Neil T. Anderson's *Steps to Freedom in Christ* that helped set more than one million people free from spiritual bondage can now revolutionize marriages. Dr. Anderson and co-author Dr. Charles Mylander offer practical tools to help couples let go of old habits and destructive patterns, and place Christ firmly at the center of marriage. Step-by-step, they discuss ways to handle money, sex, gender differences, adultery and forgiveness.

Where To Download Because Of Sex International Edition

Readers will also learn how to find and speak their partner's love language, resolve conflict and to call upon God in prayer to win the spiritual battle for their marriages. A thoughtful devotional guide will prompt further reflection, and discussion questions make this suitable for group use as well as personal use. A special section, "Freedom in Christ", offers help for those battling specific spiritual or personal difficulties.

Spells out the parallels between sex and eating and integrates their relationship with women's basic need to be loved. Published simultaneously by Haworth in hardbound under the same title. Annotation copyrighted by Book News, Inc., Portland, OR

"Highly regarded as a course text and practitioner resource, this book presents concise intervention guidelines for the most frequently encountered sexual dysfunctions in women and men. Following a consistent format, chapters on each clinical problem cover its description, clinical presentation, prevalence, etiology, and biological and psychosocial factors. Illustrative case examples of diverse individuals and couples are included. The authors provide a state-of-the-art framework for conducting comprehensive assessments, weaving multiple data sources into a coherent case formulation, and planning effective treatment that integrates medical and psychosocial strategies. Key Words/Subject Areas: arousal, assessments, couples, desire, diagnosis, disorders, dysfunctions, female, gender, human sexuality, male, marital, men, psychotherapy, sex therapy, sexual health, sexual medicine, treatments, women Audience: Clinicians who work with clients on issues pertaining to sexuality, including clinical psychologists, psychiatrists, clinical social workers, couple and family therapists, mental health and pastoral counselors, and psychiatric nurses. Also of interest to ob/gyns, urologists, and family physicians. "--

A revised and updated edition (with more than 70% new material) of the evergreen classic about the innate differences between boys and girls and how best to parent and teach girls and boys successfully, with completely new chapters on sexual orientation and on transgender and intersex kids. Eleven years ago, *Why Gender Matters* broke ground in illuminating the differences between boys and girls--how they perceive the world differently, how they learn differently, how they process emotions and take risks differently. Dr. Sax argued that in failing to recognize these hardwired differences between boys and girls, we ended up reinforcing damaging stereotypes, medicalizing normal behavior (see: the rising rates of ADHD diagnosis), and failing to support kids to reach their full potential. In the intervening decade, the world has changed drastically, with an avalanche of new research which supports, deepens, and expands Dr. Sax's work. This revised and updated edition includes new findings about how boys and girls interact differently with social media and video games; a completely new discussion of research on gender non-conforming, LGB, and transgender kids, new findings about how girls and boys see differently, hear differently, and even smell differently; and new material

Where To Download Because Of Sex International Edition

about the medicalization of bad behavior.

This book has been replaced by Principles and Practice of Sex Therapy, Sixth Edition, ISBN 978-1-4625-4339-7.

In 1961 Robert van Gulik published his pioneering overview of "Sexual Life in Ancient China," This edition of the work is preceded by an elaborate "introduction" by Paul Rakita Goldin assessing the value of Van Gulik's volume, the subject itself, and its author. The introduction is followed by an extensive and up-to-date "bibliography" on the subject, which guides the modern reader in the literature on the field which appeared after the publication of Van Gulik's volume. One of the criticisms in 1961 regarded the Latin translations of passages deemed too explicit by Van Gulik. In this 2002 edition all Latin has for the first time been translated into unambiguous English, thus making the full text widely available to an academic audience.

This book is a new and exciting resource for teachers, students, and activists who aim to critically examine contemporary sexuality through the lens of sexual literacy and situated social analysis. This original anthology provides shorter cutting-edge essays on theory, method, and activism, including the nature of globalization and local sexuality discovered in 'glocal' topics, processes, and contexts. These cutting-edge essays inform readers of key moments in sexual history, including areas relating to research, practice, and social policy, and provide a platform from which to engage in rich discussion and forecast the development of sexual literacy in our world within multiple contexts.

