Learning to play the guitar should still be fun. In this second volume of my Guitar Tutor, I have put together 78 pieces of music for classical guitar, right up to modern rock and pop compositions. While my aim is to help students achieve steady progress, I also want them to appreciate how versatile the guitar is as an instrument. You won't find any nursery rhymes in this book! Our students are no longer children; they want to play rock and pop. Fingerstyle songs. Chords. Picking and plucking. Power chords. They'll learn all of these, step by step, in Merlin's Guitar Lessons. 96 PAGES ? 78 PIECES ? POP ? ROCK ? CLASSICAL TRADITIONAL ? BLUES ? PICKING ? SONG ACCOMPANIMENTS IMPROVISATION ? This book and streaming video course is all that your children will ever need for getting started and having fun playing the most famous and cherished guitar songs! This book is a fun guide on the first steps of learning to play Guitar with over 70 photographic examples, purpose-made diagrams and cartoons. Starting with advice on buying your first guitar, how to hold the guitar and how to tune it, the music then begins with easy-to-play melodies using only open strings (open strings means only the plucking hand is used), before moving to simple pieces in which the fretting hand is also used. The book goes into detail for some basic techniques because you're better off getting it right from the start rather than develop bad habits. Tablature Based - it uses mostly guitar tablature making this popular instrument more easily accessible for beginners (as do most adult guitar method books). The rhythmical aspect of Sight-reading is covered within the Chords section which eases-in the later Sight-reading section because the only new thing to learn will be reading different notes from the musical staff. Audio Tracks - this Guitar Book For Kids comes with 47 downloadable audio tracks with musical pieces in styles such as Rock, Blues, Pop, Flamenco, Jazz and Reggae. Each piece has a full band demo track and accompanying backing track with guitar part removed for you to play over. What More? - EZ chords are covered (easy chords with less notes) and are accompanied with diagrams of the full versions for later on, or if you feel like a challenge. There's an introduction to Power chords with Rock pieces to play named after healthy greens "Broccoli Rockilly" and "Rocket Salad". There's a Blues and Rock duet with backing band tracks to play with a friend, and at the end there is a Quiz, no cheating! It is specifically crafted to suit the needs of all children beginning the guitar!

É This guitar method focuses on playing engaging rhythmic themes entirely on open strings. What seems at first to be a simple task quickly becomes a real challenge, requiring a high level of accuracy and an excellent sense of rhythm. While the picking hand can only play what the other hand has prepared, nothing musical will happen unless you pluck the right string. Sven Nier's exercises and tunes offer motivating, effective training to facilitate hitting the correct string with precision, winning half the coordination battle. While the audio examples are recorded on an electric instrument, guitar teachers and beginning students in all styles will appreciate this innovative book. Includes access to outstanding play-along online audio with and without the solo part.

So, you want to learn guitar? You've looked into the different styles of guitars and amps, gone through several different types of "beginner" and "how-to" books, only to get frustrated and confused. Yes, guitar, nor any instrument, is "easy" to learn. That's why you see all the great guitarists spend HOURS every day practicing, as well as learning. From the 1st time you pick up a guitar, until you've accepted that Hall of Fame induction, you will ALWAYS be learning. But, there is an easier method to get the basics of guitar down, learn to play some classic songs, and build the confidence you need to excel in guitar. In as little as 5-15 minutes, you can be playing songs, such as: Smoke on the Water, Another One Bites the Dust, Sunshine of Your Love, to name a few. And, at the same time, you will be learning the basic skills, such as: rhythm, timing, as well as how to play along in a group. With my simple, easy 15-minute guitar lessons, you will be jamming along to legends, such as: AC/DC, Black Sabbath, Eric Clapton and many, many more. We'll start with discussing the parts of the guitar, how to tune and strum. Next, we'll cover 7 notes and 6 basic chords. Then, putting those basics together, we'll quickly cover the basics of reading sheet music. Finally, we go over how to play some simple kid's songs, as well as those classic rock songs everyone wants to learn.

What better home for your notes, thoughts, plans and doodles than this journal? Wondering how to start journaling? Buy this book, pick up a pen or pencil and start your personal journey. 110 lightly-lined writing pages provide plenty of writing and doodle space.