Praised and denounced when it was first published in 1970, Sexual Politics not only explored history but also became part of it. Kate Millett's groundbreaking book fueled feminism's second wave, giving voice to the anger of a generation while documenting the inequities -- neatly packaged in revered works of literature and art -- of a complacent and unrepentant society. Sexual Politics laid the foundation for subsequent feminist scholarship by showing how cultural discourse reflects a systematized subjugation and exploitation of women. Millett demonstrates in detail how patriarchy's attitudes and systems penetrate literature, philosophy, psychology, and politics. Her incendiary work rocked the foundations of the literary canon by castigating time-honored classics -- from D. H. Lawrence's *Lady Chatterley's Lover* to Norman Mailer's *The Naked and the Dead* -- for their use of sex to degrade and undermine women. A new introduction to this edition draws attention to some of the forms patriarchy has taken recently in consolidating its oppressive and dangerous control.

A revolution in gender relations occurred in London around 1700, resulting in a sexual system that endured in many aspects until the sexual revolution of the 1960s. For the first time in European history, there emerged three genders: men, women, and a third gender of adult effeminate sodomites, or homosexuals. This third gender had radical consequences for the sexual lives of most men and women since it promoted an opposing ideal of exclusive

Where To Download Because Of Sex International Edition

heterosexuality. In *Sex and the Gender Revolution*, Randolph Trumbach reconstructs the worlds of eighteenth-century prostitution, illegitimacy, sexual violence, and adultery. In those worlds the majority of men became heterosexuals by avoiding sodomy and sodomite behavior. As men defined themselves more and more as heterosexuals, women generally experienced the new male heterosexuality as its victims. But women—as prostitutes, seduced servants, remarrying widows, and adulterous wives—also pursued passion. The seamy sexual underworld of extramarital behavior was central not only to the sexual lives of men and women, but to the very existence of marriage, the family, domesticity, and romantic love. London emerges as not only a geographical site but as an actor in its own right, mapping out domains where patriarchy, heterosexuality, domesticity, and female resistance take vivid form in our imaginations and senses. As comprehensive and authoritative as it is eloquent and provocative, this book will become an indispensable study for social and cultural historians and delightful reading for anyone interested in taking a close look at sex and gender in eighteenth-century London.

Explores the history and future of human sexuality, including ancient customs, contemporary sex toys, sensuality in the age of AIDS, the effect of changing gender roles, and the development of virtual reality sex

Creating Gender Equality from the Ashes of Neoliberalism

This widely used clinical reference and text--now significantly updated with 75% new material reflecting therapeutic advances, diagnostic changes, and increased coverage of sexual minority groups--comprehensively addresses sexual problems and their treatment. Prominent contributors interweave theory, research, and clinical considerations. Detailed case examples illustrate the process of assessment and intervention with individuals and couples across the lifespan, with attention to gender-related, cultural, and health concerns. The volume features an integrative introduction and conclusion, plus an instructive editorial commentary at the beginning of each chapter. New to This Edition *Many new authors and extensively revised chapters. *Coverage of advances in sexual medicine, ICD-11 diagnostic changes, and other timely topics. *Chapters on sexual aversion, female sexual arousal disorder, and out-of-control sexual behavior. *Chapters on the transition to parenthood and the treatment of sexual concerns in the BDSM community and adult transgender clients. *Chapters on additional medical issues: cancer and spinal cord injury.

Williams Textbook of Endocrinology, 14 Edition: South Asia Edition, 2 Vol SET - E-Book

This widely adopted text and clinical reference provides a comprehensive guide to assessment and treatment of all of the major female and male sexual dysfunctions. Leading authorities demonstrate effective ways to integrate psychological, interpersonal, and medical interventions. Every chapter includes detailed clinical examples illustrating the process of therapy and the factors that influence treatment outcomes. Winner-- Society for Sex Therapy and Research (SSTAR)

Health Professional Book Award

The text of the novel is based on the first edition of 1847. For the Fourth Edition, the editor collated the 1847 text with the two modern texts (Norton's William J. Sale collation and the Clarendon), and found a great number of variants, including accidentals. This discovery led to changes in the body of the Norton Critical Edition text that are explained in the preface. New to "Backgrounds and Contexts" are additional letters, a compositional chronology, related prose, and reviews of the 1847 text. "Criticism" collects five important assessments of *Wuthering Heights*, three of them new to the Fourth Edition, including Lin Haire-Sargeant's essay on film adaptations of the novel.

Feminist legal theory is one of the most dynamic fields in the law, and it affects issues ranging from child custody to sexual harassment. Since its initial publication in 2006, *Feminist Legal Theory: A Primer* has received rave reviews. Now, in the completely updated second edition of this outstanding primer, Nancy Levit and Robert R.M. Verchick introduce the diverse strands of feminist legal theory and discuss an array of substantive legal topics, pulling in recent court decisions, new laws, and important shifts in culture and technology. The book centers on feminist legal theories, including equal treatment theory, cultural feminism, dominance theory, critical race feminism, lesbian feminism, postmodern feminism, and ecofeminism. Readers will find new material on women in politics, gender and globalization, and the promise and danger of expanding social media. Updated statistics and empirical analysis appear throughout. The authors, prominent experts in the field, also address feminist legal methods, such as consciousness-raising and storytelling. The primer offers an accessible and pragmatic approach to feminist legal theory. It demonstrates the ways feminist legal theory operates in real-life contexts, including domestic violence, reproductive rights, workplace discrimination, education, sports, pornography, and global issues of gender. The authors highlight a sweeping range of cutting-edge topics at the intersection of law and gender, such as single-sex schools, abortion, same-sex marriage, rape on college campuses, and international trafficking in women and girls. At its core, *Feminist Legal Theory* shows the importance of the roles of law and feminist legal theory in shaping contemporary gender issues.

Publisher Description

This book provides extensive information on pedophilia (sexual interest in the prepubescent body age), hebephilia (sexual interest in the early-pubescent body age) and sexual offenses against children, i.e., the various forms of child sexual abuse, including the use of child sexual abuse images, along with the current state of knowledge concerning offender groups. The book makes it clear that pedophilia or hebephilia do not inevitably lead to offenses against children - that there are those who keep their desires in their fantasies and do not act them out on the behavioral level. The World Health Organization classifies pedophilia as a mental disorder. It can be safely assumed that many pedophile men in a given community live their lives, unrecognized and adamant about hiding their sexual drives from society and from themselves, and who are genuinely motivated not to act upon their sexual fantasies. The numbers of exactly this particular group of pedophilically inclined non-offenders can be increased by preventive therapeutic measures. For this purpose, two treatment programs have been developed at the Institute of Sexology and Sexual

Medicine at the Charité-Universitätsmedizin Berlin (University Clinic) since the initiation of the Prevention Project Dunkelfeld in 2005 - First, the project involving adult participants (Berlin Dissexuality Therapy: BEDIT) and later, another for adolescents (BEDIT-A), who find themselves attracted to children. Both program manuals are completely integrated into this work, which reflects 15 years of assessment and treatment experience.

In this fascinating and revealing A-to-Z, John G. Younger examines the sexual practices, expressions and attitudes of the Greeks and Romans, from Catullus and Caligula, to orgies and obscenity, and from abstinence and incest, to pederasty and prostitution. The book opens with an overview of current thinking on ancient sex and sexuality, and goes on to provide an extraordinarily wide coverage of a sexual culture so very different from our own, approaching the subject from the perspectives of literature, history, archaeology and art. Comprehensive, reliable and eye-opening, this A-to-Z illuminates an important aspect of the classical world. For those who want to take their reading further, there are numerous references to ancient sources and modern scholarship, as well as a separate section of works of art. This is an ideal introduction to and exploration of sex in the ancient world for readers at every level.

Provides single women with advice on such topics as dealing with men, sex, career success, becoming sexy, making money, and staying healthy.

"Disorders of Desire is the only book to tell the story of the development and impact of sexology--the scientific study of sex--in the United States. This thoroughly revised and updated edition features new chapters addressing: the diagnosis of 'sex addiction' in the 1970s and its social and political implications; new developments within the field of sexology, including the 'Viagra Revolution' that began in the 1990s; the pharmaceutical industry's role in the development of sexual enhancements and the search for the female equivalent of Viagra; and the ongoing influence of Alfred C. Kinsey's work, amidst renewed conservative attacks against sex research"--Back cover.

Human Sexuality, Third Edition, helps students develop and design their own sexual philosophy. Every chapter begins with actual student questions from the author's files during nearly 20 years of teaching the human sexuality course.

Throughout each chapter the questions are answered and new ones are posed--encouraging students to think critically,

Where To Download Because Of Sex International Edition

analyze, and apply the material in personally relevant ways. Hock takes a psychosocial approach, infused with biological foundations throughout the text. The book focuses on topics that are most critical and of greatest relevance to students' personal lives and their interactions with others, and on how these topics affect them emotionally, psychologically, and interpersonally. This student-centered approach is incorporated into the text's discussions of all areas of sexuality: psychological, social and biological (including medical issues, sexual health, sexual anatomy and sexual physiology). Sensitivity to diverse groups, not only in terms of race and ethnicity, but also in terms of sexual orientation, age, sexual knowledge, and sexual experience allows all students to feel as comfortable and open about sexual topics as possible. This is the first book to focus on the relationships which men formed with their wives in early modern England, making it an important contribution to a new understanding of English, social, family, and gender history. Dr Foyster redresses the balance of historical research which has largely concentrated on the public lives of prominent men. The book looks at youth and courtship before marriage, male fears of their wives' gossip and sexual betrayal, and male friendships before and after marriage. Highlighted throughout is the importance of sexual reputation. Based on both legal records and fictional sources, this is a fascinating insight into the personal lives of ordinary men and women in early modern England

--
Everything you need to know about sex in the 21st century S-e-x isn't a bad three-letter word—but many of us are afraid to talk about it. In this new edition of the fun and comprehensive guide to sex, you'll find out how to approach intimacy in a new way to get the most pleasure from a physical relationship. Written by the world's favorite expert on the topic, Dr. Ruth helps you explore the ins and outs of dating and commitment, talk about sex with partners, and consider any health and social issues you may encounter along the way. As well as giving you all you need to know about how to make your sex life happy, safe, and rewarding, this edition of Sex for Dummies has been updated to include discussions of recent changes and issues surrounding sexual topics — such as transgender rights and the #metoo movement — to provide a modern, 360-degree view of how our diverse sexualities impact and enrich the world around us. Whether experienced or not, get the low down on how sex works Find out how to spice up yoursex life Take precautions to stay healthy Discover 10 common sexual myths — and why they're wrong Thanks to the timeless wisdom and unabashed honesty that only Dr. Ruth can offer, sex doesn't have to be taboo — and this book makes it easier than ever to let your hair down in the bedroom while still keeping your head on straight!

A rape victim charges that pornography caused her attacker to become a sex offender. A lesbian mother fights for custody of her child. A transsexual pilot is fired by a commercial airline after undergoing sex change and sues for sex discrimination. A homosexual is denied employment because of sexual orientation. A woman argues that her criminal

Where To Download Because Of Sex International Edition

behavior should be excused because she suffers from premenstrual syndrome. The law has much to say about sexual behavior, but what it says is rarely influenced by the findings of social science research over recent decades. This book focuses for the first time on the dynamic interplay between sexual science and legal decisionmaking. Reflecting the author's wide experience as a respected sex researcher, expert witness, and lawyer, *Sexual Science and the Law* provides valuable insights into some of the most controversial social and sexual topics of our time. Drawing on an exhaustive knowledge of the relevant research and citing extensively from case law and court transcripts, Richard Green demonstrates how the work of sexual science could bring about a transformation in jurisprudence, informing the courts in their deliberations on issues such as sexual privacy, homosexuality, prostitution, abortion, pornography, and sexual abuse. In each case he considers, Green shows how the law has been shaped by social science or impoverished by reliance on conjecture and received wisdom. He examines the role of sexual science in legal controversy, its analysis of human motivation and behavior, and its use by the courts in determining the relative weight to be given the desires of the individual, the standards of society, and the power of the state in limiting sexual autonomy. Unprecedented in its portrayal of sexuality in a legal context, this scholarly but readable book will interest and educate professional and layperson alike--those lawyers, judges, sex educators, therapists, patients, and citizens who find themselves standing nonplussed at the meeting place of morality and behavior.

A critical reevaluation of "establishment feminism" by a noted feminist intellectual argues that feminist politics should not control women's private lives and that such ideas as femininity and instinct can be a part of feminism. Tour.
